Subject: Resolution in support of the Bumpout Pilot.

Bumpout Pilot

The Minneapolis Pedestrian Advisory Committee enthusiastically supports the Bumpout Pilot project at 7th & Chicago. We salute the efforts of Public Works and DeziqLine to demonstrate the improvements to pedestrian confidence, comfort and safety that bumpouts bring to active intersections and encourage that the pilot be replicated at additional opportune locations. The committee further appreciates this type of initiative, placing pedestrian-enhancing innovations at instructive sites, as an example of a design trial approach for which we advocate.
