

26th Ave N. Reconstruction Beginning Monday

The 26th Ave N paving project is resuming on Tuesday May 31. Construction this year will primarily takeplace along 26th Ave N from Broadway to Irving Ave N. The project area for 2016 is shown in red on the detour map below.

Phase I Detour Route

26th Avenue North (Vincent Ave to Mississippi River)
2016 (PV073)

Additional information and updates on this project are available at the [Project Web Site](#) or on [Facebook](#)

HYDRANT RELOCATE WORK COMPLETE

The hydrant relocates along 26th Ave N between Broadway and Humboldt has been

completed. There may be some additional water work to concrete encase some portions of the main; however this is to be done along with the roadway construction.

The sanitary sewer and water main upgrades at 2nd St. N and 26th Ave N will be completed next week and the area will be patched shortly thereafter.

CONSTRUCTION

Construction is scheduled to begin on the week of May 31st and estimated to be substantially completed with new pavement by late October. The project will include complete removal and replacement of the pavement surface, curb and gutter, storm drains, driveway approaches, and sidewalk, new trees and sod, and installation of a new off-street bike path. Please understand that the construction schedules are subject to change due to weather and unforeseen circumstances.

The pavement and north sidewalk will be removed between Broadway and Irving starting next week. There will be some trees removed as they are in the proposed bikeway, the trees to be removed this year are marked with an orange X. There will be new trees planted in 2017-2018.

Once the removals and underground utility work is complete, the new concrete pavement can be placed. At times during paving, the new concrete will be blocked off to allow the fresh pavement to cure. If the approach to your driveway is on 26th Ave N., we will notify you in advance of placing your new driveway approach as well as roadway paving and ask you to park at another location for approximately 7 days. During the majority of construction, local access to homes and businesses will be maintained. Through traffic will be detoured around the project on Lowry Avenue.

Our construction activities are likely to cause you some inconvenience, but we are hopeful that you will be patient and understanding as the work progresses. For our part, we will do our best to keep these inconveniences at a minimum.

PROJECT CONTACTS

If you have any questions or concerns about this improvement project, please call me, **Stephanie Malmberg** at **673-3365**. You can also contact the Chief Field Inspector on the Project, **Menbere Wodajo** at **673-3716**.
