

**Neighborhood Name:** Logan Park

**Neighborhood Approval Date:** May 2, 2018

**NCR Approval Date:** July 20, 2018

Over the past year, Logan Park Neighborhood Association has been carrying out a process to identify and act upon priorities shared by neighborhood stakeholders. This effort came together in a bi-lingual neighborhood-wide survey completed by 118 respondents at the end of January 2018. Major areas ranked by level of importance in the survey included the following:

<u>Category</u>	<u>Rank</u>
• Infrastructure	.64
• Environment	.60
• Housing	.56
• Park	.44
• Arts	.37
• Seniors	.32

Many of the comments included in the responses under “Environment” named raingardens, community gardens and pollution prevention measures as high in importance.

With this in mind, and with timing and opportunity a consideration, the Logan Park neighborhood approved the following Neighborhood Priority at its May 6<sup>th</sup> Annual Meeting:

Neighborhood Priority:

### **Raingardens**

Work with Metro Blooms to support the installation of raingardens in the Logan Park neighborhood.

Funding:

**\$7,000**
