

# University Ave SE and 4<sup>th</sup> St SE Protected Bikeway

Marcy Holmes Neighborhood Association

October 16, 2018

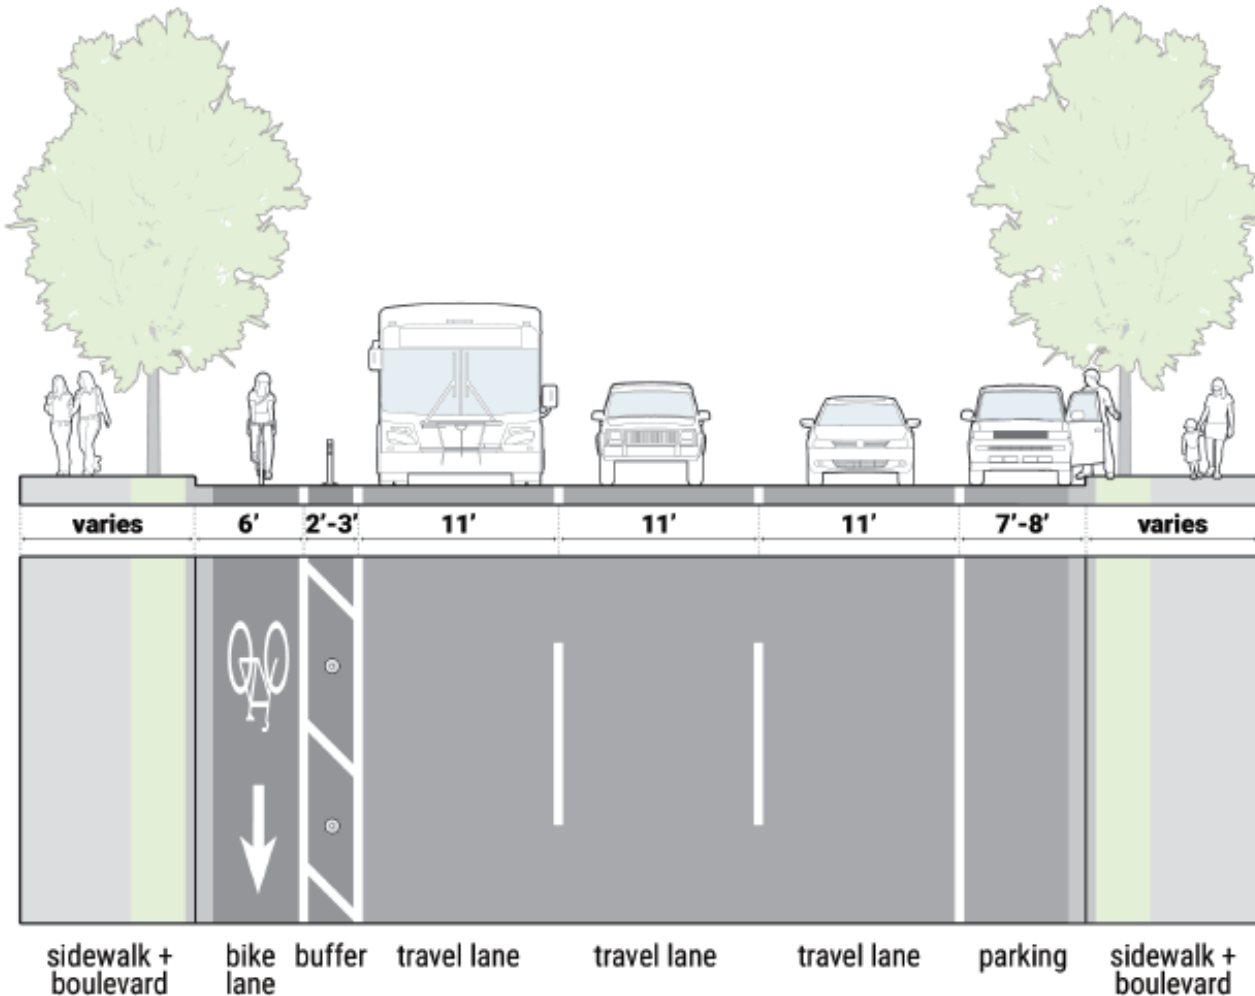

# Project Background

- University Ave SE and 4<sup>th</sup> St SE both have existing bike lanes
- The Minneapolis Bicycle Master Plan calls to upgrade them to be protected bike lanes
- In 2017-2018, the City of Minneapolis, Hennepin County, and MnDOT partnered with corridor stakeholders to evaluate different protected bikeway designs including 1-way and 2-way bikeways
- The recommended design is for a pair of 1-way bikeways, in addition to added parking and traffic calming on the west end of the corridor
- A short 1-block connection is also planned on Central Ave NE between University Ave SE and 4<sup>th</sup> St SE
- The project is planned for installation in summer of 2019

# Typical Design east of I-35W

## University Ave SE:

3 travel lanes maintained

Parking maintained on north side

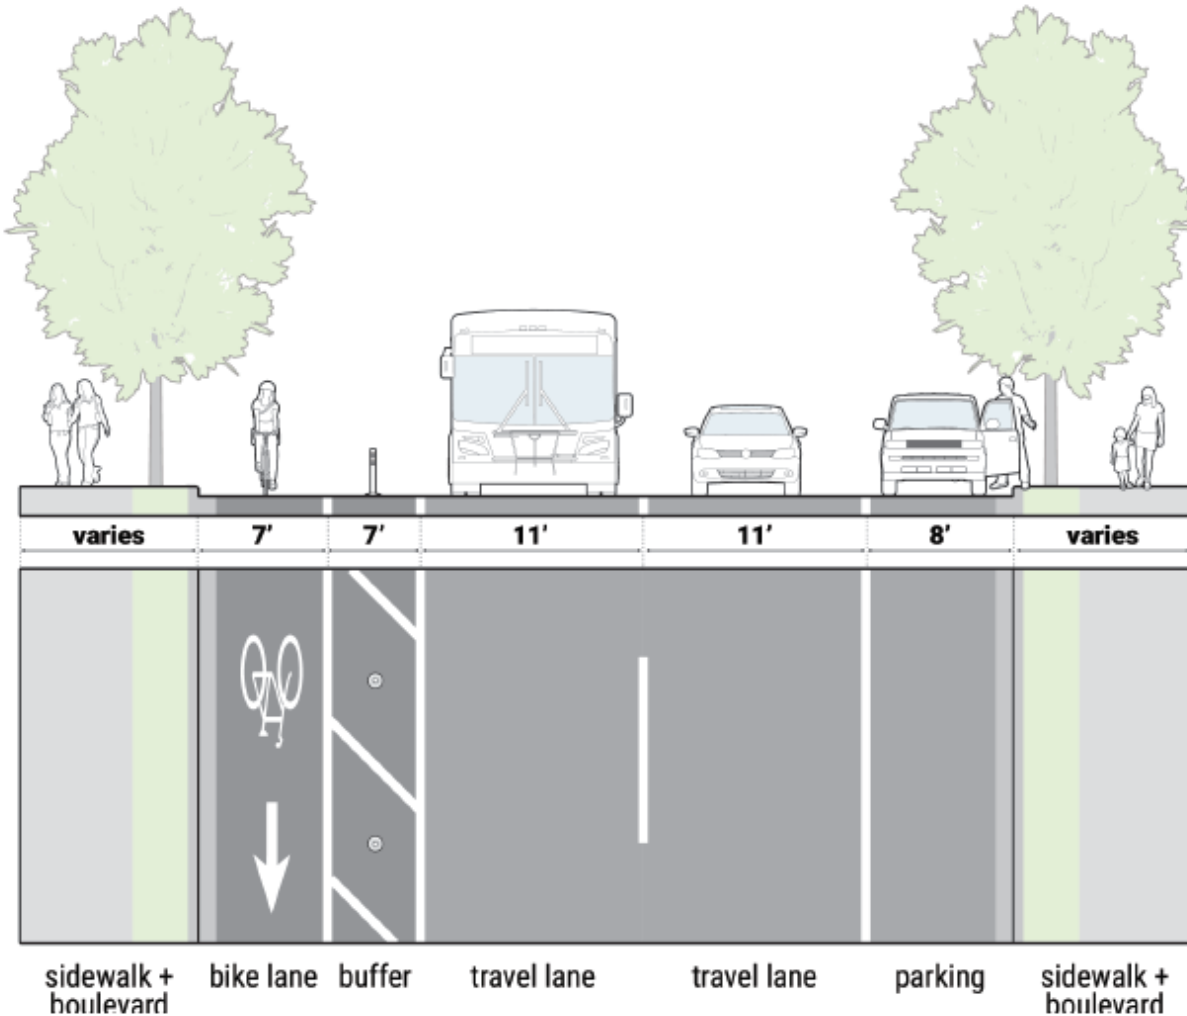

## 4<sup>th</sup> St SE:

3 travel lanes maintained

Parking maintained on south side

# Typical Design west of I-35W

## University Ave SE:

2 travel lanes maintained

Parking maintained on north side

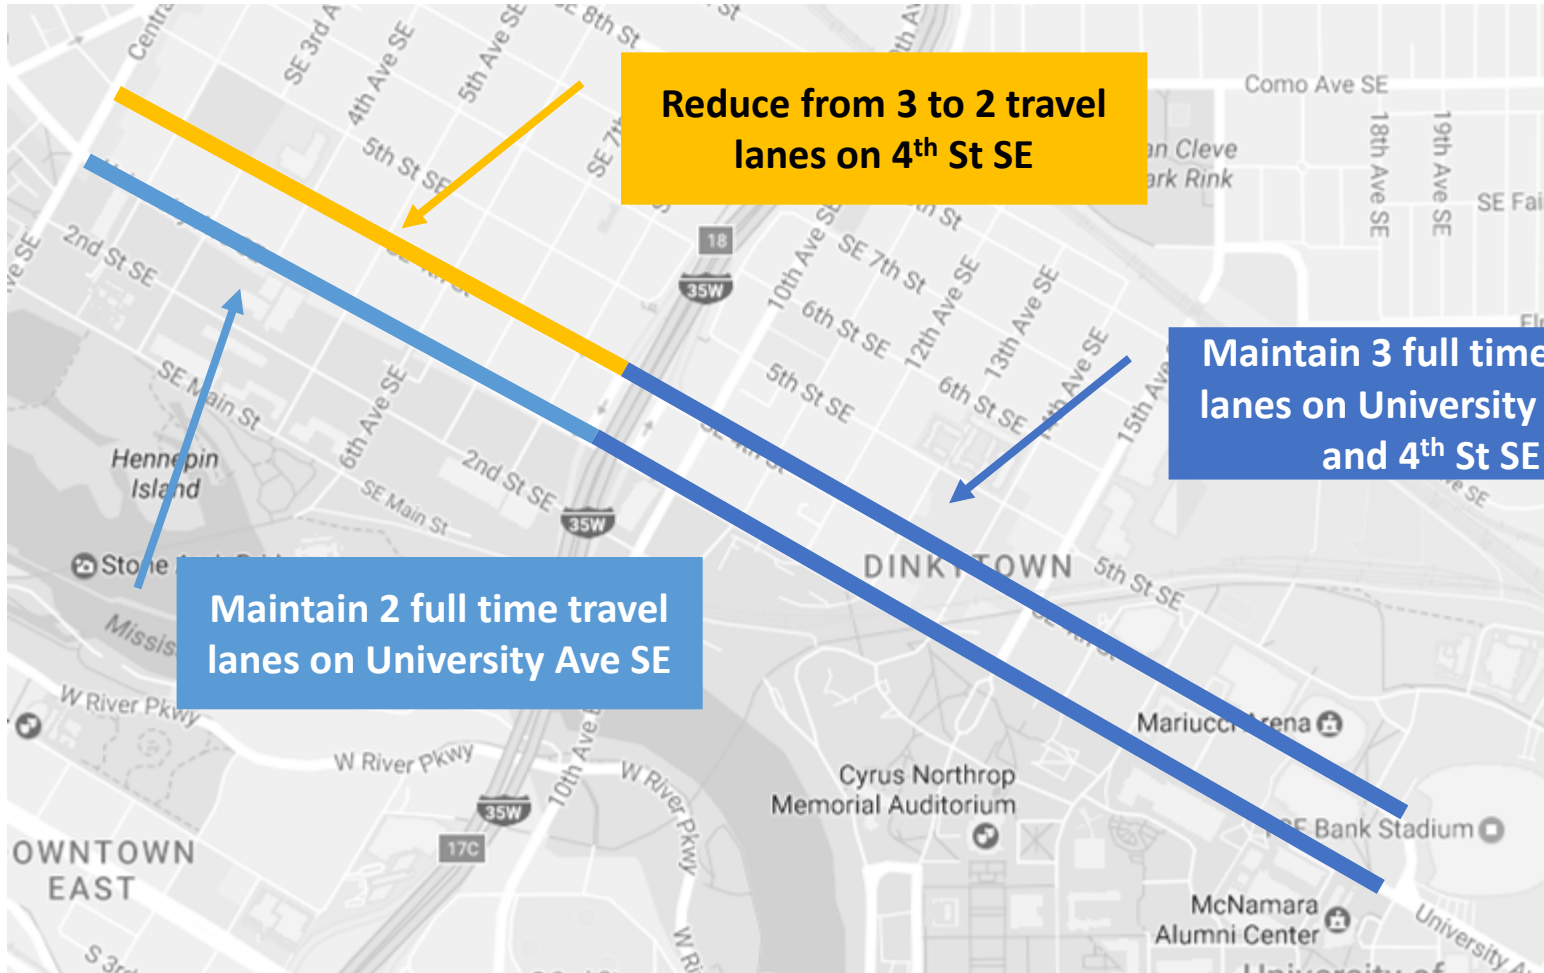

## 4<sup>th</sup> St SE:

Travel lanes reduced from 3 to 2 lanes,

Parking added on south side (100 spaces)

# Travel Lanes Changes

# On-Street Parking Changes

# Schedule and Contacts

## Schedule

Installation of bikeway is anticipated in summer 2019. East of I-35W, the project is being coordinated with a Hennepin County resurfacing project on University Ave SE.
