Complete the application fields

- Next, complete a series of steps (entries or screens). The specific steps that need to be completed may vary from this example, depending on the requirements of the position applied for.

As the application is completed, refer to the progress bar to see the number of items for each entry (), and to check for errors (!). In this example, the work entry contains eight items, and the questions entry contains errors.

For each step, the buttons on the bottom allow information in each section to be saved or discarded.

- Although your entries are periodically automatically saved, it is good practice to click on the Save button.
- The Cancel button discards any changes made since the last save.
- For some entries, the Remove link is present. It deletes the current entry (such as a previous job), after a confirmation. Once deleted, the data cannot be recovered.
