

Neighborhood Name: Standish Ericsson Neighborhood Association (SENA)

Neighborhood Approval Date: April 11, 2016

NCR Approval Date: October 31, 2016

Water Quality of Lake Hiawatha: A variety of factors have brought concerns about the water quality at Lake Hiawatha to the forefront. This is certainly not a new problem, but with new focus on problems with water at the Hiawatha Golf Course and possible changes at Lake Hiawatha there is a resurgence of interest and concern from Standish and Ericsson residents.

Partners: Minneapolis Park Board, Minnehaha Creek Watershed District, local residents

Community Engagement Regarding Development on 38th Street: The first larger development in the neighborhood for many years is anticipated to begin in the spring of 2016. SENA's goal is to make sure that residents are well-informed about the development and informed about any community meetings, neighborhood votes or required resident input.

Partners: City of Minneapolis Planning Department, Lander Group/Forteva development team, neighborhood residents

Community Outreach for a Strategic Planning Process: SENA will be surveying the community to determine if the current board and business practices line up with what the community wants from the neighborhood group.

Partners: Residents, business and property owners, school, library, and park staff, other neighborhood institutions.
