

Preventing bicycle theft

Each year thousands of bicycles are stolen or recovered in Minneapolis. Only a small percentage of recovered bicycles are returned to their owners due to lack of reporting or proper identification of the bicycle.

Tips to prevent bicycle theft

- Always lock unattended bicycles! Use a lock resistant to cutting, breaking or picking (example: a “U-lock”).
- Make sure both wheels are locked, either by removing one and U-locking it with the other and the frame or by using an auxiliary lock on one. You can also purchase devices that replace the cam and the lever on quick release wheels and seats with a keyed system.
- Lock the bicycle to something stationary, preferably where you and others can see it. Note that it is illegal in Minneapolis to lock bikes in a manner that will impede normal pedestrian or traffic movement. (Minneapolis Ordinance 490.150)
- Properly secure garages or storage units where bicycles are kept. Lock your bike inside the garage by the same techniques as listed above.
- Remove any bicycle components and accessories that are easily taken.
- Be observant. Call 911 if you see suspicious activity.

How to report stolen or lost bicycles

- Call 911 to report a theft in progress, from a dwelling or storage unit, or when evidence is left behind (e.g., fingerprints, tools, video surveillance).
- Call 311 or (612) 673-3000 to make a police report if you did not witness the theft in progress or if no evidence was left behind.
- To request a database search of recovered bicycles, contact Property and Evidence at (612) 673-2932. They are open Monday through Saturday, 8:00 a.m. to 9:00 p.m.

Tips to increase the odds of a stolen bike being returned

- Record the make, model, and especially the serial number on your bicycle. Keep this information in a safe place; it is essential to recovering bicycles. Photographs may also help.
- Use Operation Identification to mark your valuables and make it easier for the police to trace stolen merchandise. You can obtain an OPID number free from the OPID message line at (612) 673-2749. Put the number on the frame and on accessories with an engraving device. The number will help officers connect the bike back to you.
