RESOLUTION 2009R-037
By Goodman

Approving a 2009 Housing Finance Program and the issuance by the Minneapolis/Saint Paul Housing Finance Board of Single Family Mortgage Revenue Bonds and/or Mortgage Credit Certificates pursuant thereto.

Whereas, pursuant to the Minnesota Municipal Housing Act, Minnesota Statutes, Chapter 462C (the "Housing Act"), the City of Minneapolis, Minnesota (the "City") is authorized to carry out programs for the financing of single family housing for persons of low and moderate income; and

Whereas, the Minneapolis/Saint Paul Housing Finance Board (the "Board") proposes to undertake a 2009 single family housing finance program (the "Program") to issue mortgage revenue bonds and refunding bonds (the "Bonds") or to issue mortgage credit certificates ("MCCs") to provide a tax credit to first-time homebuyers to reduce the cost of financing a home located in the City or Minneapolis, all pursuant to Minnesota Statutes, Sections 469.001 to 469.047, Chapters 462A, 462C and 474A and Section 471.59 (together, the "Act"); and

Whereas, the Act requires adoption of the Program after a public hearing held thereon following publication of notice in a newspaper of general circulation in the City and Saint Paul at least fifteen days in advance of the hearing; and

Whereas, the Community Development Committee of the City Council on January 27, 2009, conducted a public hearing on the Program after publication of notice as required by the Act; and

Whereas, the Program was submitted to the Metropolitan Council at or before the time of publication of notice of the public hearing thereon, and the Metropolitan Council was afforded an opportunity to present comments at the public hearing, all as required by the Act; and

Whereas, the adoption of the Program and the issuance by the Board of Bonds and/or MCCs are in the best interests of the City;

Now, Therefore, Be It Resolved by The City Council of The City of Minneapolis:

1. The Program is hereby approved in its entirety in substantially the form on file with the City. The officers of the City and the Board are authorized to take all actions as may be necessary or appropriate to carry out the Program in accordance with the Act and any other applicable laws and regulations.

2. Be It Further Resolved that the issuance of the Bonds and/or MCCs pursuant to the Program is hereby approved.

3. Be It Further Resolved that the Bonds and/or MCCs may be issued in one or more series at the time or times and pursuant to terms determined by the Board, and be structured so as to take advantage of whatever means are available and are permitted by law to enhance the security for, or marketability of, the Bonds, provided that any such financing structure must be approved by the Board. The MCCs may be issued at the time or times and pursuant to terms determined by the Board. All such determinations by the Board must comply with the applicable provisions of the Act and the Internal Revenue Code, of 1986, as amended, and regulations promulgated thereunder.

Be It Further Resolved that nothing in this Resolution or the documents prepared pursuant hereto shall authorize the expenditure of any municipal funds on the Program other than as specified and authorized by separate actions of the City and other than the revenues derived from the Program or otherwise granted to the City for such purpose. The Bonds shall not constitute a charge, lien or encumbrance, legal or

equitable, upon any property or funds of the City except the revenues and proceeds pledged to the payment thereof, nor shall the City be subject to any liability thereon. The holders of the Bonds shall never have the right to compel any exercise of the taxing power of the City to pay the outstanding principal on the Bonds or the interest thereon, or to enforce payment against any property of the City. The Bonds shall not constitute a debt of the City within the meaning of any constitutional or statutory limitation of indebtedness.

Adopted 2/6/2009.

Resolution 2009R-042, regarding Xcel Energy's Midtown High Voltage Power Line Proposal, was adopted 2/6/2009 by the City Council. A complete copy of this resolution is available for public inspection in the office of the City Clerk.

The following is the complete text of the unpublished summarized resolution.

**RESOLUTION 2009R-042
By Schiff, Lilligren and Gordon**

Regarding Xcel Energy's Midtown High Voltage Power Line Proposal.

Whereas, Xcel Energy has proposed the "Hiawatha Project", a project in which Xcel Energy would construct and operate high voltage power lines along the Midtown Greenway and/or a nearby parallel roadway between Hiawatha Avenue and I-35W and construct two new substations—one near Hiawatha Avenue and one near I-35W; and

Whereas, some businesses in the Lake Street/Midtown Greenway corridor have experienced electricity quality or supply issues that have adversely affected them; and

Whereas, the City of Minneapolis supports the continued economic development in the Lake Street/Midtown Greenway corridor with higher density developed as encouraged through the City's Midtown Greenway Land Use and Development Plan; and

Whereas, the Midtown Greenway is a regional amenity and public space which serves thousands of users daily most months of the year and has served as the catalyst for development along its edges; and

Whereas, high voltage power lines are incompatible with the character of neighborhoods in Midtown, creating visual pollution in the corridor, negatively impact property values and diminishing the potential for future development; and

Whereas, at least four community organizations in the impacted area have opposed the project and/or called for delaying it to allow for studying alternative methods of abating power requirements or supplying the electric power as well as load management through means such as Smart Grid; and

Whereas, the City of Minneapolis' Sustainability Initiatives related Climate Change and Renewable Energy support the pursuit alternatives to traditional methods of supplying electricity for users in our city; and

Whereas, Xcel Energy is working on a needs assessment for the Hiawatha Project that would accompany its permit application to the Minnesota Public Utilities Commission but whose content has not yet been completed or made public;

Now, Therefore, Be It Resolved by The City Council of The City of Minneapolis:

That the City of Minneapolis believes that the time is now to pursue the production of electricity more responsibly, the delivering of electricity more intelligently, and the consuming of electricity more efficiently.

Be It Further Resolved that the City of Minneapolis recommends that Xcel Energy delay its routing permit application to the Minnesota Public Utilities Commission for the Hiawatha Project and provide greater detail regarding the current and future electricity needs that the project is planned to address, as well as a thorough analysis of aggressive alternative methods to abate and/or supply the electricity that is needed.

Be It Further Resolved that if such an analysis is undertaken and fails to yield a successful alternative approach to the need for high voltage power lines in Midtown; that the preferred route for the new high voltage transmission lines is underground below 28th Street East, and that the cost of burying the line should be born by the maximum number of rate payers; and that the City of Minneapolis and Xcel explore burying all present and future high voltage lines.

Adopted 2/6/2009.

The HEALTH, ENERGY & ENVIRONMENT and WAYS & MEANS/BUDGET Committees submitted the following reports:

HE&E & W&M/Budget – Your Committee recommends that the proper City officers be authorized to execute amendment #3 to contract #A052146 with Hennepin County to receive \$466,344 for the operation of the Minnesota Family Investment Program (MFIP) during the period January 1 through December 31, 2009.
