

Free Asthma Help for Children

Minneapolis Asthma Program (MAP)

To qualify for this program, a family needs to:

- Have a child or children with asthma from ages 0-21
- Live in the City of Minneapolis, either as a renter or homeowner

Asthma is often triggered or made worse by common things found in homes such as: dust mites, mold, pets, cockroaches, and second-hand smoke.

We want to help reduce these possible asthma triggers. There is no cost to your family.

The Minneapolis Health Department will provide you with:

- A walkthrough of your home by a specialist trained in asthma and housing problems including air testing in your home to look for problems
- Video consulting available
- Free products like an air purifier, furnace filter, allergen vacuum, allergen pillow and mattress covers to help remove indoor air pollutants and professional pest removal
- Education on common asthma triggers in the home-and what you can do to reduce them
- Referrals for resources

For reasonable accommodations or alternative formats please contact (add your information here including: department, contact person, phone and email). People who are deaf or hard of hearing can use a relay service to call 311 at 612-673-3000. TTY users call 612-673-2157 or 612-673-2626.
