Preface

(11/08/16)

Minneapolis Police Officers are not separate from the citizens of Minneapolis. We draw our authority from the will and consent of the people. The police are the instrument of the people to achieve and maintain order. Our efforts are founded on the principles of public service and ultimate responsibility to the public.

The specific goals and priorities which we establish within the limits of our legislatively granted authority are determined to a large extent by community desires. These desires are transmitted to us through the community and the governing body of the City of Minneapolis. We conscientiously strive to be responsive to these desires, knowing full well that we exist not to serve ourselves but to serve and protect others.

Police officers are accountable to the people for their decisions and the subsequent consequences. A substantial percentage of police work is done in direct response to citizen complaints. This underscores the frequently unrecognized fact that members of the public are an integral part of the criminal justice system. Though many factors play a role in the success of the system, citizen participation is preeminent. Public confidence in the criminal justice system depends primarily on the trust that the people have in their police.

The fundamental purpose and role of the police in a free society is the protection of constitutional guarantees, maintenance of public order, crime prevention and suppression, and dutiful response to the needs of the community.

The role of the Minneapolis Police Department, as stated above, is the guiding principle for the development of the Department Vision Statement and accompanying critical issues; the Policy

and Procedural Manual; the goals, objectives, and policies of all organizational components; and the priorities of the Minneapolis Police Department.

Vision, Mission, Values and Goals

(12/21/01) (09/19/08) (03/29/17) (02/25/19) (06/01/22)

Adopted by the Minneapolis Police Department on 01/18/22:

Vision:

Policing is a sacred trust, a pledge by each of us to care for and safeguard the members of this community. This is the why at the heart of everything we do - every decision we make on every call, case and interaction. As we hold ourselves accountable, we must always examine whether the actions taken reflected the spirit of caring and a genuine effort to leave the situation better than it was when we became involved.

Mission:

What we do is consistently provide the full range of professional police services from the heroic to the prosaic: protecting the vulnerable from danger, arresting offenders who have harmed others, comforting the bereaved, rendering first aid, writing reports, collecting evidence, investigating cases, giving referrals to other government services, answering questions, offering directions, attending community meetings, and so much more.

Public safety is not just the absence of crime, it is the presence of justice. How we do our work is as important as what we do; we treat others with dignity, giving them voice and respect, being neutral in our decision-making and working to build trust. Every aspect of our professional service must demonstrate our commitment to procedural justice. We will act by giving others Voice and Respect, being Neutral and building Trust in our interactions.

Values:

- Trust
- Accountability
- Professional Service

Goals:

- Public Safety
- Justice
- Employee Wellness

Pillars of Procedural Justice:

- Voice
- Neutrality
- Respect

- Trustworthiness

Commitments:

1. Care

We act to care for others in the community and for one another in the department.

2. Connection

We look for opportunities to recognize the humanity of others with our words and our actions and to make a human connection. Community members want to know and be known by the people who serve in the MPD. Compassion and empathy build trust and relationships.

3. Communication

Our words are one of the most important tools we have. We take the time to listen to others and to explain what is going to happen and why decisions were made so participants feel they were understood and treated fairly. Whenever possible, we use communications skills to de-escalate and resolve conflict to achieve voluntary cooperation and reduce the necessity to use force.

4. Courage

Policing requires both physical and moral courage. We act in the face of risk and danger to protect others from harm. We stand up for what is right, for our purpose and the values of our profession even in the face of adversity or scorn.

5. Character

Character is our values in action. We align our actions with our department values of trust, accountability and professional service as well as the principles of honesty, integrity, fairness, service and diligence.

2. Before an administrative hearing is begun, the officer must be given a copy of the signed complaint.

D. External Complaint Reporting

4. All citizen complaints of misconduct by an MPD employee shall cause an investigation into the misconduct alleged.
 - a. The investigation shall continue to its logical conclusion, unless upon initial review by Internal Affairs there is undisputed evidence that the alleged complaint is unfounded and there is no indication of other misconduct in the incident that is unrelated to the original allegation. All cases that are dismissed after initial review shall be documented and filed for future reference.
 - b. At no time shall a citizen complaint of misconduct received by Internal Affairs result in an inquiry and not an investigation, unless an exception is made for cause by the Chief of Police.

 - b. All employees shall answer all questions truthfully and fully render material and relevant statements to a competent authority in an MPD investigation when compelled by a representative of the Employer, consistent with the constitutional rights of the individuals.

Performance Evaluations

2-201 Employee Evaluation Required

(01/08/02)

(A)

Supervisors shall ensure that employees are evaluated at least once every year. A preliminary evaluation shall be conducted on each MPD employee by March 1st. The final evaluation shall be conducted by October 15th of each year. Employees may be evaluated more frequently if deemed necessary by a supervisor. MPD personnel will also be evaluated within ten days of any permanent assignment change by a supervisor from the previous assignment unless an evaluation has been done within the three months prior to the transfer. This evaluation is not required if the employee has received an evaluation within three months prior to the assignment change. (05/18/04)

Employees participating in a 90-day career enrichment program shall have a performance evaluation completed within ten days of finishing the program. The employee's 90-day career enrichment supervisor shall complete this evaluation.

If the supervisor of a unit or other area with only one supervisor leaves, the supervisor will evaluate the employees of that unit or area within ten days of the assignment change unless an evaluation has been done within three months prior to the transfer.

2-202 Evaluation Purpose and Procedure

(01/08/02) (04/14/05)

The purpose of a performance evaluation is to improve communication regarding performance expectations, develop and promote employee development process as well as to recognize the level of accomplishment in the performance of an employee's duties. Performance evaluations for all MPD personnel shall be completed on the Minneapolis Police Department Employee Appraisal form (MP 9001 for civilians and MP 9002 for sworn officers). Copies of the forms can be found on the MPD's Intranet site. (05/18/04)

The process is focused on a comparison of the employee's actual level of performance measured against performance standards that are developed by supervisors and employees through open and ongoing communication. The comparison of actual performance with department expectations and standards serves both as a basis for recognition of individual accomplishment as well as a method to plan improvement where deficiencies are found.

The supervisor completing the performance review must review it with the affected employee, including those evaluations done because of a permanent assignment change. Employees will acknowledge performance reviews with their signature on the evaluation form. A signature does not indicate agreement with the evaluation. Each supervisor shall forward all performance evaluations

to the Commander for final review. After the Commander has approved and signed the performance evaluation, it will be forwarded to MPD Human Resources. If requested, a supervisor shall provide an employee with a copy of their performance review.

An employee wishing to challenge a performance review may request an interview with their second level supervisor prior to the evaluation being forwarded to MPD Human Resources. The second level supervisor will notify the employee and their supervisor in writing of their decision, of the challenge, within ten days of the interview. Their written decisions will be included in the employee's performance review file.

Generally the employee may challenge their evaluations only to the second level of supervision. If the performance review is still in dispute, the employee may challenge to their Bureau Head. The request must be submitted through the Precinct/Unit/Division Commander. Bureau Heads may choose to review the documents or let the second level supervisor's decision stand. The Bureau Head will notify the employee, their supervisor and the commander, in writing, of their decision within ten days of the challenge. Bureau Head decisions will be final. Their written decisions will be included in the employee's performance review file.

Completed performance reviews with all attachments (employee input, challenges, etc.) must be returned to MPD Human Resources within ten days of the review or final challenge and maintained in the employee's personnel file for four years after the employee terminates employment with the City of Minneapolis.

Date:
24 June 2013

Volume Three – Work Rules and Benefits

General Work Benefits

3-601 Days Off – Donated Off-Day

(03/19/02)

All sworn and civilian personnel are entitled to receive days off each year equaling the total number of weekends per year plus the number of legal holidays allowed by their respective labor agreements.

Officers who are members of the Minneapolis Police Federation (POFM) are required to donate off-day time to the Federation so that they may conduct necessary business (see POFM labor agreement, Leaves of Absence Governed by this Agreement section).

3-602 Religious Holidays

(03/19/02)

Employees may request a leave of absence with pay for religious holidays. The time may be debited from vacation or accrued compensatory time. Employees may work an off day in lieu of the holiday within the same payroll period, with supervisory approval as long as no overtime is accrued.

3-603 Time Off to Vote

(03/19/02)

Minn. Stat. 204C.04 states, “Every employee who is eligible to vote in an election has the right to be absent from work for the purpose of voting during the morning of the day of that election, without penalty or deduction from salary or wages because of the absence. An employer or other person may not directly or indirectly refuse, abridge, or interfere with this right or any other election right of an employee.” (03/25/05)

3-604 Vacation Accumulation and Selection

(03/19/02)

Vacation time is accumulated at a rate determined by existing labor agreements. Leaves in excess of the number of days allotted by individual labor contracts will not be recorded and shall be considered lost.

Vacation periods shall be selected by rank and by seniority within rank and will be administered by the precinct, unit or division commander in order to maintain sufficient staffing levels.

Employees who split their vacations may apply seniority preference to either part, but not to both. Vacation shall mean four or more consecutive vacation days. (06/24/13)

Employees who wish to take vacation time in excess of two weeks (including compensatory time and off days) must obtain prior approval from their respective Bureau Head and Commander. (06/24/13)

Seniority among persons having identical dates of employment or promotion shall be determined by their relative positions on the eligibility/promotion list from which they were appointed.

Each shift, unit or division supervisor will not permit more than ten percent of their staff to be on vacation between June 1st and August 31st annually. A .5 percent will be rounded to the next highest number (e.g., 1.5 will permit 2 to be on vacation).

In the precincts, no more than one supervisor per shift or unit can be on vacation at the same time from June 1st through August 31st. Single vacation days or small periods of vacations (two or three days) will not normally be allowed from June 1st to August 31st. Rare exceptions will only be permitted with the commander's approval.

3-605 Leaves of Absences (03/19/02)

The City of Minneapolis allows various types of Leaves of Absence. These leaves are explained in detail in the Civil Service Rules and Regulations.

Military Leave will be granted as days worked according to the employee's normal work hours and schedule.

3-606 Special Duty (03/19/02)

(A-B)

Special duty time is when an employee is excused from regular duties to perform special activities (training, travel, outside schools/seminars, official union business, canine trials, etc.). The Chief of Police or designated Bureau Heads will authorize the use of special duty time.

Special duty assignments are issued on a Personnel Order (MPD-3154).

Special duty may be for all or part of a workday. When a Special Duty assignment is not expected to last a full workday, the employee involved is expected to report or return to their normal assignment to complete a full workday. With a supervisor's approval, an employee may use compensatory or vacation time before or after a Special Duty assignment that does not last an

entire workday. Personnel scheduled for Special Duty while on scheduled time off will be compensated in accordance with existing labor agreements and MPD policy.

Attendance at a Special Duty assignment is mandatory. Upon a supervisor's request, the employee shall provide documentation of attendance, i.e., certificate, training materials, etc. Any employee missing a Special Duty assignment shall submit a memo to his/her commander explaining the reason for their absence.

Supervisors are responsible for ensuring that Special Duty hours are monitored and appropriate time adjustments made. For example: an employee who works a ten hour shift and attends an eight hour in-service training session must report back to their work assignment to complete his/her work day or use vacation or compensatory time for the remaining two hours.

3-703 Definitions Applying to Court-Related Overtime

(12/28/01)

The following definitions shall apply to court-related overtime:

Court-Related Overtime: Any compensatory time or paid overtime earned as a result of a court trial or court-related activity.

Subpoena: An official court order for an individual to appear in court. The Subpoena remains in effect until the case is over or the Issuing Authority excuses the individual under Subpoena.

Trial Notice: A City Attorney document comparable to a Subpoena, whereas the same procedures and meanings apply as described for "Subpoena."

Appear: A directive on a Subpoena or Trial Notice ordering an individual to appear in court. The order to appear may be superseded by a notation or an oral directive of "Standby."

State Statute allows for modifications to be made to a Subpoena by the Issuing Authority.

Standby: An off-duty status in which an employee must:

- Be reachable by phone, cell phone or pager; and
- Be in court within one hour of such call

An employee who is on "Standby" is eligible for "Standby" compensation per individual labor agreement.

Subpoena or Trial Notice with a "Standby" Designation: A Subpoena or Trial Notice that specifies by notation that the employee is on "Standby." This notation supersedes the order to appear for trial, and directs the employee to remain on "Standby" for the period stated on the Subpoena or Trial Notice. For example: Day 2 - 9:00 a.m. to 1:00 p.m. means that the employee is on standby the second day of the trial from 9:00 a.m. until 1:00 p.m. Days of trial normally exclude weekends and holidays. (See Standby Court Time).

Issuing Authority: Refers to the court, attorney, or representative of the court or attorney who has issued a Subpoena or Trial Notice with or without a "Standby" designation.

Direct Contact: In person or telephone communication between an individual delivering a message and an individual intended to receive the message (Does not include voice mail, or second party messages).

3-704 **The Court Liaison Function** (12/28/01)

The Court Liaison function is housed in two locations. Court-related overtime involving civil cases are processed through the Court Liaison office located in the City Attorney's Office, 300 Metropolitan Center. Court-related overtime involving criminal cases are processed through the Court Liaison office located in Room 210 ½, City Hall. Duties of Court Liaison personnel include:

- Distribution of Subpoenas and Trial Notices to precincts, units and divisions.
- Monitoring and coordinating court appearances.
- Approving all court and Civilian Review Authority-related overtime (Verification is required from the judiciary or Civilian Review Authority).
- Coordinating court "Standby" between MPD employees and attorneys.
- Reporting complaints or policy violations to an employee's Commander.

3-705 Processing Subpoenas and Trial Notices (12/28/01)

(A)

All Subpoenas and Trial Notices issued to MPD employees by the County and City Attorney's Office are processed by Court Liaison personnel and distributed to the appropriate precincts, units and divisions. Each precinct, unit and division is responsible for recording the receipt of all Subpoenas and Trial Notices on a Subpoena Log Sheet (MP-6806).

It is the supervisor's responsibility to ensure prompt and verifiable delivery of Subpoenas and Trial Notices to MPD employees. Supervisors shall deliver the Subpoenas and Trial Notices in person to the employee when the employee reports for work. If an employee is off, and will not return to work within five days, notification by direct phone contact is required (no voicemail messages, no second party messages). If the employee is contacted by phone, all pertinent information on the Subpoena or Trial Notice shall be relayed to the employee. The supervisor shall record current phone numbers where the employee may be reached, indicate that delivery was made by phone, initial and identify their employee number on the Subpoena or Trial Notice receipt. The supervisor shall then interoffice mail the receipt(s) to Court Liaison personnel within 24 hours. It may be appropriate to notify the Issuing Authority.

Upon receiving the Subpoena or Trial Notice, the employee shall make notation of current phone numbers, sign, date, and return the Subpoena or Trial Notice receipt to the serving supervisor. The serving supervisor shall then interoffice mail the receipt(s) to Court Liaison personnel within 24 hours.

If a Subpoena or Trial Notice is issued on short notice or the employee is off for an extended period of time (more than five working days), and will not return to work before the date of appearance, notification by direct phone contact is required (no voicemail messages, no second party messages). If the employee is contacted by phone, all pertinent information on the Subpoena or Trial Notice shall be relayed to the employee. The supervisor shall record current phone numbers where the employee may be reached, indicate that delivery was made by phone, initial and identify their employee number on the Subpoena or Trial Notice receipt. The supervisor shall then interoffice mail the receipt(s) to Court Liaison personnel within 24 hours. It may be appropriate to notify the Issuing Authority.

A supervisor may determine that a Subpoena or Trial Notice is "undeliverable" due to extended leave, hospitalization or other extenuating circumstances. The supervisor shall note such reason and the date the employee is expected to return to work on the Subpoena or Trial Notice and return it immediately to Court Liaison personnel.

Accelerated Subpoenas and Trial Notices such as juvenile cases or Drug Court shall be processed through Court Liaison personnel. Court Liaison personnel shall contact the employees involved or their supervisor. If the Subpoena or Trial Notice is deemed "undeliverable," it shall be returned immediately to the Court Liaison. It may be appropriate to notify the Issuing Authority by phone.

Requests for compensation, as a result of other court jurisdictions, (e.g., Federal and out-of-state court jurisdictions), must be sent to Court Liaison personnel along with a copy of the Subpoena. The

Subpoena must be signed by the attorney and must have the starting and ending time the employee was required to be in court or was placed on standby.

3-706 Subpoenas or Trial Notices – Employee Responsibility (12/28/01)

Upon notification, by Subpoena or otherwise, employees shall make all scheduled appearances for court, trial, implied consent hearings and complaint signing.

A Subpoena or Trial Notice is an order to appear in court. State Statute does allow the issuing authority to modify the order to appear. A notation or an oral directive of "Standby" is such a modification and supersedes the order to appear. (See section on "Definitions")

Upon direct receipt of a Subpoena or Trial Notice, the employee shall indicate on the receipt portion of the Subpoena or Trial Notice all current phone numbers, including cell phone and pager numbers where the employee may be contacted. The receipt shall then immediately be returned to the supervisor serving the Subpoena or Trial Notice.

If an employee receives notice of a Subpoena or Trial Notice through direct phone contact with a supervisor, the employee shall provide the required phone numbers to the supervisor. The supervisor shall complete the Subpoena or Trial Notice receipt for the employee and relay all pertinent court information on the Subpoena or Trial Notice to the employee. The Subpoena or Trial Notice shall then be placed in the employee's office mailbox for final delivery.

Upon receipt of a Subpoena or notification thereof, the employee must make direct contact with the court representative indicated on the Subpoena or that person's designee. This is to determine any "Standby" period and to receive specific trial information. Contact shall be made during regular business hours on the first business day after receipt of the Subpoena.

If a conflict with the date of trial or specified standby period is known or arises, the employee shall notify the issuing authority during regular business hours on the first business day that the conflict is known to exist. Employees must obtain permission from the Issuing Authority to be excused from court or to make alternative arrangements.

Upon receipt of a Trial Notice, direct contact with a court representative is not required unless a known conflict exists.

The City and/or County Attorney or their designated representative will submit a completed Court/Standby Verification Form (MP-6105) to Court Liaison personnel for each employee that is to be placed on standby. Court Liaison personnel or a court representative may request an unsubpoenaed off-duty employee to appear or be on standby. An unsubpoenaed on-duty employee may be placed on standby.

Employees shall not request to be placed on standby, but should request that verification be sent to Court Liaison personnel if placed on standby.

Court Liaison personnel will maintain all Court/Standby Verification forms (MP-6105).

Normal standby status in the A.M. hours begins at 1000 hours and ends at 1200 hours. In the P.M., hours, standby begins at 1300 hours and ends at 1600 hours, unless the attorney or their representative notifies Court Liaison personnel of an extension or termination of standby and of any special circumstances. Standby hours will be stated on the subpoena. Any changes in standby hours will be relayed to the employee by Court Liaison personnel or court representatives.

Compensatory time for court standby will be credited per individual labor agreements.

4-406 Take-Home Vehicles (07/26/02) (04/24/07) (10/13/23)

I. Purpose

- A. MPD and City take-home vehicles are issued based upon a need for a timely response to a police incident.

- B.** Take-home vehicles are provided to enhance effectiveness, unit efficiency and to provide better service to the community and the Department.

II. Policy

A. Chief's Authorization Required

1. Only employees authorized by the Chief or the Chief's designee are allowed take-home vehicles.
2. The Chief or the Chief's designee will approve the assignment of the specific vehicle issued to each person assigned a take-home vehicle.
3. All new requests and renewal requests shall be submitted via the approved MPD electronic form.

B. No conversion of time

Assignment of a take-home vehicle does not automatically convert the employee's time to standby or on-call status.

C. Responsiveness

Employees issued take-home vehicles are expected to have a high level of responsiveness to Department needs beyond normal work hours.

D. Only Incidental Personal Use

Unless otherwise specified in a contract or labor agreement, take-home vehicles will only be authorized for personal uses which are incidental to coming and going from work.

E. No Non-City Drivers

Take-home vehicles shall only be driven by City employees.

F. Mileage Entry

Employees with a take-home vehicle shall accurately enter the mileage of the vehicle every time it is fueled.

G. Employees Away from Assignment

1. Employees on leave (including, but not limited to, medical leave, parental leave, etc) shall not use a take-home vehicle for any purpose, including off-duty employment.
2. Employees away from their assignment for more than 5 business days (including illness, vacation, training, etc.) shall coordinate with the Fleet Manager to have the City vehicle

returned to the Department in their absence, unless an exception has been approved by the Chief or the Chief's designee.

H. List of Take-Home Vehicles

A list of assigned take-home vehicles shall be maintained by the Department's Fleet Manager (for Police Administration) and the list shall be forwarded weekly to the Deputy Chief of the Professional Standards Bureau.

I. Factors for Consideration

The below factors are used to consider the approval of a take-home vehicle:

1. Whether the employee's assignment or duties are subject to emergency call back on a continuing basis and whether the distance the employee lives from the city would allow emergency response on a timely basis.
2. Whether the employee lives close to their work assignment. Employees who live more than 30 miles away from their regular work assignment will generally not be assigned a take-home vehicle.
3. Whether practical arrangements can be made to keep the vehicle within city limits but still be reasonably available to the employee if not a city resident.
4. Whether other conditions exist, not based on usage, which make it in the City's best interest to allow take-home privileges, such as compensation considerations or the employee's current employment agreement.
5. Whether the employee can demonstrate need based on number of meetings attended, miles driven, or related factors including, but not limited to, assignment, duties or position. Take-home vehicle assignments are based upon the employee's specific position and job duties, not based on assignment to a specific unit or division.
6. Whether the employee has a past history of misuse of City vehicles.
7. Other factors as determined by the Chief of Police.

J. Contractual Agreements

Contractual provisions may apply regarding take-home vehicles, and shall supersede any conflicting requirements of this policy unless and until amended.

All sworn personnel and authorized civilian personnel shall be issued a fueling card for the purchase of gasoline at City of Minneapolis fueling sites. The fueling card shall be kept in the employee's possession, not the vehicle.

Gasoline:

- Gasoline shall be purchased whenever the fuel gauge registers at or less than 1/2 tank.
- Notify dispatcher of intent to refuel.
- Employees are responsible for pumping their own gasoline.
- Only unleaded regular gasoline may be pumped unless the vehicle is equipped with a diesel engine.
- Vehicle P# and current mileage must be entered when refueling.
- Marked patrol vehicles shall refuel at fueling sites within their assigned precincts. When officers in marked patrol vehicles do not have a fueling site within their precinct, they shall use the facility closest to their assigned area.

Oil:

Every time an employee purchases gasoline, the oil level shall be checked. Both the oil dipstick handle and oil fill cap are painted yellow for easy identification. If the oil is below the manufacturer's recommended level as indicated by the oil dipstick, employees shall obtain oil at the fueling site within their precinct. Only 5W30 SAE-approved motor oil shall be added. When a vehicle requires over two quarts of oil, the necessary amount shall be added and the vehicle shall be taken to the Royalston Maintenance Facility for evaluation.

Windshield Washer Fluid:

Windshield washer fluid shall be available at all precincts and at the Royalston Maintenance Facility.

Exceptions:

Undercover vehicles have the option of fueling at City fuel sites or MPD-authorized fueling stations.

4-602 Report Writing

(07/26/02) (08/01/08)

(A)

Specific reports are written for specific purposes. Offense reports detail the elements of the crime or incident. Arrest reports detail the elements of probable cause for the arrest. Statements are made by individual officers pertaining to what the specific officer observed or heard and what action the officer took. The officer's statement includes what the officer can testify to in court. Arrest reports, officer statements, and reports for seizures of personal property shall include rationale and legal justification for the initial stop as well as justification for subsequent search/seizure. (08/01/08)

All police reports shall include the following:

- All principal and relevant data fields on the CAPRS report pertaining to the case at hand shall be completed.
- All principal and relevant individuals involved in the incident shall be listed in the case.
- * This includes making a proper identification and documentation of all involved and/or associated individuals.
- A short public narrative statement describing the offense or incident. No names, addressees or anything that identifies a victim or witness shall be included in the public narrative.
- A probable cause statement in felony arrests.
- A description of the incident that occurred and documentation of the necessary elements related to the crime or basis for arrest.
- Documentation of reason(s) for an in-custody arrest versus issuance of a citation.
- A comprehensive individual statement in all felony arrests when an officer has information that is important to the case and in all other incidents where statements are required. (In critical incidents, this statement will generally be taken by an investigator in a question and answer format.)

All police reports identifying and/or involving juveniles shall include:

(A)

Handwritten offense/incident reports must be written in ink and legible for entry by support staff into CAPRS. Illegible reports will be returned to the officer to be rewritten or entered directly into CAPRS.

All arrest reports and statements shall be completed immediately following processing of the suspect. All other reports and statements must be completed and submitted to the officer's supervisor during the shift, and all reports shall be submitted before the end of the shift. Supervisors are responsible for ensuring that their subordinates submit all reports within defined time frames.

4-604 Officer's Statements

(07/26/02)

(A)

Officers shall make a statement in any case that they could be required to testify in court, and/or those incidents that involve homicides, major crimes, felony arrests, gross misdemeanor arrests or misdemeanor arrests that have unusual circumstances.

A statement is essentially an officer's account of an incident. It should include all the information that an officer can testify to directly from his/her observations and senses. Joint statements are prohibited; each officer must make their own individual statement. Statements should also include additional contact information not listed in the "names" section of the CAPRS data entry field.

Statements are usually made in narrative form, but a question and answer format may be used at the discretion of the investigator. Statements shall be made whenever requested by an investigator or a supervisor.

4-605 Case Control Numbers

(07/26/02)

(A)

Case Control Numbers (CCNs) are required on all offense/incident reports and are obtained from MECC.

4-605.01 Case Control Numbers – Original

(07/26/02)

(A)

For arrests and P.C. Pickups for incidents after the original report has been filed, a new CCN shall be used, however, the original CCN shall be listed in the original CCN box of the arrest report. The offense code for these arrests will be different from the original offense code, i.e., auto theft arrest is "RECVEH" and burglary/assault arrest is "PCPKUP." The CCN for an original stolen auto report is on the NCIC listing (the OCA number) and the Auto Desk's daily list of stolen vehicles ("Hot Sheet"). Arrest Bulletins have an original CCN listed on them.

If a motor vehicle is taken during the commission of another offense, the motor vehicle report shall also be made using the same CCN, with copies going to the appropriate precinct investigations unit and to the appropriate investigative unit.

4-606 Quality Report Review

(07/26/02)

(A)

It is the responsibility of officers, supervisors, case managers, investigators and Watch Commanders to ensure that offense reports are complete and accurate.

Officers will complete the information required for CAPRS report entry, provide information to describe the elements of the offense, include pertinent information required to show probable cause for an arrest, and other elements as noted in the Report Writing section. Officers shall provide complete and accurate information on all reports.

Substandard reports may be documented by supervisors, Watch Commanders, case managers, investigators, and city and county attorneys on a Quality Report Review Form (MP-6945). The report shall be directed to the initiating officer for correction per the Quality Report Review Guide. Multiple substandard reports will lead to disciplinary action. Multiple errors on a single report are documented on one report form. Five substandard reports documented on the Quality Report Review Forms for an individual officer within a 12-month period will result in an “A” violation. For supervisors, three failures to review or approval of substandard reports within a 12-month period will result in an “A” violation.

4-606.01 Correction of Offense Code

(07/26/02)

(A)

Officers shall title their reports with the appropriate available CAPRS codes, to the best of their knowledge, using the information obtained at the crime scene and the elements of the crime as defined by state statute.

Reviewal of the case by a supervisor, case manager or investigator may dictate that the offense code needs to be changed. Correction of offense codes is critically important for accuracy in the Uniform Crime Report (UCR).

To change an offense code, the supervisor, case manager or investigator shall add a supplement entitled, “Supplement # _____ Offense Code Changed,” on the first line of the supplement. The supplement shall state the date, name and badge number of the person making the change to the offense code and a short description as to why the offense code was changed.

4-606.02 Changing an Existing Supplement

(07/26/02)

(A)

A supplement cannot be changed once it has been added to a case except in extreme situations. If a modification to a supplement is necessary, only the supervisor of the Business Technology Unit or his/her designee can unlock the supplement to allow the modification. The procedure for this process is as follows:

1. A written request for the change/modification shall be submitted to the supervisor of the Business Technology Unit or his/her designee.
2. The supervisor of the Business Technology Unit or his/her designee will review the request.
3. The supervisor of the Business Technology Unit will make a recommendation and submit the request for change/modification to a Bureau Head for written approval or disapproval.
4. If the request for change/modification is approved by the Bureau Head, the request and a printout of the original supplement shall be brought to the Business Technology Unit.
5. The technical staff of the Business Technology Unit will then unlock the supplement so the change/modification can be made by the **requesting** unit.
6. After the change/modification has been made, an additional supplement shall be made by the person requesting the change with an explanation as to why the original supplement was changed/modified. *The first line of this supplement shall state "Supplement # ____ has been changed/modified."*
7. The approved written request and a hard copy of the original supplement will be kept on file in the Internal Affairs Unit.

- Certified copy of death certificate.
- An affidavit that provides proof that the spouse and decedent were legally married at the time of the officer's death.

The MPD Payroll Supervisor will assemble the packet and forward it to the Chief of the Minneapolis Police Department, or a designee, the Chief of the Minneapolis Fire Department, or a designee, and the Director of Risk Management, or a designee, for eligibility determination. If

the application meets the eligibility criteria, the Department of Human Resources will be notified to process the continuing coverage.

If the application does not meet requirements for continued health insurance coverage, the claimant will be notified in writing, by certified mail, of the reason for the denial of such benefits.

Upon the receipt of notice of denial, the claimant will have 30 calendar days to submit a request for reconsideration of the denial. City staff may gather any other necessary documentation or request additional information from the claimant. The claimant will have the opportunity to make a verbal presentation to a committee consisting of: the City's Director of Risk Management & Claims, or designee; the Chief of MPD, or designee; and the Chief of Fire Department, or designee. An attorney from the Office of Minneapolis City Attorney may also be present as legal counsel to the committee. I. Purpose

This policy is established in accordance with MN Statute section 626.8457 Subd. 2 to define unprofessional conduct and to govern the investigation and disposition of cases involving alleged unprofessional conduct by peace officers.

II. Policy

A. Investigation and Discipline

It is the policy of the Minneapolis Police Department to investigate circumstances that suggest a peace officer or other employee has engaged in unbecoming conduct and to impose disciplinary action when appropriate.

B. Use of Discretion

The police profession is one that requires officers to use considerable judgment and discretion in the performance of their daily duties. Officers have a large body of knowledge from Department policies and procedures, training, their own professional police experience and the experiences of their fellow officers to guide them in exercising proper judgment and discretion in situations not specifically addressed by Department rules and regulations. When exercising such discretion, officers must always adhere to the following principles in the course of their employment with the Minneapolis Police Department:

1. All investigative detentions, pedestrian and vehicle stops, arrests, searches and seizures of property by officers shall be based on a standard of reasonable suspicion or probable cause in accordance with the Fourth Amendment of the U.S. Constitution, Section 10 of the MN Constitution, MN statutes and MPD policies (such as P&P 9-200, P&P 7-601 and P&P 10-400).
2. Officers must be able to articulate specific facts, circumstances and conclusions that support reasonable suspicion or probable cause.

C. Conduct that Detracts from the Public's Faith (Principle Two)

1. Employees shall refrain from any conduct in an official capacity that detracts from the public's faith in the integrity of the criminal justice system.
2. Employees shall carry out their duties with integrity, fairness and impartiality.

III. Procedures/Regulations**A. Obey Laws (Principle One)**

Employees shall conduct themselves, whether on or off duty, in accordance with the Constitution of the United States, the Minnesota Constitution, and all applicable laws, ordinances and rules enacted or established pursuant to legal authority.

1. Rationale

Peace officers conduct their duties pursuant to a grant of limited authority from the community. Therefore, officers must understand the laws defining the scope of their enforcement powers. Peace officers may only act in accordance with the powers granted to them.

2. Rules

- a. Peace officers shall not knowingly exceed their authority in the enforcement of the law.

- i. Officers shall not arrest any person or search any premises except with a warrant or where such arrest or search is authorized without warrant under the laws of Minnesota and the United States.
- b. Employees shall not knowingly disobey the law or rules of criminal procedure in such areas as interrogation, arrest, detention, searches, seizures, use of informants, and preservation of evidence, except where permitted in the performance of duty under proper authority.

- d. Employees, whether on or off duty, shall not knowingly commit any criminal offense under any laws of the United States or any state or local jurisdiction.

An employee refusing to obey an order shall be required to justify their actions.
- f. Employees will not, according to MN Statute section 626.863, knowingly allow a person who is not a peace officer to make a representation of being a peace officer or perform any act, duty or responsibility reserved by law for a peace officer.

B. Truthfulness

1. Rationale

Community cooperation with the police is a product of its trust that officers will act honestly and with impartiality. The peace officer, as the public's initial contact with the criminal justice system, must act in a manner that instills such trust.

2. Scope

- a. These requirements apply to any report or communication, whether verbal or written, concerning official MPD or City business.
 - i. This includes information given to or intended for others.
 - ii. This includes information before courts or hearings.

- b. This includes questions about any action taken that relates to the employee's employment or position, regardless of whether such information is requested during a formal investigation or during the daily course of business.

3. Rules

Employees shall not willfully or knowingly make an untruthful statement or knowingly omit pertinent information, pertaining to their official duties or to their employment.

- a. Employees shall not knowingly make false accusations of any criminal, ordinance, traffic or other law violation. This provision shall not prohibit the use of deception during criminal investigations or interrogations as permitted under law.
- b. Employees shall truthfully, completely, and impartially report, testify and present evidence, including exculpatory evidence, in all matters of an official nature.

C. Impartiality (Principle Three)

Employees shall perform their duties and apply the law impartially and without prejudice or discrimination.

1. Rationale

Law enforcement effectiveness requires public trust and confidence. Diverse communities must have faith in the fairness and impartiality of their police. Employees must refrain from fostering disharmony in their communities based upon diversity and perform their duties without regard to race, ethnicity, color, national origin, ancestry, immigration status, gender identity or expression, age, creed, religion, sexual orientation, marital status, parental status, disability (including pregnancy), genetic information, veteran's status, status with regard to public assistance, and any other protected class status under state, federal, and local laws.

1. Rationale

A peace officer's ability to perform their duties is dependent upon the respect and confidence communities have for the officer and law enforcement officers in general. Employees must conduct themselves in a manner consistent with the integrity and trustworthiness expected of them by the public.

- e. Employees shall not commit any acts which constitute sexual assault or indecent exposure as defined under Minnesota law. Sexual assault does not include a frisk or other search done in accordance with proper police procedures.
- f. Employees shall not commit any acts which, as defined under Minnesota law, constitute (1) domestic abuse, or (2) the violation of a court order restraining the employee from committing an act of domestic abuse or harassment, having contact with the petitioner, or excluding the employee from the petitioner's home or workplace.
- g. Employees, in the course of performing their duties, shall not engage in any sexual contact or conduct constituting lewd behavior including but not limited to, showering or receiving a massage in the nude, exposing themselves, or making physical contact with the nude or partially nude body of any person, except as pursuant to a written policy of the MPD (see P&P 10-202).
- h. Employees shall avoid regular personal associations with persons who are known to engage in criminal activity where such associations will undermine the public trust and confidence in the employee or agency. Employees shall not compromise their integrity nor that of their agency or profession by accepting, giving or soliciting any gratuity which could be reasonably interpreted as capable of influencing their official acts or judgments or by using their status as an MPD employee for personal, commercial or political gain.

1. Rationale

For a community to have faith in its employees, employees must avoid conduct that does or could cast doubt upon the impartiality of the individual employee or the agency.

2. Rules

- a. I will keep my private life unsullied as an example to all; maintain courageous calm in the face of danger, scorn, or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Honest in thought and deed in both by personal and official life, I will be exemplary in obeying the laws of the land and the regulations of my department. Whatever I see or hear of a confidential nature or that is confided to me in my official capacity will be kept ever secret unless revelation is necessary in the performance of my duty.

I will never act officiously or permit personal feelings, prejudices, animosities or friendships to influence my decisions. With no compromise for crime and with relentless prosecution of criminals, I will enforce the law courteously and appropriately without fear of favor, malice or ill will, never employing unnecessary force or violence and never accepting gratuities.

I recognize the badge of my office as a symbol of public faith, and I accept it as a public trust to be held so long as I am true to the ethics of the police service. I will constantly strive to achieve these objectives and ideals, dedicating myself to my chosen profession...law enforcement."

III. Policy

The MPD has a duty to protect the reputation of the organization and its employees, as well as guard against liability and potential legal risk. Therefore, employees are advised of the following:

- A.** Employees should exercise caution and good judgment when engaging with social media sites. Employees should be aware that the content of these social media sites can be subpoenaed and used in criminal and civil trials to impeach the employee's testimony.

- B.** When engaging with social media sites, employees are subject to all pertinent City of Minneapolis (“City”) policies, MPD policies, and local, state, and federal laws regarding public information on arrests, investigations, and personnel data.

When an employee can be identified as someone who does work for the City, they must not engage in name-calling or personal attacks or other such demeaning behavior if the conduct would adversely affect their duties or City workplace. This Section and its limitations apply when the action of the employee adversely affects their work, job duties or ability to function in their position or creates a hostile work environment.

c. Clause 7:

- ii. Each situation will be evaluated on a case-by-case basis because the laws in this area are evolving.

The MPD recognizes that the use of covert social media profiles can be a useful tool in the investigation of criminal activity.

1. Profile registration

- a. All covert social media profiles shall be registered with the Commander who oversees the Strategic Information Center (SIC). The information provided shall include:
- The name & web address of the social media site
 - The username and screen name of the covert social media profile, and

- The MPD employee responsible for maintaining the covert social media profile.
 - b. The Commander or their designee shall conduct yearly audits to ensure that the covert profiles are still active.
 - c. When a covert social media profile is no longer needed it shall be deactivated or deleted from the social media site, to the extent permitted by the social media site, and the Commander shall be notified.
2. Employee responsibility
- a. The MPD employee registered as the maintainer of a covert social media profile is responsible for all content posted online under that profile.
 - b. The employee shall maintain their own covert social media profile, and shall not share the access information with other employees, except that:
 - i. The employee shall provide the password to their registered profile upon request from the Commander or their designee or for auditing purposes.
3. No promotion of violence or criminal activity

MPD employees shall not post any information through a covert social media profile that promotes violence or criminal activity.

Responsibilities of Police Officers

5-201 Responsibility of On-Duty Officers

(A-D)

In the City of Minneapolis, on-duty officers shall take all steps reasonably necessary to enforce the law after considering the tactical situation.

Minnesota Statutes 629.40 subd. 3 provides that when an on-duty licensed peace officer acting in obedience of an order of the court, or in the course and scope of their employment, or in fresh pursuit is outside of the officer's jurisdiction, that officer is serving in the regular line of duty as fully as though the service was within their jurisdiction. (11/14/88)

5-202 Responsibility of Off-Duty Officers

(A-D)

Off-duty officers in their jurisdiction have peace officer authority. Officers shall consider the tactical situation and liability to themselves and the department.

By the City Council Resolution (84R-047), Minneapolis police officers do not have peace officer authority when they are off-duty and outside their jurisdiction. The City of Minneapolis will not provide liability protection or worker's compensation benefits to officers acting in a law enforcement capacity when they are off duty and outside their jurisdiction. In these situations, Minneapolis police officers only have the power of citizen's arrest. (11/14/88)

5-203 Responsibility Outside of the State

(A-D)

Minneapolis police officers have peace officer authority outside of Minnesota only in incidents of fresh pursuit. Officers who are outside the boundaries of Minnesota for extradition, or other matters of direct concern to the City, are not to engage in police activities unless they are necessary in the performance of their duties as agents of the City, and then only after consideration of the tactical situation. (04/01/93)

5-204 Refusal to Work

(D)

Police officers do not have the right to strike or to engage in any work stoppage or slow-down.

I. Purpose

A. Sanctity of Life

Sanctity of life and the protection of the public are the cornerstones of the MPD's use of force policy. Officers must recognize and respect the sanctity of life and value of all human life, and the need to treat everyone with dignity and without prejudice.

B. State Requirement for Policy

MN Statute section 626.8452 requires the MPD to establish and enforce a written policy governing the use of force, including deadly force and state-mandated pre-service and in-service training in the use of force for all sworn MPD employees.

This policy is to be reviewed annually.

C. Use of Force Chapter Purpose

The purpose of this chapter is to provide all sworn MPD employees with clear and consistent policies and procedures regarding the use of force while engaged in their official duties. This policy applies to all licensed peace officers engaged in the discharge of official duties.

II. Definitions

De-escalation: Taking action or communicating verbally or non-verbally during a potential force encounter in an attempt to stabilize the situation and reduce the immediacy of the threat so that more time, options, and resources can be called upon to resolve the situation without the use of force or with a reduction in the force necessary. De-escalation may include the use of such techniques as command presence, advisements, warnings, verbal persuasion, and tactical repositioning.

Exigent Circumstances: A rare emergency situation requiring swift action to prevent imminent danger to life or serious harm to another.

Flight: Is an effort by the subject to avoid arrest or capture by fleeing without the aid of a motor vehicle.

Great Bodily Harm: Bodily injury which creates a high probability of death, or which causes serious permanent disfigurement, or which causes a permanent or protracted loss or impairment of the function of any bodily member or organ, or other serious bodily harm.

Objectively Reasonable Force: The amount and type of force that would be considered rational and logical to an “objective” officer on the scene, supported by facts and circumstances known to an officer at the time force was used.

Reportable Force: Force used that is required to have some level of Force Reporting in accordance with this policy [IV-B].

Subject Behaviors:

Compliant: The person contacted by an officer acknowledges direction or lawful orders given and offers no passive, active, aggressive or aggravated aggressive resistance.

Passive Resistance: The subject is not complying with an officer's commands and is uncooperative but is taking only minimal physical action to prevent an officer from placing the subject in custody and taking control. Examples include:

- standing stationary and not moving upon lawful direction
- falling limply and refusing to use their power to move (becoming "dead weight")
- holding onto a fixed object or locking arms to another during a protest or demonstration

Active Resistance: The subject's verbal or physical actions are intended to prevent an officer from placing the subject in custody and taking control but are not directed at harming the officer. Examples include:

- walking or running away
- breaking the officer's grip

Subject Intent to Harm:

Aggressive Resistance or Assault: The subject displays the intent to harm the officer, themselves or another person and to prevent an officer from placing the subject in custody and taking control. The aggression may manifest itself through a subject:

- taking a fighting stance
- punching, kicking, striking
- taking other actions which present an imminent threat of physical harm to the officer or another

Aggravated Aggressive Resistance or Aggravated Assault: The subject's actions are likely to result in death or great bodily harm to the officer, themselves or another. These actions may include:

- use of a firearm
- use of a blunt or bladed weapon
- extreme physical force

Use of Force: An intentional, direct or indirect, bodily contact that causes pain or injury or restricts someone's movement. Intentionally placing someone in fear of such contact, or threatening such contact, also constitutes force. This includes, but is not limited to:

- The use of any weapon, substance, vehicle, equipment, tool, device or animal that inflicts pain or produces injury to another;
- Any physical strike to any part of the body of another;
- Any physical contact or threat of contact by the officer or a weapon that causes or threatens to cause pain or injury to another;
- Any physical contact or threat of physical contact by the officer that results in restraint or physical manipulation of the physical movement of another;
- Unholstering or displaying a weapon, when engaged with a subject or subjects.

Low-Level Force: Force not intended to and with a low probability of causing injury.

Non-Deadly Force: Force that does not have the reasonable likelihood of causing or creating a substantial risk of death or great bodily harm. This includes, but is not limited to, physically subduing, controlling, capturing, restraining or physically managing any person. It also includes the actual use of any less-lethal weapons and other weapons not normally considered deadly force options, when used consistent with MPD training and policy.

Less-Lethal Weapon: A weapon that does not have a reasonable likelihood of causing or creating a substantial risk of death or great bodily harm.

Deadly Force: MN Statute section 609.066 states that Deadly Force means: "Force which the actor uses with the purpose of causing, or which the actor should reasonably know creates a substantial risk of causing death or great bodily harm. The intentional discharge of a firearm other than a firearm loaded with less-lethal munitions and used by a peace officer within the scope of official duties, in the direction of another person, or at a vehicle in which another person is believed to be, constitutes deadly force."

III. Policy

A. Force Guiding Principles

1. Legal standards and authorizations
 - a. U.S. Constitutional standards

The Fourth Amendment of the United States Constitution and Section 10 of the Minnesota Constitution's Bill of Rights state:

“The right of the people to be secure in their persons, houses, papers, and effects against unreasonable searches and seizures shall not be violated; and no warrant shall issue but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched and the person or things to be seized.”

b. Statutory authorization

MN Statute section 609.06 subd. 1 states: “Except as otherwise provided in subdivisions 2 and 3, reasonable force may be used upon or toward the person of another without the other’s consent when the following circumstances exist or the actor reasonably believes them to exist:

When used by a public officer or one assisting a public officer under the public officer’s direction:

- In effecting a lawful arrest; or
- In the execution of legal process; or
- In enforcing an order of the court; or
- In executing any other duty imposed upon the public officer by law.”

2. Do no harm

In accordance with the Sanctity of Life cornerstone, the principle of Do No Harm provides a guiding light from which all decisions shall flow.

- a. Sanctity of life and the protection of the public are the cornerstones of the MPD’s use of force policy. Sworn law enforcement officers have been granted the extraordinary authority to use force when necessary to accomplish lawful ends. Officers must recognize and respect the sanctity of life and value of all human life when making decisions regarding the use of force.
- b. Officers shall treat everyone with dignity and without prejudice and use only the force that is objectively reasonable to effectively bring an incident under control, while protecting the safety of others and the officer.

3. Objectively reasonable force consistent with policy, law and training

- a. Sworn MPD employees shall only use the amount of force that is objectively reasonable.
 - i. The decision by an officer to use force or deadly force shall be evaluated from the perspective of a reasonable officer in the same situation, based on the totality of the circumstances known to or perceived by the officer at the time, rather than with the benefit of hindsight, and that the totality of the circumstances shall account for occasions when officers may be forced to make quick judgments about using such force.

- ii. Sworn MPD employees should use the lowest level of force necessary for safety and control; When lower levels of force do not work, would not work or are too unsafe to try, higher levels of force may be used for control and safety. Force may also be used for life-saving purposes.
 - iii. Physical force shall not be used against individuals in restraints, except as objectively reasonable to prevent their escape or prevent imminent bodily injury to the individual, the officer, or another person. In these situations, only the amount of force necessary to control the situation shall be used. Force used against a restrained or handcuffed individual shall be viewed with increased scrutiny in determining reasonableness.
 - iv. These facts and circumstances **shall** be articulated when documenting force (in accordance with the Force Reporting section in this policy).
- b. Sworn MPD employees are only authorized to use force consistent with MPD training. Just because force is legally justified does not automatically mean that using force or the level of force is authorized by policy; for example, some specific types of use of force are limited to specific circumstances and force must comply with all applicable sections of policy including those related to de-escalation.

Some specific examples include that:

- While MN Statute includes Choke Holds as legally permissible in Deadly Force situations, MPD officers are prohibited from using such techniques, including in Deadly Force situations (see the Prohibition on Neck Restraints and Choke Holds section in P&P 5-302).
 - Discharging firearms at motor vehicles is restricted under the Firearms section in P&P 5-302.
- c. Force, or the threat of force, shall not be used as a means of retaliation, punishment, or unlawful coercion.
- d. Officers shall exercise special care when interacting with individuals with known physical, mental health, developmental, or intellectual disabilities as an individual's disability may affect the individual's ability to understand or comply with commands from officers.
4. Announce arrests

When making an arrest officers shall verbally announce the arrest to the subject, when feasible, in accordance with arrest, search and seizure, and warrant-related policies and procedures (P&P 9-100, P&P 9-200 and P&P 9-300), and consistent with training.

a. When force may be used to make an arrest

In accordance with MN Statute section 629.33, if an officer has informed a subject that the officer intends to arrest the subject, and if the subject then flees or forcibly resists arrest, the officer may use all necessary and lawful means to make the arrest but may not use deadly force unless authorized to do so under section 609.066. Such force shall be consistent with all sections in P&P 5-300.

b. Minimum restraint allowed for arrest

In accordance with MN Statute section 629.32, an officer making an arrest may not subject the person arrested to any more restraint than is necessary for the arrest and detention.

c. Inform subject about warrant

In accordance with MN Statute section 629.32, the officer shall inform the subject that the officer is acting under a warrant, and shall show the subject the warrant if requested to do so. An arrest by an officer acting under a warrant is lawful even though the officer does not have the warrant in hand at the time of the arrest, but if the arrested person so requests the warrant must be shown to that person as soon as possible and practicable. An officer may lawfully arrest a person when advised by any other peace officer in the state that a warrant has been issued for that person.

Note: The officer can show the warrant via the squad computer.

B. Authorized Use of Deadly Force

In accordance with MN Statute section 609.066 subd. 2:

1. The use of deadly force by a peace officer in the line of duty is justified only if an objectively reasonable officer would believe, based on the totality of the circumstances known to the officer at the time and without the benefit of hindsight, that such force is necessary:
 - a. To protect the peace officer or another from death or great bodily harm, provided that the threat:
 - i. can be articulated with specificity;
 - ii. is reasonably likely to occur absent action by the law enforcement officer; and
 - iii. must be addressed through the use of deadly force without unreasonable delay; or
 - b. To effect the arrest or capture, or prevent the escape, of a person whom the peace officer knows or has reasonable grounds to believe has committed or attempted to commit a felony and the officer reasonably believes that the person will cause death

or great bodily harm to another person under the threat criteria in clause [1-a], items [i] to [iii], unless immediately apprehended.

2. A peace officer shall not use deadly force against a person based on the danger the person poses to self if an objectively reasonable officer would believe, based on the totality of the circumstances known to the officer at the time and without the benefit of hindsight, that the person does not pose a threat of death or great bodily harm to the peace officer or to another under the threat criteria in clause [1-a], items [i] to [iii].

In accordance with MN Statute section 626.8452 subd. 1a:

3. Officers shall not use deadly force except in accordance with MN Statute section 609.066, and even in those circumstances officers shall first consider all reasonable alternatives including less lethal measures, before using deadly force.

Warn of intent:

4. Where feasible, officers shall identify themselves as law enforcement officers and warn of their intent to use deadly force.

C. Duty to Intervene

1. Sworn employees have an obligation to protect the public and other employees.
2. Regardless of tenure or rank, any sworn employee who observes another employee use any prohibited force, or inappropriate or unreasonable force (including applying force when it is no longer required), must attempt to safely intervene by verbal and physical means, and if they do not do so shall be subject to discipline to the same severity as if they themselves engaged in the prohibited, inappropriate or unreasonable use of force.

D. Officers' Actions Leading to Unnecessary Risk

1. Officers' actions that unnecessarily place themselves, suspects, or the public at risk

An officer's conduct or actions may influence the amount of force used in each situation. A lack of reasonable or sound tactics can limit options available to officers, and unnecessarily place officers and the public at risk.

- a. Officers shall use reasonableness, sound tactics and available options during encounters to maximize the likelihood that they can safely control the situation.
- b. Officers shall not purposefully use words or actions that a reasonable officer would conclude are intended to incite or escalate reactive behavior. Prohibited conduct includes but is not limited to taunting individuals.

2. Officers' actions to safeguard the sanctity of life

Officers should consider their positioning and attempt to place themselves in the best tactical position possible, in order to maximize their ability to safely resolve a dangerous threat. The sanctity of life should be the guiding principle for officers during these situations and they should attempt to reduce the likelihood of a deadly force encounter as much as possible.

E. Medical Treatment and Use of Force

1. Any sworn MPD employee who uses force shall, as soon as reasonably practical, determine if anyone was injured and render medical aid consistent with training and request Emergency Medical Service (EMS) if necessary (in accordance with P&P 7-350). Some force control options involve or require additional medical attention. This includes subjects who have visible injuries, lose consciousness, complain of injury or request medical attention.
2. Medical aid rendered consistent with policy is not a reportable use of force.

F. Threatening the Use of Force

As an alternative or precursor to the actual use of force, MPD officers shall consider verbally announcing their intent to use force, including displaying an authorized weapon as a threat of force, when reasonable under the circumstances. The threatened use of force shall only occur in situations that an officer reasonably believes may result in the authorized use of force. This policy shall not be construed to authorize unnecessarily harsh language.

G. De-escalation

1. When all of the reasonably known circumstances indicate it is safe and feasible to do so, officers shall:
 - a. Attempt to slow down or stabilize the situation so that more time, options and resources may become available.
 - b. Consider, based on the officer's actual observations and in the totality of the circumstances, whether a subject's lack of compliance is a deliberate attempt to resist or an inability to comply based on factors including, but not limited to, the subject's emotions and behavior.
2. De-escalation tactics include, but are not limited to:
 - Requesting additional officers and other resources to the scene, which may make more force options available and may help minimize the overall force used.
 - Placing barriers between an uncooperative subject and an officer.
 - Attempting to isolate the subject and contain the scene.
 - Minimizing risk from a potential threat using distance, cover or concealment.

3. An officer shall use de-escalation techniques and other alternatives to higher levels of force consistent with their training whenever feasible and appropriate before resorting to force and to reduce the need for force.
4. Prior to using force, officers shall attempt to use the following concepts and tactics when safe and feasible, which may help officers minimize risk to themselves and others.
 - a. Identify themselves as a police officer,
 - b. Attempt to verbally de-escalate,
 - c. Attempt to use additional de-escalation tactics or control options,
 - d. Give commands to be followed, and afford the person a reasonable opportunity to comply. Whenever possible and when such delay will not compromise the safety of another or the officer and will not result in the destruction of evidence, escape of a suspect, or commission of a crime, an officer shall allow an individual time and opportunity to comply with verbal commands before force is used.
5. If use of force is initiated, force shall be de-escalated immediately as resistance decreases or control is achieved.

H. Report Required

Authorized use of force requires careful attention to the facts and circumstances of each case. Sworn MPD employees shall write a detailed, comprehensive report for each instance in which reportable force was used (in accordance with [IV-B]). All uses of force shall be documented and investigated pursuant to MPD's policies.

I. Training

1. All officers shall receive training, at least annually, on the MPD's use of force policy and related legal updates (in accordance with P&P 2-500 and any policies related to specific tools or weapons).
2. In addition, training shall be provided on a regular and periodic basis and designed to:
 - a. Provide techniques for the use of and reinforce the importance of de-escalation.
 - b. Simulate actual shooting situations and conditions; and
 - c. Enhance officers' exercise of discretion and judgement in using other than deadly force in accordance with this policy.
3. Before being authorized to carry a firearm all officers shall receive training and instruction with regard to the proper use of deadly force and to the MPD's policies and MN Statutes with regard to such force (in accordance with P&P 5-302, P&P 3-200 and P&P 5-400). Such training and instruction shall continue on an annual basis.

4. Before carrying an authorized device, all officers shall receive training and instruction in the use of the device including training as it relates to its use in deadly force and other than deadly force situations (in accordance with P&P 3-200 and P&P 5-302). Such training and instruction shall continue on an annual basis.
5. The Chief of Police shall ensure that the MPD maintains records of the MPD's compliance with use of force training requirements.

IV. Procedures/Regulations

A. Transfer of Custody

Prior to transferring custody of a subject that force was used upon, sworn MPD employees shall verbally notify the receiving agency or employee of:

- The type of force used,
- Any injuries or alleged injuries sustained,
- Any medical aid rendered, and
- Whether EMS was called and if so, whether EMS made contact with the patient, whether the patient refused or accepted EMS, and whether the patient was transported by EMS for further treatment.

5-302 Use of Force Reporting

(01/01/23) (03/17/23) (02/08/24) (12/03/24)

Revisions to prior policies: (10/16/02) (08/17/07) (04/16/12) (09/08/20) (12/22/20) (03/12/21)

I. Force and De-escalation Reporting

A. Force Reporting in PIMS

1. Anything other than routine contact with a person is considered a use of force. Examples of routine contact may include pat downs or incidental contact and they do not require use of force reporting.
2. All uses of force must be reported in PIMS as detailed in this policy, except for escort holds, touch and handcuffing that do not result injury or complaint of injury.
3. In order to complete a Use of Force details page, a full Police Report (GO), Supplemental Report (GO) or Street Check is required so that entities can be properly entered and linked, and the report shall include the code "FORCE."

B. Force-related items to include in Narrative Text

When documenting force in an incident through a Narrative Text with a Police Report or Street Check, officers shall describe in the narrative:

- Any efforts to de-escalate prior to the use of force.
- Why the officer decided to use force.
- Why the officer decided to use the level or levels of force used.
- Whether the subject was injured, displayed signs of an injury, or complained of an injury. This includes pre-existing injuries aggravated by or injuries suffered as the result of the force used.
- Whether medical aid was rendered or Emergency Medical Services (EMS) was called, and whether the officer who used force was the same officer who rendered aid or called EMS.
- Whether the subject was transported to the hospital, and if so:
 - o Whether the transportation was because of force used.
 - o Whether MPD, EMS or another agency made the transport.

C. Supervisor notification of force

When supervisor notification is required, the employee who used force shall remain on scene and immediately make direct contact with a supervisor by phone or radio, so the supervisor can fulfill their responsibilities.

D. De-escalation reporting requirements

Any time a Use of Force details page is required for an incident, the officer shall complete the de-escalation section in the Use of Force details page and shall describe their de-escalation efforts in the Narrative Text.

E. Force Reporting Timeliness

In Critical Incidents, Force Reporting shall be done in accordance with P&P 7-810. When a Police Report is required in accordance with P&P 7-810, any associated Force Reports shall be completed at the same time as the required Police Report. In all other cases, all required Force Reporting shall be completed as soon as practical, but no later than the end of the shift.

II. Reporting Requirements

A. No reporting required

The following listed actions do not require any Force Reporting (Use of Force details page, Narrative Text or supervisor notification) unless they result in an injury or complaint of injury:

- Escort holds.
- Touch.
- Handcuffing (a Police Report is still required- see the Handcuffing section below).

B. Level 1 reportable use of force**1. Level 1 definition and types**

Level 1 force involves using low levels of force that are reasonably expected to cause pain or injury but do not result in injury or complaint of injury. Level 1 types of force include:

- Displaying or pointing a firearm when engaged with a subject.
- Pointing a less-lethal launcher when engaged with a subject.
- Pointing a taser or conducted electronic/energy weapon (CEW), using a CEW to conduct a warning arc, and laser painting with a CEW, when engaged with a subject.
- Pressure point compliance techniques.
- Wristlocks, armbars and joint manipulation techniques.
- Weaponless strikes other than strikes to the head or neck.
- Weaponless defense techniques such as push-aways, holds or slaps.
- Body weight to pin.
- Takedowns and leg sweeps.
- Control pressure while handcuffing.
- Authorized or improvised tool to push a subject without striking.
- Any other use of force that does not rise to a level 2 or level 3 reportable use of force.

2. Display and pointing**a. Reporting firearm display and pointing for specific tactical operations**

- i. An officer engaged in the execution of a building search warrant or engaged in an Operation 100 shall be required to report the display or pointing of a firearm only when it involves a sustained active engagement with a person to gain that person's compliance.
- ii. An officer who quickly "sweeps" a room during a building search warrant or Operation 100 is not required to report each person at whom a firearm was momentarily pointed during the sweep.

b. Related terms

Display: Display means having a weapon in hand, while engaged with a subject. For a handgun, this means having it out of the holster, while engaged with a subject. For larger weapons such as rifles, this means having it in hand (slung or unslung), while engaged with a subject.

Engaged with a Subject: This means treating someone as a potential suspect or dealing with a person who is the focus of law enforcement attention in an incident,

while using some level of reportable force (such as display or pointing). An example of a person who is the focus of law enforcement attention is a person in crisis who may not be a potential suspect.

Point: Pointing a weapon means directing it towards a subject, while engaged with them as a potential suspect or as a focus of law enforcement attention in an incident (such as a person in crisis), with the intent to use or imply the use of the weapon. This includes using a CEW to conduct a warning arc or laser paint, and aiming firearms and less-lethal launchers.

3. Level 1 reporting requirements

A Use of Force details page and Narrative Text are required for all level 1 uses of force. Supervisor notification is not required.

C. Level 2 reportable use of force

1. Level 2 definitions and types

Level 2 force involves using force that includes the use of a less-lethal weapon or that causes injury or complaint of injury but does not rise to a level 3 reportable use of force. Level 2 types of force include:

- Discharge of an MPD-authorized chemical aerosol.
- Discharge of a taser or conducted electronic/energy weapon (CEW) (including probes/darts and drive stun/touch).
- Weaponless strikes to the head or neck if the individual's head is not near a hard surface.
- Impact weapon strikes (including improvised impact weapon strikes) to any part of the body other than the head or neck.
- Impact munition use (40mm or handheld).
- Physical apprehension by a canine.
- Any reportable use of force against a handcuffed individual (see section [E] for additional requirements).
- Use of any other less-lethal weapon, meaning a weapon that does not have a reasonable likelihood of causing or creating a substantial risk of death or great bodily harm.
- An escort, touch, handcuff, or other action that results in an injury or complaint of injury.
- Any use of force by an MPD officer that results in injury or complaint of an injury, except level 3 reportable uses of force.
 - o This includes aggravation of a preexisting injury.
- Any physical contact with the neck during a use of force, including incidental contact and touching.

- o This does not include neck contact during a medical assessment such as checking someone's pulse.

- Maximal restraint device (prohibited).

2. Level 2 reporting requirements

A supervisor notification is required in addition to a Use of Force details page and a Narrative Text for all level 2 uses of force.

D. Level 3 reportable use of force

1. Level 3 definition and types

Level 3 force involves any force that causes or force that should have reasonably been known to create or cause a substantial risk of death or great bodily harm, and any force that results in hospital admission. Level 3 types of force include:

- Deadly force.
- Using an impact weapon (including an improvised impact weapon) to strike a person's head or neck.
- Weaponless strikes to the head or neck if the individual's head is near a hard surface.
 - o A "hard surface" means any surface that is unyielding or unlikely to absorb any meaningful force or impact. For example, concrete, frozen ground, wood surfaces, metal surfaces, etc.
 - o If an individual is "near a hard surface," that means that a weaponless strike to that person's head would cause a direct and immediate impact with the hard surface as a result of the strike. For example, if the person is against a car or lying on the street.
- Any force that causes injury resulting in admission to a hospital.
 - o Admission to the hospital does not include treatment and release in the emergency department, no matter how long the stay (if the person was not admitted to the hospital).
- Neck restraints, including choke holds (prohibited).

2. Level 3 reporting requirements

A supervisor notification is required in addition to a Use of Force details page and a Narrative Text for any level 3 uses of force.

3. No review of recordings

For Critical Incidents, the procedures relating to review of audio and visual data in P&P 7-810 apply. For other level 3 uses of force, officers shall not review any recordings including body worn camera footage prior to being interviewed or completing use of force documentation, unless doing so is necessary to address an immediate threat to life or safety while in the field.

E. Handcuffing

1. Police Report required

- a. A Police Report is required for any incident involving handcuffing. The circumstances necessitating handcuffing shall be documented in a Narrative Text.
- b. The application of handcuffs shall be marked in the corresponding box on each Entity handcuffs were applied to, subject to the exception for mass arrests below.
- c. If there is no associated offense code, the report should use a code that corresponds to the problem nature code or if not applicable, the code MISC.
- d. Handcuffing does not require the code FORCE or a Use of Force details page unless an injury or alleged injury occurred.

2. Injuries

Handcuffing will be classified as a level 2 or level 3 use of force if it results in an injury, complaint of injury or aggravation of a preexisting injury.

3. Handcuffing in mass arrests

- a. If the Chief, Assistant Chief or a Deputy Chief gives authorization during a mass arrest situation (which involves multiple officers and typically involves more than five arrestees), officers who only apply handcuffs and escort someone to a transport vehicle do not have to record the application of handcuffs on the Entity form, as long as no injury resulted or was alleged to result from the handcuffing or escorting and as long as no additional force was used.
 - i. The officer shall still enter a Narrative Text for the incident and describe their actions.
 - ii. The incident commander shall ensure that such authorization is documented in the Police Report, including the person who gave the authorization.
- b. If the officer used additional force to control the subject (beyond escorting) or injuries resulted or were alleged to result from any force used by the officer, the officer shall record the application of handcuffs on the Entity form and shall complete any required reporting for the other force or injuries.

F. Reporting Force Used on a Handcuffed Subject

The requirements of this section are in addition to the standard requirements in the section on Use of Force and De-Escalation Reporting.

1. Notify a supervisor

- a. If an officer uses any force on a handcuffed subject (other than the types specified below), the officer shall remain on scene and shall notify an on-duty supervisor by phone or radio as soon as possible so the supervisor can respond to the scene.
- b. Exceptions to this requirement are the following actions used on a handcuffed subject, when the force does not result in injury: Escort holds, joint manipulations and nerve pressure points, and body weight to pin or control pressure if they would not already require a supervisor notification.

2. Supervisor response

- a. Respond to the scene

The supervisor shall respond to the scene, determine the level of force used, and follow the Use of Force Review policy as necessary.

- b. Notify the Watch Commander

The supervisor shall immediately notify the Watch Commander of the incident directly by phone. If there is no Watch Commander on duty, the Commander of Internal Affairs shall be notified directly by phone.

3. Watch Commander response

The Watch Commander shall respond to the incident scene to gather information from the supervisor, observe the force subject and document any injuries, and shall immediately notify the Commander of Internal affairs of the incident directly by phone.

4. Internal Affairs response

When the Commander of Internal Affairs is notified by the Watch Commander or an on-duty supervisor of an incident involving force used on a handcuffed subject, the Commander shall assess the situation and determine if an Internal Affairs call-out is warranted (in accordance with P&P 2-108), and whether to make a notification to the Deputy Chief of Internal Affairs.

5. Responding to the hospital

If the subject must be immediately transported to the hospital for treatment, both the incident Supervisor and Watch Commander shall respond to the hospital to complete their required steps.

G. In-custody Injury or Illness Reporting (Not from Force)

If an individual in custody suffers an injury or an illness, or aggravates a pre-existing injury, not due to force used, the sworn employee shall document it through a Narrative Text, and shall notify a supervisor so the supervisor can respond and complete the Supervisor Force Review.

5-303 Use of Force Review

(02/08/24)

Revisions to prior policies: (10/16/02) (08/17/07) (12/15/09) (04/16/12) (09/08/20) (12/22/20) (03/12/21) (01/01/23)

I. Definitions

Supervisor Force Review: Supervisor Force Reviews (SFRs) are when the supervisor who was notified of a level 2 or level 3 use of force by an employee responds to the scene, investigates the force incident, and documents their findings.

Secondary Force Review: Secondary Force Reviews are when the initial Supervisor Force Review (SFR) and reportable use of force incident undergo a review by another supervisor. This process ensures that each use of force gets thorough scrutiny and sets the expectation for performance coaching and mentoring in the chain of command.

II. Policy

All level 2 and level 3 reportable uses of force, other than critical incidents (P&P 7-810), must be reviewed through a Supervisor Force Review, and through a Secondary Force Review.

III. Procedures**A. Supervisor Force Review (SFR)****1. Supervisor Force Review purpose**

The purposes of a Supervisor Force Review (SFR) are to:

- a. Collect and document information and evidence regarding the use of force; and
- b. Assess whether, based on the information available to the reviewing supervisor, the force used appears to have been consistent with MPD policy, including whether the force appears to have been objectively reasonable given the totality of the circumstances.

2. No review of own use of force

Supervisors shall not conduct a Supervisor Force Review on their own use of force.

- a. If a supervisor uses force that requires a supervisor notification per policy, they shall not conduct any Supervisor Force Review for any other sworn employees at the scene.
- b. If an individual in a supervisor's custody suffers an injury or illness not from force, the supervisor shall not conduct any Supervisor Force Review for the in-custody injury or illness.
- c. Any other supervisor of any rank who did not use such force or have custody shall conduct the Supervisor Force Reviews.

3. Supervisor responsibilities

The supervisor who is notified of and responds to a level 2 or level 3 use of force or In-Custody Injury or Illness incident by any sworn MPD employee shall:

- a. Determine if the incident meets the criteria for a Critical Incident. If so, follow the Critical Incidents policy (P&P 7-810).
- b. Instruct the involved employees to request the subject remain on-scene until the supervisor arrives, if it is reasonable to do so.
 - If the subject does not remain on-scene, the supervisor shall go to the subject's location, if necessary, to complete the investigation.
- c. Immediately respond to the incident scene and conduct a preliminary investigation of the use of force or In-Custody Injury or Illness incident.
 - i. Debrief the employee(s) who engaged in the use of force.
 - ii. Note any reported injury or alleged injury to any individual involved.
 - iii. Note any medical aid/EMS rendered to any individual involved, and take reasonable steps to offer MPD employees and community members appropriate medical care.
 - iv. Locate and review any evidence related to the force or injury incident (e.g. BWC, MVR, security video, private cameras, etc.).
 - v. Ensure any on-scene evidence is preserved and collected.
 - vi. Photograph:
 - the force subject, including any visible injuries
 - the immediate area of the force event
 - injuries to any other individual involved in the force event
 - damage to equipment or uniforms caused by the force event

- vii. Locate and identify witnesses to the use of force or injury incident.
 - viii. Obtain statements from witnesses to the use of force or injury incident.
 - ix. Review all sworn employees' reports and supplements related to the use of force or injury incident for completeness and accuracy.
 - x. Determine if the force used was reasonable or unreasonable, or if it appears to constitute possible misconduct. The supervisor shall contact the Internal Affairs Commander immediately by phone if the force used appears to be unreasonable or appears to constitute possible misconduct.
 - xi. Determine the level of the reportable force, independent of how the force was reported to the supervisor.
- d. Complete and submit the "Use of Force Review" template as soon as practical, but prior to the end of that shift.
- i. It is the reviewing supervisor's responsibility to ensure that all actions taken in the preliminary investigation process and the information obtained from these actions are included in the Summary, and that all other relevant information is entered in the appropriate sections of the report. This includes documenting their observations and assessments.
 - ii. It is the reviewing supervisor's responsibility to assess whether, based upon the totality of the information available at the time of the report, the use of force was consistent with MPD Policy. If the supervisor concludes that the use of force was or may have been unreasonable or not within policy, the supervisor shall:
 - State in the Summary that they believe the use of force requires further review; and
 - Notify the Commander of Internal Affairs of their findings that the force requires further review.
- e. Record the incident information on the approved MPD electronic form prior to the end of the shift, so that a Secondary Force Review can be completed.

4. Supervisor Force Reviews in civil disturbances and assemblies

During civil disturbances or assemblies (in accordance with P&P 7-805), reviewing supervisors shall complete the Supervisor Force Review requirements to the best of their ability, with the information available to them (which may be limited). At a minimum, the review should include:

- The type of force used.
- The amount of force used.
- The basis for the force used.

B. Secondary Force Review**1. Secondary Force Review purpose**

The purposes of a Secondary Force Review are to:

- a. Confirm that the SFR included all required collection and documentation of evidence;
and
- b. Review all available evidence, and perform an additional, separate review of whether the use of force appears to have been consistent with MPD policy.

2. Secondary Force Review required

Secondary Force Reviews shall be completed for all SFRs.

3. Reviewer requirements

Secondary Force Reviews shall be completed by a supervisor at least one rank above that of the highest-ranking employee who engaged in the reportable use of force, as designated by the Inspector or Commander in the chain of command for the initial SFR supervisor.

- a. The secondary reviewer shall be at the rank of Lieutenant or higher.
- b. In some instances, the secondary reviewer may be an appointed rank, when designated.
- c. Supervisors cannot complete a Secondary Force Review of their own SFR.
- d. Supervisors cannot complete a Secondary Force Review of an SFR of their own use of force.

4. Thorough review

- a. The secondary reviewer shall review all of the information reasonably available regarding the use of force review, including BWC recordings made during the on-scene Supervisor Force Review, written reports, video, audio recordings, witness statements, photographs, and other evidence or information collected by the responding supervisor.
- b. The secondary reviewer is independently responsible for a thorough and substantive review of the evidence and an independent analysis of whether the use of force appears to have been consistent with MPD policy.
- c. The secondary reviewer is independently responsible for determining the level of the reportable use of force.

- d. The secondary reviewer shall review the documentation and data entered by the employee who used the force to ensure that the documentation and data is sufficient and complete.

5. Determine if notifications are required

The secondary reviewer shall determine, based on the information reviewed, if the use of force requires a notification to Internal Affairs, and make any required notifications.

6. Timeliness of Secondary Force Review

Secondary Force Reviews and the associated documentation shall be completed as soon as practical, but no later than within 5 calendar days of the completion of the initial SFR, unless an extension is approved by the secondary reviewer's Inspector or Commander.

7. Documenting the Secondary Force Review

After the Secondary Force Review is completed, the Secondary Force Review process shall be documented by recording the required information on the approved MPD electronic form.

8. Internal Affairs review

- a. After the Secondary Force Review is completed, Internal Affairs will ensure that all previous levels of review and documentation were completed properly.
- b. After Internal Affairs has checked the Secondary Force Review for completeness, they will determine whether the incident will be referred for further investigation by OPCR and Internal Affairs, or whether the review will be closed without further investigation.

C. Deputy Chief Review

Following the secondary review, the MPD Deputy Chief of Internal Affairs shall review all level 3 reportable uses of force and level 2 reportable uses of force that involve a strike to the head or neck, for compliance with policy and law, the use of tactics, and for any need to change policy or training.

I. Purpose

- A. The MPD recognizes that combative, non-compliant, armed or otherwise violent subjects cause handling and control problems that require special training and equipment.
- B. The MPD has adopted the less-lethal force philosophy to assist with the de-escalation of these potentially violent confrontations.
- C. This policy addresses the use and deployment of all force control options that are available to sworn employees.

Control options covered:

Restraints:

Handcuffing

Maximal restraint technique (MRT) (Hobble Restraint) and Hogtie (prohibited)

Bodily force

Less-lethal 40mm launcher and impact projectiles

Chemical agents

Conducted electronic weapons (CEWs)

Impact weapons

Canine

Neck restraints and choke holds (prohibited)

Firearms

II. Definitions

Carry: Carrying a weapon or tool means having it on one's person. This includes having it in a pocket, holster, or backpack or similar container, as well as having it slung or having it in hand.

Deliver: Delivering means to launch a weapon or technique to make impact with a subject or to strike a subject with an impact weapon or bodily force.

Discharge: Discharging means ejecting something out of the end or nozzle of a weapon (firing, spraying, launching, etc.).

Display: Display means having a weapon in hand, while engaged with a subject. For a handgun, this means having it out of the holster, while engaged with a subject. For larger weapons such as rifles, this means having it in hand (slung or unslung), while engaged with a subject.

Engaged with a Subject: This means treating someone as a potential suspect or dealing with a person who is the focus of law enforcement attention in an incident, while using some level of reportable force (such as display or pointing). An example of a person who is the focus of law enforcement attention is an individual in crisis who may not be a potential suspect.

Point: Pointing a weapon means directing it towards a subject, while engaged with them as a potential suspect or as a focus of law enforcement attention in an incident (such as an individual in crisis), with the intent to use or imply the use of the weapon. This includes arcing or red-dotting a CEW, pointing impact weapons and aiming firearms.

Use: Using a weapon or tool means activating or applying any of its mechanical functions, pointing a weapon, or making contact with a subject with the weapon or tool. This includes discharging a weapon such as a firearm, CEW, aerosol, or 40mm launcher, arcing, red-dotting or activating a CEW, applying handcuffs or restraints, making bodily contact with a subject with an impact weapon or with bodily force.

III. Policy

A. Authorized Control Options and Use of Unauthorized Control Options

1. Sworn MPD employees shall only carry and use MPD approved weapons for which they are currently trained and authorized to use through the MPD Training Division, except in exigent circumstances. An authorized device is a device an officer has received permission from the MPD to carry and use in the discharge of that officer's duties, and for which the officer has:
 - a. Obtained training in the technical, mechanical and physical aspects of the device; and
 - b. Developed a knowledge and understanding of the MPD policy, law, rules and regulations regarding the use of such a device.
2. All use of force control options and weapons shall be in accordance with the standards and requirements in P&P 5-301.
 - a. Force control options shall only be used in a manner that would be found objectively reasonable (in accordance with P&P 5-301).
 - b. If lower levels of force are ineffective, higher levels of force may be used for control and safety, subject to any additional restrictions on specific options or limitations in P&P 5-300.
3. If an exigent circumstance exists that poses an imminent threat to the safety of the employee or the public requiring the immediate use of an improvised weapon of opportunity, the employee may use the weapon in accordance with the standards in P&P 5-301 (including, but not limited to, the section on Objectively Reasonable Force Consistent with Policy, Law and Training).
4. The use of a firearm, vehicle, less-lethal or non-lethal weapon, or other improvised weapon by an officer may constitute the use of deadly force. This policy does not prevent a sworn employee from drawing a firearm or being prepared to use a firearm in threatening situations, in accordance with P&P 5-301 and the firearm section in this policy (P&P 5-302).

B. Limitations on the Use of Certain Restraints**1. Statutory prohibition**

In accordance with MN Statute section 609.06, the following restraints shall not be used unless MN Statute section 609.066 authorizes the use of deadly force to protect the officer or another from death or great bodily harm:

- a. Securing a person in any way that results in transporting the person face down in a vehicle.
- b. Less-lethal measures must be considered by the officer prior to applying these measures.

2. Prohibition on neck restraints and choke holds

Neck Restraints and choke holds are prohibited, in accordance with the section in this policy (P&P 5-302) covering neck restraints and choke holds.

3. Prone positioning

- a. People in MPD custody shall not be placed in the facedown prone position or any other position that causes a breathing restriction, other than briefly when necessary to secure the person or to prevent the person from causing harm to themselves or others.
- b. If a person is in a position that causes a breathing restriction, for the purpose of securing the person or preventing the person from causing harm to self or others, the person shall be placed in a sitting position, or laying on their side, in a recovery position, as soon as safely possible for all parties. These positions allow the person to breathe freely, reducing the possibility of bodily harm or death from any part of the body respiratory system being restricted or manipulated.

C. Handcuffing**1. Authorized use**

- a. Arrests
 - i. To minimize the risk of injury to officers and others during arrest situations, officers shall handcuff all persons arrested as soon as possible (in accordance with P&P 9-100).
 - ii. Handcuffs are authorized when transporting in-custody subjects (in accordance with P&P 9-100).

b. Investigative detentions (“Terry Stops”)

- i. Handcuff use during investigative detentions is authorized when one or more of the following factors are present:
 - aa. Articulate facts that the subject is physically uncooperative;
 - ab. Articulate facts that a subject’s actions at the scene may present physical danger to themselves or others if not restrained;
 - ac. Reasonable possibility of flight based on the circumstances;
 - ad. Information that the subject is currently armed;
 - ae. The stop closely follows a violent crime and the subject matches specific parts of a description;
 - af. The number of subjects involved in the stop causes an articulable safety concern; or
 - ag. Articulate facts that a crime of violence is about to occur.
- ii. Care and discretion should be used with individuals at extremes of age in handcuffing such individuals during an investigative detention.
- iii. The authority to handcuff during investigatory stops continues for only as long as the circumstances above exist.

c. Suicidal persons

Handcuffs are authorized when engaging a person who is reasonably believed to be suicidal.

d. Search warrant service

- i. Handcuffs are authorized when executing a search warrant at a private residence as is reasonably necessary to execute the warrant in safety.
- ii. Handcuffs are authorized when executing a search warrant at a commercial business open to the public if it reasonably appears that handcuffing is necessary to protect an officer or others from physical harm. Circumstances that justify initial handcuffing may change and eliminate continued justification.

e. Detoxification subjects

Handcuffs are authorized when transporting detoxification subjects.

2. Unauthorized use

- a. If medical circumstances make it unreasonable to handcuff an arrestee, officers shall refrain from handcuffing.
- b. When responding to a scene where a subject has already been placed in handcuffs prior to arrival, officers shall not place MPD handcuffs on the subject until they have reasonable suspicion or probable cause based on their independent investigation or findings.

3. Checking handcuffs

- a. Officers shall check handcuffs for tightness and double lock as soon as it is safe to do so prior to transport.
- b. When a handcuffed subject first complains that handcuffs are too tight or are hurting the subject, the officer having custody of the handcuffed subject shall, as soon as reasonably possible, check the handcuffs to make sure that they are not too tight. If they are too tight (per training), they shall be loosened and relocked.

D. Maximal Restraint Technique (MRT) and Hogtie (prohibited)

1. The Maximal Restraint Technique (MRT) and the Hobble Restraint Device (and related devices) are prohibited.

The Maximal Restraint Technique (MRT) is used to secure a subject's feet to their waist, through the Hobble Restraint Device or other related devices.

2. Hogtying a subject is prohibited.

A hogtie involves tying the feet of the subject directly to their hands behind their back.

E. Bodily Force

1. Bodily force types

Bodily force (also known as empty hand tactics) includes but is not limited to:

- Escort holds (temporary holding of the hand, wrist, arm or shoulder to physically control or direct a subject)
- Joint manipulations (physically contorting a subject's joint to control or limit movement)
- Nerve pressure points (touch pressure)
- Joint locks (manipulating a subject's joint until it reaches its maximal degree of motion and hyperextension- wrist lock, shoulder lock, elbow lock, etc.)
- Body weight to pin
- Control pressure

- Takedown techniques or tackles (Using physical force to direct a person to the ground)
- Pushes (using physical force to press forward in an effort to effect movement)
- Strikes (punches, kicks, knees, slaps)

2. Body weight to pin and control pressure

a. Body weight to pin definition

Restricting a subject's movement by use of body weight to pin the subject to the ground or floor.

b. Control pressure definition

Restricting a subject's movement while the subject is upright by use of body weight to pin the subject to a fixed object (such as applying pressure while the subject is against a vehicle or building).

c. Reporting

Body weight to pin and control pressure require a report and Use of Force details page. The requirement to notify a supervisor for body weight to pin and control pressure varies based on where the pressure was applied:

i. Supervisor notification required

A supervisor notification is required for:

- aa. Body weight to pin or control pressure resulting in injury or alleged injury (including loss of consciousness).
- ab. Body weight to pin on the front rib cage area or the head.
- ac. Control pressure on the head.

ii. Supervisor notification not required

A supervisor notification is not required for the following types, unless another condition applies such as an injury:

- aa. Body weight to pin on limbs, hips, the back or the stomach.
- ab. Control pressure on limbs, hips, or the torso.

3. Pushing to the ground

If a push or shove propels the subject to the ground or floor, it is considered a takedown.

4. Vehicle extractions to the ground

Vehicle extractions that end on the ground or floor are considered takedowns.

5. Neck restraints and choke holds covered elsewhere

Neck restraints and choke holds are considered separate control options under this policy (and are not included as bodily force).

6. Strikes (punches, kicks, knees, slaps)

a. Strikes may be delivered:

- i. To subjects who are exhibiting Aggressive Resistance or Assault, or;
- ii. For life saving purposes, or;
- iii. To subjects who are Actively Resisting if lesser attempts at control have been or would likely be ineffective (in accordance with section in P&P 5-301 on Objectively Reasonable Force Consistent with Policy, Law and Training).

b. Strikes shall not be delivered to persons who are Compliant or are Passively Resisting as defined by policy.

7. Treatment and medical aid

In addition to standard medical treatment after use of force (in accordance with P&P 5-301), when officers deliver strikes, or if bodily force causes a subject's head to strike an object or surface, treatment for the subject shall include visually inspecting the areas struck for signs of injury, when appropriate. Officers shall routinely monitor the medical condition until they are released to medical or other law enforcement personnel.

F. Less-Lethal 40mm Launcher and Impact Projectiles

The 40mm less-lethal round is a direct fire round used in situations where maximum deliverable energy is desired for the incapacitation of an aggressive, non-compliant subject.

1. 40mm less-lethal round authorization

- a. This policy applies to officers who are not working in a certified SWAT capacity.
- b. The 40mm launcher with the 40mm less-lethal round should not be used in deadly force situations without firearm backup.
 - i. The discharge of the 40mm less-lethal round should be considered a level slightly higher than the use of an impact weapon and less than deadly force when delivered to areas of the subject's body that are considered unlikely to cause death or serious physical injury.

- ii. Prior to using less-lethal options, officers need to consider any risks to the public or themselves.
 - iii. When discharging the 40mm less-lethal round, consideration shall be given as to whether the subject could be controlled by any other reasonable means without unnecessary risk to the subject, officers, or to the public, in accordance with knowledge and training in use of force and MPD policies governing the use of deadly and non-deadly force.
 - c. Only officers trained in the use of the 40mm launcher and 40mm less-lethal round are authorized to carry and use them.
 - d. All carrying and use of 40mm launchers for crowd control purposes or during civil disturbances and assemblies shall only occur in accordance with P&P 7-805.
2. Standard projectiles
- a. Officers shall only carry MPD-approved 40mm rounds. Ammunition specifications are available from the Range Master.
 - b. The MPD Range shall issue 40mm rounds with each launcher depending on the needs of the 40mm Operator Program. The MPD Range shall replace any rounds discharged or damaged as needed.
3. Target areas
- a. The primary target areas for the 40mm less-lethal round should be the large muscle groups in the lower extremities including the buttocks, thigh, knees. Alternative target areas include the ribcage area to the waist, and the larger muscle areas of the shoulder areas.
 - b. Officers shall be aware that the delivery of the 40mm impact projectiles to certain parts of the human body can cause grievous injury that can lead to a permanent physical or mental incapacity or possible death.
 - c. Officers shall not intentionally discharge less-lethal impact munitions at a person's head, neck, throat, face, armpit, spine, kidneys, or groin unless deadly force would be justified.
4. 40mm launcher use
- a. The 40mm launchers can be discharged when the incapacitation of a violent or potentially violent subject is desired. The 40mm launcher can be a psychological deterrent and physiological distraction serving as a pain compliance device.

- b. If a supervisor or responding officers believe that there is a call or incident that may require the use of less-lethal capability, they may request via radio or other means that an on-duty MPD-trained operator with a 40mm launcher respond to the scene.
 - c. Officers shall announce over the radio that a 40mm launcher will be discharged, when time and tactics permit.
 - i. It is important that whenever possible, all officers involved and possible responding officers know that a 40mm less-lethal projectile is being discharged so they do not mistake the sight and noise from the 40mm projectile discharge as a live ammunition discharge.
 - ii. 40mm launchers have an orange barrel indicating they are the less-lethal platform.
 - d. When appropriate given the situation, officers discharging a 40mm less-lethal projectile should yell "Code Orange!" prior to and during the discharge.
- 5. Carrying and Storage
 - a. 40mm launchers shall be assigned to each precinct, City Hall and specialty units as needed.
 - i. Each 40mm launcher shall be kept its own case and in a secured gun locker.
 - ii. Only commanders or their designee and MPD-trained operators will have keys to the 40mm armory lockers.
 - b. MPD-trained operators shall have the 40mm launchers available during their assigned shift, when possible.
- 6. Maintenance of 40mm launchers

Only MPD certified Range personnel shall perform maintenance and repairs to the 40mm launcher.
- 7. Subjects injured by 40mm less-lethal projectiles
 - a. Medical assistance shall be rendered as necessary in accordance with P&P 5-301 and the Emergency Medical Response policy (P&P 7-350).
 - b. If possible, photographs should be taken of any injuries to the subject.
- 8. Use of Force reporting
 - a. Officers who discharge a 40mm less-lethal round shall report the force in accordance with P&P 5-303.

- b. Officers who discharge a less-lethal round shall immediately notify dispatch, who will notify a supervisor.
- c. A supervisor shall respond to the scene any time a 40mm less-lethal round is discharged. The responding supervisor shall review the incident and complete a use of force review in accordance with P&P 5-303.
- d. Supervisors shall ensure that all spent 40mm less-lethal rounds are collected and property inventoried if possible.

G. Chemical Agents

1. Use of Chemical Agents

- a. MPD approved chemical agents may be used as a non-lethal use of force. The use of chemical agents shall be consistent with current MPD training and MPD policies governing the use of force (including all sections in P&P 5-300).
- b. Chemical agents, regardless of canister size, shall only be discharged at subjects under the following circumstances:
 - i. During civil disturbances and assemblies, only when authorized in accordance with P&P 7-805.
 - ii. In situations not involving civil disturbances or assemblies:
 - aa. On subjects who are exhibiting Aggressive Resistance or Assault, or;
 - ab. For life saving purposes, or;
 - ac. On subjects who are Actively Resisting if lesser attempts at control have been or would likely be ineffective (in accordance with the section in P&P 5-301 on Objectively Reasonable Force Consistent with Policy, Law and Training).
- c. Chemical agents shall not be discharged at persons who are Compliant or are Passively Resisting as defined by policy.
- d. Sworn MPD employees shall exercise due care to ensure that only intended persons are exposed to the chemical agents.

2. Treatment and Aid for Chemical Agent Exposure

- a. In addition to standard medical treatment after use of force (in accordance with P&P 5-301), post exposure treatment for a person that has been exposed to the chemical agent shall include one or more of the following:
 - Removing the affected person from the area of exposure.
 - Exposing the affected person to fresh air.

- Rinsing the eyes and skin of the affected person with cool water (if available).
- b. Sworn employees shall keep a person exposed to the chemical agent under close observation until they are released to medical or other law enforcement personnel.
- c. An officer who has discharged a chemical agent at a person shall inform individuals accepting custody that it was discharged at the person.
- d. Discharging chemical agents to prevent the swallowing of narcotics is prohibited.

H. Conducted Energy Weapons (CEWs)

Terms related to Conducted Energy Weapons (CEWs):

Activating: Activating a CEW means engaging the Arc switch, or the trigger after probes have been discharged, to generate electricity through arcing or cycling. Activating on a subject means engaging the arc switch in touch/contact stun or drive-stun applications or engaging the arc switch or the trigger after probes have been discharged at a subject.

Apply: When a CEW is used for touch/contact stun or drive/stun applications (involving contact with the subject by the CEW).

Arcing: Un-holstering the CEW and activating the CEW for purposes of threatening its use prior to actual discharge or drive-stun or touch/contact stun application. In some cases, this may be effective at gaining compliance without having to actually discharge at or apply drive-stun or touch/contact stun on at a subject.

Drive-Stun: Touch/Contact Stun and Drive- Applying drive-stun mode is when the CEW is strongly, with forceful pressure, pushed directly into a subject's nerve bundle and touch/contact stun mode is applied.

Probe Mode: When a CEW is used to discharge probes (also called darts) at a person for the purpose of incapacitation.

Red Dotting: Un-holstering and pointing a CEW at a person and activating the laser aiming device. In some cases, this may be effective at gaining compliance without having to actually discharge a CEW. Also known as "painting" the target.

Touch/Contact Stun: Applying touch/contact stun mode is when a CEW's electrodes contact a subject's body and the trigger or arc button is activated with no cartridge or probes being discharged. Contact from the CEW with the subject completes the electrical circuit which causes pain but does not cause an incapacitating effect.

1. CEW authorization

- a. The MPD approved Conducted Energy Weapon (CEW) (P&P 3-200) is considered a less-lethal weapon.

- b. MPD officers are only authorized to carry CEWs that are issued by the department. Personally owned CEWs, or those issued by another agency, are not authorized to be carried or utilized while an MPD officer is acting in their official MPD capacity.
 - c. CEWs may be used:
 - i. On subjects who are exhibiting Aggressive Resistance or Assault, or;
 - ii. For life saving purposes, or;
 - iii. On subjects who are Actively Resisting if lesser attempts at control have been or would likely be ineffective (in accordance with the section in P&P 5-301 on Objectively Reasonable Force Consistent with Policy, Law and Training).
 - d. CEWs shall not be used against subjects who are Compliant or are Passively Resisting as defined by policy (P&P 5-301).
 - e. CEWs should generally be used in the probe mode. Application of CEWs in the drive stun mode shall be limited to defensive applications or to gain control of a subject who is exhibiting Aggressive Resistance or Assault if lesser attempts at control have been ineffective, or if the probe mode was ineffective.
2. Cycles with a TASER 7

For members with a TASER 7, the following applies:

When activating a CEW on a subject, personnel should activate it for one standard cycle (a standard cycle is five seconds) and pause to evaluate the situation to determine if subsequent cycles are necessary.

- a. If subsequent cycles are necessary, officers should restrict the number and duration to only the minimum amount necessary to control or place the subject in custody under the existing circumstances.
 - b. Personnel should constantly reassess the need for further activations after each CEW cycle and should consider that exposure to multiple applications of the CEW for longer than 15 seconds may increase the risk of serious injury or death.
 - c. Officers should be aware that a lack of change in a subject's behavior often indicates that the electrical circuit has not been completed or is intermittent. If there is a need for another cycle based on the standards above, officers should immediately discharge another cartridge or transition to other control options rather than activating continued ineffective cycles.
3. Cycles and deployment of additional probes with a TASER 10

For members with a TASER 10, the following applies:

a. Initial deployment

Each trigger pull deploys a single probe. A minimum of two deployed probes are required to make a connection. The second probe should be deployed as quickly and accurately as possible to ensure a full-circuit connection. The initial deployment of two probes is considered a single use of force.

b. Additional probes

Each deployment beyond the initial two probes is a separate use of force that members must separately justify as objectively reasonable, necessary, and proportional. Additional probes may be deployed when the conditions for use still apply, and:

- The probes have not completed a circuit.
- The probes have completed a circuit, but the circuit is not resulting in a sufficient change in the person's behavior. For example, the position of the probes results only in localized pain and the subject behavior continues.
- A previously completed circuit fails.

c. Re-energizing

After the conclusion of a cycle where neuro-muscular incapacitation has been achieved, the member shall assess the person to determine if an additional cycle is necessary based on the person's behavior. Re-energizing the CEW is a separate use of force that members must separately justify as objectively reasonable, necessary, and proportional.

- i. In determining whether any additional cycle is objectively reasonable, members shall consider whether the person has the ability to comply and has been given a reasonable opportunity to comply prior to re-energizing the CEW.
- ii. If subsequent cycles are necessary, members shall restrict the number and duration to only the minimum amount necessary to place the person into custody or safely control the situation, and subject to the limits stated in this policy.

4. Tactics and requirements when using a CEW

a. One officer at a time

Unless exigent circumstances exist as defined by policy (P&P 5-301), no more than one officer should intentionally activate a CEW against a subject at one time.

b. Warnings

Officers shall, unless it is not feasible to do so, give verbal warnings or announce their intention to discharge a CEW prior to actual discharge. Use of the CEWs' laser

pointer (red dotting) or arcing of the CEW may be effective at diffusing a situation prior to actual discharge of the CEW.

c. Holstering

The CEW shall be holstered on the sworn MPD employee's weak (support) side to avoid the accidental drawing or firing of their firearm. (SWAT members in tactical gear are exempt from this holstering requirement.)

d. Subject factors

i. Officers must consider the possible heightened risk of injury and adverse societal reaction to the use of CEWs upon certain individuals. Officers must be able to articulate a correspondingly heightened justification when activating a CEW on:

- Persons with known heart conditions, including pacemakers or those known to be in medical crisis;
- Elderly persons or young children;
- Frail persons or persons with very thin statures (i.e., may have thin chest walls);
- Women known to be pregnant;

ii. Prior to activating a CEW on a subject in flight the following should be considered:

- The severity of the crime at issue;
- Whether the subject poses an immediate threat to the safety of the officer or others, and;
- Whether the officer has a reasonable belief that activation of the CEW would not cause significant harm to the subject fleeing unless use of deadly force would otherwise be permitted.

e. Situational factors

In the following situations, CEWs should **not** be activated unless the use of deadly force would otherwise be permitted:

- On persons in elevated positions, who might be at a risk of a dangerous fall;
- On persons operating vehicles or machinery;
- On persons who are already restrained in handcuffs unless necessary to prevent them causing serious bodily injury to themselves or others and if lesser attempts of control have been ineffective;
- On persons who might be in danger of drowning;
- In environments in which combustible vapors and liquids or other flammable substances are present;

- In similar situations involving heightened risk of serious injury or death to the subject.

5. Loss or damage

Lost, damaged or inoperative CEWs shall be reported to the CEW Coordinator immediately upon the discovery of the loss, damage or inoperative condition.

6. Use during off-duty employment

- a. Officers who use their MPD issued CEW during the scope of off-duty employment within the City shall follow MPD policy and procedure for reporting the use of force and downloading their device.
- b. If officers carry their MPD issued CEW during the scope of off-duty employment outside of the City (e.g. working for another law enforcement agency) that agency shall sign a waiver (Letter of Agreement for Off Duty Employment) which indicates that certification through the Minneapolis Police Department is sufficient for use while working for that agency.

7. Downloading and reporting

a. CEW downloading guidelines

- i. The CEW shall be downloaded, when used in probe mode, touch/contact stun mode or drive-stun mode, prior to the end of the officer's shift.
- ii. The CEW shall be downloaded for any incident that is recorded that the officer believes might have evidentiary value.
- iii. If a CEW was used during a critical incident, the CEW will be inventoried by the investigating agency for processing video and firing data evidence.

b. CEW reporting guidelines:

- i. When a CEW is discharged at or applied in touch/contact stun or drive-stun mode on a subject, the officer shall report its use in accordance with the Force Reporting requirements in P&P 5-303. Officers shall document de-escalation attempts in their Narrative Text.
- ii. When a CEW is threatened by means of displaying, red dotting or arcing, the threatened use shall be reported in accordance with P&P 5-303.
- iii. When a CEW is used during the scope of off-duty employment outside of the City (e.g. another law enforcement agency) officers shall obtain a Minneapolis CCN from MECC and complete a Police Report titled AOA and refer to the outside

employer's incident report in the Narrative Text. Officers shall then download the device and store the information under the Minneapolis CCN.

8. Post exposure treatment and medical aid

- a. In addition to standard medical treatment after use of force (in accordance with P&P 5-301), post exposure treatment for a person that has been exposed to the electricity from the CEW shall include the following:
 - i. Request EMS response for probe removal if probes are located in sensitive areas (face, neck, groin or breast areas).
 - ii. Wear protective gloves and remove probes from the person's non-sensitive body areas.
 - iii. Secure the probes (biohazard "sharps") point down into the expended cartridge and seal with a safety cover.
 - iv. When appropriate, visually inspect probe entry sites or drive stun locations for signs of injury.
 - v. When appropriate, photograph probe entry sites or drive stun locations.
- b. Sworn employees shall routinely monitor the medical condition of a person who has been exposed to the electricity from a CEW until they are released to medical or other law enforcement personnel.

I. Impact Weapons

1. MPD approved impact weapons (P&P 3-200) are considered less-lethal weapons, and may be used as impact weapons:
 - a. On subjects who are exhibiting Aggressive Resistance or Assault, or;
 - b. For life saving purposes, or;
 - c. On subjects who are Actively Resisting if lesser attempts at control have been or would likely be ineffective (in accordance with the section in P&P 5-301 on Objectively Reasonable Force Consistent with Policy, Law and Training).
2. Strikes from impact weapons shall not be delivered to persons who are Compliant or are Passively Resisting as defined by policy (P&P 5-301).
3. In addition to standard medical treatment after use of force (in accordance with P&P 5-301), treatment for a person that has been struck with an impact weapon shall include visually inspecting the areas struck for signs of injury, when appropriate.

4. Sworn employees shall routinely monitor the medical condition of a person that has been struck with an impact weapon until they are released to medical or other law enforcement personnel.

J. Canine

1. Canines shall only be deployed in accordance with P&P 7-807 Authorized Use of Canines.
2. When canines are used for apprehensions, handlers shall disengage their canines as soon as reasonably possible after the subject is able to be controlled or secured.
3. Officers are responsible for ensuring any person injured by an MPD canine receives medical treatment as soon as reasonably possible.
 - a. Officers shall request an ambulance to the scene whenever a person is apprehended by a canine.
4. The canine handler shall notify the Canine Sergeants immediately after any canine apprehension or accidental bite.
 - a. Officers will be debriefed by Canine unit supervisors and trainers as soon as possible following notification.
 - b. If a Canine Sergeant is not available, another MPD sergeant may be asked to do the force review (in accordance with P&P 5-303).
5. Canine handlers shall photograph all injuries and ensure the images are uploaded in accordance with P&P 10-400.
6. Upon notification of a bite or apprehension, a Canine Sergeant shall complete the K-9 Unit Apprehension Review form (MP-9090) and will send it electronically to the members of the review panel.

K. Prohibition on Neck Restraints and Choke Holds

Neck Restraints and choke holds are prohibited. Instructors are prohibited from teaching the use of neck restraints or choke holds.

MN Statute section 609.06 Subd. 3 (b) defines a choke hold “as a method by which a person applies sufficient pressure to a person to make breathing difficult or impossible, and includes but is not limited to any pressure to the neck, throat, or windpipe that may prevent or hinder breathing, or reduce intake of air. Choke hold also means applying pressure to a person's neck on either side of the windpipe, but not to the windpipe itself, to stop the flow of blood to the brain via the carotid arteries.”

L. Firearms**1. Firearm discharges- when authorized**

An MPD sworn employee may lawfully discharge a firearm in accordance with policy in the following circumstances:

- a. In deadly force situations, in strict compliance with the Use of Force policy (P&P 5-301), and with a high degree of restraint. Firearm use shall never be considered routine and is permissible only when alternative means do not work, would not work or are too unsafe to try (in accordance with the section in P&P 5-301 on Objectively Reasonable Force Consistent with Policy, Law and Training).
- b. To dispatch an animal that is dangerous, or one that humane treatment requires its removal from further suffering and alternative methods of disposition are impractical.
- c. To participate in authorized training.
- d. To participate in any authorized competition or legitimate sporting activity.

2. Firearm discharges- when prohibited

Officers shall not discharge firearms under the following conditions:

- a. As a warning or to command attention.
- b. Against persons who present a danger only to themselves.
- c. Solely to protect property.

3. Shooting at motor vehicles

- a. Firearms shall not be discharged at a moving or fleeing vehicle, unless:
 - i. The officer or another person is currently being threatened with deadly force by an occupant by means other than the moving vehicle and the officer reasonably believes there are no other reasonable means available to avert the threat, or
 - ii. In the extreme case of a 'vehicle ramming attack' where a vehicle is being used as a weapon to target people to cause great bodily harm or death, or
 - iii. In the extreme case when an officer is stuck in the path of a vehicle, and:
 - has no means of escape, and
 - the officer reasonably believes there are no other reasonable means available to avert the threat, and
 - the officer is unable to issue commands or the driver is disregarding commands to stop.

- aa. Officers shall consider their positioning and avoid placing themselves in the path of a vehicle whenever possible. If officers find themselves positioned in the path of a vehicle, they shall attempt to move safely out of the path of the vehicle instead of discharging a firearm at it or any of its occupants.
 - ab. Being in the path of a moving vehicle shall not be the sole reason for discharging a firearm at the vehicle or any occupant.
 - b. This prohibition includes attempting to disable the vehicle by discharging at it.
 - c. Considerations in this prohibition:
 - i. A vehicle may be occupied by additional passengers and it may not be readily apparent how many occupants are in the vehicle.
 - ii. Bullets discharged at moving motor vehicles are extremely unlikely to immediately cease the movement of the vehicle or successfully disable it.
 - iii. Bullets discharged at or from moving motor vehicles have a higher probability of missing the intended target or ricocheting and possibly injuring officers or other innocent persons, including passengers in the vehicle.
 - iv. Bullets discharged at moving motor vehicles may disable or disorient the driver, causing the vehicle to crash and possibly injuring officers or other innocent persons, including passengers in the vehicle.
- 4. Drawing and displaying a firearm
 - a. An officer's decision to draw or display a firearm will be based on the tactical situation and the officer's reasonable belief that lethal force is necessary, or that there are indicators of a substantial risk the situation may escalate to the point where lethal force may be necessary.
 - b. Unnecessarily or prematurely drawing or displaying a firearm may limit an officer's alternatives in controlling a situation and may inhibit or limit communication between the officer and the subject.
- 5. Notification of firearm discharges
 - a. Employee responsibility

Any employee who discharges a firearm, whether on or off duty, shall make direct contact with their immediate supervisor or the on-duty Watch Commander and the local jurisdiction as soon as possible **except**:

- While at an established target range;
- While conducting authorized ballistics tests;

- When engaged in legally recognized activities while off-duty.

b. Supervisor responsibility

- i. The supervisor shall respond to any scene in which an employee has discharged a firearm while on-duty or in the course of duty.
- ii. The supervisor is responsible for notifying the Watch Commander and when appropriate, the employee's Deputy Chief and the on-duty Homicide investigator. This does not include the discharge of a firearm with the intention of dispatching an animal, unless it results in injury to a person.
- iii. Notifications to the Internal Affairs unit shall be made in accordance with the Duty to Report policy (P&P 2-101).
- iv. The advised supervisor shall ensure that drug and alcohol testing is conducted in accordance with P&P 3-1000 Drug and Alcohol Testing.
- v. At any officer-involved shooting incident, the Critical Incident Policy (P&P 7-810) shall be followed.

c. Reporting firearms discharges to the State

MN Statute section 626.553 requires the Chief of Police to report to the State Commissioner of Public Safety whenever a peace officer discharges a firearm in the course of duty, other than for training purposes or when killing an animal that is sick, injured or dangerous. Written notification of the incident must be filed within 30 days of the incident. The notification shall include information concerning the reason for and circumstances surrounding discharge of the firearm. The Internal Affairs unit supervisor shall be responsible for filing the required form(s) with the State Bureau of Criminal Apprehension.

6. Written report on discharge of firearms

- a. All employee firearm discharges that require notification, other than Critical Incidents, shall be reported in a PIMS report, including a Narrative Text, by the employee involved and the supervisor who was notified. The report shall be titled, "DISWEAP." The employee shall complete Force Reporting in accordance with P&P 5-303 and the supervisor shall then complete a Supervisor Force Review in accordance with P&P 5-303.
- b. The Watch Commander shall include all case numbers on the Watch Commander log.

Minneapolis Police Department Policy and Procedure Manual

Number:

Date:
27 August 2002

Volume Six – Relations With Other Agencies

Mutual Aid and Other Agency Relationships

6-101 Relationships With Other Agencies

Establishing and maintaining channels of communication between law enforcement agencies and other criminal justice agencies is essential to cooperating and planning with agencies with differing mandates. (04/01/93)

It is the policy of this department to establish and maintain liaisons and relationships with criminal justice agencies and coordinating councils. (04/01/93)

6-102 Requests From Other Agencies

Requests for non-emergency assistance within the city limits shall be referred to a superior officer. Superior officers shall cooperate with other agencies and encourage good relations. Requests for assistance from police agencies outside the city limits shall be made through the on-duty watch commander.

6-103 Transportation of Persons for Hennepin County Agencies or Other Jurisdictions (07/11/00)

The MPD will not respond to requests to pick up and transport juveniles for Hennepin County agencies or for other jurisdictions unless the MPD has specifically requested other jurisdictions or agencies to locate and/or hold a juvenile for Minneapolis. This includes requests from other law enforcement agencies to “meet them at the border” to transfer custody responsibility for the transportation to a truancy/curfew or other youth center, or any other location.

The following are the circumstances under which a Minneapolis officer will transport a person to or from a Hennepin County or social service agency, or other jurisdiction:

1. When a juvenile or adult is initially placed under arrest or taken into protective custody by MPD at the request of the Hennepin County agency;
2. The MPD requested other jurisdictions to locate and/or hold a juvenile;
3. When an abandoned or lost child is found in Minneapolis and a parent cannot be located;
4. When child abuse or abuse to a vulnerable adult is discovered and an officer is dispatched to write the initial 72-hour health and welfare hold;

5. When an intoxicated juvenile or adult is found within the City of Minneapolis and must be transported to a detox shelter; or (07/11/00)
6. When a person currently within the City of Minneapolis must be taken to the HCMC Crisis Unit to be placed under an emergency admission or transportation hold. (07/11/00)

In the following circumstances MPD officers shall not transport a juvenile or adult:

1. When a juvenile or adult has already been placed under an emergency hold and need to be transported to or from a Hennepin County or social service agency for any reason;
2. When a juvenile has been placed into custody of the Hennepin County Child;
3. Protection agency by either a parent or a court order;
4. When a juvenile or adult is under the care of a Hennepin County or social service agency but no criminal charge or emergency hold is requested;
5. When the placement of an emergency hold is requested for a juvenile or adult as a result of an incident which occurred outside the jurisdiction of the City of Minneapolis; or
6. When another jurisdiction requests transfer of custody of a juvenile or adult for transport (unless MPD requested a locate/hold). This includes requests from other agencies to “meet them at the border” to transfer juveniles to a truancy/curfew center or other social service agency. The MPD (i.e. Watch Commander) will contact a superior officer from any agency that drops off a juvenile at an MPD facility. The MPD will make arrangements for that agency to return to pick up and transport the youth to the proper facility. Transportation to a necessary destination of a person taken into custody by another jurisdiction is the responsibility (and liability) of the arresting or in-custody jurisdiction. (07/11/00)

None of the above precludes MPD officers from transporting children or adults to be examined or interviewed in the course of a MPD investigation.

6-104 Mutual Aid Agreement

The policy of this department is to provide law enforcement assistance or to be assisted by other law enforcement agencies in adjoining or concurrent jurisdictions in the event of unusual occurrences, such as natural and man made disasters and civil disturbances. (04/01/93)

The Minneapolis Police Department participates in a mutual aid agreement with the St. Paul Police Department and all law enforcement agencies within Hennepin County. The purpose of the agreement is to provide a legal vehicle for sharing law enforcement resources, both personnel and equipment.

6-104.01 Procedures for Requesting or Providing Assistance Under Mutual Aid

1. The decision to request assistance from other law enforcement agencies is left to the discretion of the requesting agency. As a general guideline, any emergency incident or event that is beyond the capabilities of the requesting agency could reasonably justify assistance under mutual aid. The following personnel are authorized to request assistance from other law enforcement agencies:

- Mayor
- Chief of Police
- Bureau Heads
- On-duty Watch Commander

These same personnel are authorized to respond to a request for assistance from other agencies covered in the mutual aid agreement.

2. The authorized official requesting assistance shall contact the appropriate responding official and include the following information in the request:
 - The amount and type of assistance needed;
 - The nature of the event or incident;
 - When and where assistance is needed;
 - To whom the responding agency's personnel should report.

The decision to provide assistance and how much assistance to provide rests solely with the responding agency. The mutual aid agreement does not obligate any agency to respond to a request for assistance and does not create any liability for any agency who chooses not to provide assistance when requested.

3. When an agency responds to a request for assistance, the responding official may recall all or part of the resources provided at any time, if needed by the responding agency.
4. The agency requesting assistance shall be responsible for managing the event or incident for which assistance is requested.

When Minneapolis police officers respond to a request for assistance from another agency, they shall remain under the direction and control of the superior or senior officer in charge of the Minneapolis detail. The superior or senior officer in charge of the detail shall coordinate with the commanding officer in charge of the event or incident from the requesting agency.

Officers from another agency responding to a request for assistance from Minneapolis shall remain under the direction and control of a superior or senior officer from their agency. The City of Minneapolis assumes responsibility for the officer's wages, worker's compensation protection, and any other liability to the same extent as when the officer is serving in Minneapolis. The Minneapolis Police Department shall be responsible for its own personnel, including any injuries or death, and its equipment and supplies, including any damage or loss when responding to another agency's request for assistance. Agencies responding to a request for assistance from Minneapolis shall assume all responsibility for their personnel, including injuries or death, and equipment and supplies, including damage or loss.

6-105 Requesting National Guard Assistance
(Revised 03/20/96)

When a natural disaster, civil disorder or other emergency requires assistance beyond the capabilities of local law enforcement agencies, military assistance from the Minnesota National Guard may be requested using the following procedures:

1. The on-scene Incident Commander will notify the Emergency Operations Center Commander of the need for additional military assistance. If the Emergency Operations Center Commander concurs with the request, the Emergency Operations Commander will telephone the Minnesota 24 hour Duty Officer and request assistance of the Minnesota National Guard, describing the situation and the intended role of National Guard personnel with instructions for reporting to a staging area.
2. The Emergency Operations Center Commander must then notify the Mayor that the request for assistance was made and notify the on-scene Incident Commander the request was forwarded.
3. The verbal request made to the Minnesota Duty Officer must be followed by a written request signed by the Mayor.
4. The National Guard assistance must not be requested until all other Mutual Aid resources have been utilized. When dispatched to provide assistance, the National Guard will provide a liaison officer to coordinate the activities of the National Guard with the on-scene Incident Commander.

6-106 University of Minnesota Campus

In the event of an emergency situation on the Minneapolis Campus of the University of Minnesota, the University President or the President's designee may contact the Mayor of Minneapolis or the Mayor's designee and request police assistance. The request shall be made electronically, orally, or in writing. If the Mayor approves the request, the on-duty watch commander will be ordered to coordinate activities with the University of Minnesota Police (UMPD). Minneapolis Police Department personnel will remain city employees under the direction of their superiors at the scene. UMPD personnel will remain university employees under the direction of their supervisors.

If the emergency situation requires a tactical response, decisions regarding such a response will be made only after consultation with civilian and police administrative officials from the University, the City of Minneapolis and the two police departments. A tape recording or chronological report of the events and decisions made shall be kept by the UMPD.

If Minneapolis Police command personnel or an Incident Commander wishes to request the assistance of the National Guard to the University of Minnesota, Minneapolis Campus, the request should be forwarded through an Emergency Operations Center Commander for large scale disturbances, or forwarded to the Minnesota Duty Officer by the University President and the Mayor of Minneapolis. As per Minn. Stat. §86B.105, the Hennepin County Sheriff's Office shall investigate all drownings and watercraft accidents that involve personal injury or death; and damage or loss of property occurring in the County. MPD officers, via MECC, shall notify the Sheriff's Office when a reportable accident, i.e., theft, vandalism, fire, assault, etc., has occurred on the lakes/rivers/ponds (water or ice) in Minneapolis.

Upon request of the Hennepin County Sheriff's Department or any suburban law enforcement agency within Hennepin County, the Minneapolis Police Department's Bomb Unit shall respond to reported incidents involving bombs, explosives, or incendiary devices occurring within Hennepin County.

The agency providing service under this agreement shall do so at no cost or liability to the requesting agency.

6-109 Response to Special Jurisdictional Areas

Certain areas within and outside of the geographic boundaries of the City present special problems because of uncertainty about which agency has primary jurisdiction. Officers dispatched to an emergency situation where the jurisdiction is unclear or where the response is out of the Minneapolis jurisdiction shall take the appropriate action to relieve the emergency at hand until properly relieved by the appropriate authority.

Theodore Wirth Park: Although the park is located in both Minneapolis and Golden Valley, the entire park is considered a Minneapolis Police response area. Calls for service to Golden Valley Police will be referred to MECC.

Veteran's Hospital: Police response within hospital grounds and buildings is the primary responsibility of the Veteran's Administration Police Department. Assistance by the Minneapolis Police Department will be provided upon request.

Minneapolis police will be the primary responders for events occurring on Minnehaha Ave. S. from 54th St. S. to the intersection of Minnehaha and the Crosstown Highway even though this area is technically a state highway. The State Highway Patrol may be requested to provide investigative assistance, if needed.

Twin Cities International Airport: The Metropolitan Airport Commission (MAC) police are the primary responders for events occurring at the airport. Minneapolis police assistance may be requested in potential or actual crash situations through the mutual aid agreement.

Minneapolis also has an agreement with the Air Reserve Base and the Metropolitan Airport Commission for the use of the Minneapolis Emergency Response Unit (ERU). In the event of a hostage, high-jacking, or barricaded suspect in the Air Reserve Compound, Minneapolis ERU personnel may be deputized by the U.S. Marshal and used to supplement the F.B.I. Tactical Team. The MAC police would defer any hostage, high-jacking, or barricaded suspect incident outside of the main terminal to the F.B.I. The Minneapolis ERU may be requested by the ranking MAC officer to assist in perimeter security and/or to supplement the F.B.I. Tactical Team.

Minneapolis police personnel will be sworn in by the U.S. Marshal when supplementing the F.B.I. Tactical Team.

Historic Fort Snelling/Fort Snelling: Police response for Historic Fort Snelling and Fort Snelling is the responsibility of the Hennepin County Sheriff's Department. Minneapolis police may be requested to respond to high priority emergency calls because our units will usually be closer. Assistance to this area should be treated as any other request under the mutual aid agreement.

Hennepin County 62/E/W 62nd St: East and West 62nd Street are not the same as Crosstown Highway 62. On East 62nd Street, all even numbered addresses are the jurisdiction of the Minneapolis Police Department and all odd numbered addresses belong to the City of Richfield. On West 62nd Street, the even numbered addresses as far as 3300 West Xerxes belong under the Minneapolis jurisdiction and the odd numbered addresses belong either to Richfield or Edina.

Crosstown Highway: In general, the Minneapolis Police Department will provide the primary police response anywhere from Highway 55 on the east to Xerxes Avenue on the west. If the event is known for certain to be EASTBOUND between Portland Avenue and Xerxes Avenue, the call will be given to the Richfield Police Department. If the location is not known for certain, Minneapolis police will respond. In the Commons area where the Crosstown merges with I-35W for a short distance (area west of 2nd Ave S and east of Fremont), the State Highway Patrol will provide the primary police response.

The Hennepin County Sheriff's Department shares responsibility for the Crosstown with Minneapolis and Richfield. The Sheriff cannot always provide rapid primary response, but can provide assistance when requested. The State Highway Patrol has no primary jurisdiction on the Crosstown, but will respond if requested.

I-35W/I-94: The State Highway Patrol provides the primary police response for I-35W and I-94. Assistance from Minneapolis police may be requested by the Highway Patrol in special circumstances.

6-110 Minneapolis Fire Department

The Minneapolis Fire Department is the primary responder for all fires, hazardous materials incidents, and water rescue from the lakes in the City. Officers shall assist the fire department with traffic and crowd control when requested. They shall also take proper measures to assure that all hydrants are accessible to fire equipment. The on-duty watch commander shall be notified of all major fires.

When officers are at the scene of a fire extinguished by someone or something other than the fire department, they shall notify the dispatcher who will in turn notify the fire dispatcher.

Officers shall notify a supervisor of the fire department anytime they suspect arson, the use of molotov cocktails or other incendiary device. Any use of, or suspected use of, incendiary devices also requires the notification of the Minneapolis Police Bomb Unit.

Upon request of the Minneapolis Police Department, the Minnesota State Patrol Helicopter Unit may be requested to respond to reported incidents requiring helicopter services occurring within the city of Minneapolis.

Any supervisor or dispatcher may make an inquiry via radio as to whether the State Patrol Helicopter Unit is available for assistance.

The official request for assistance shall be made through MECC. MECC shall contact the State Patrol Helicopter Unit stating the type of assistance needed and location, and requesting an estimated time of arrival (ETA). The Watch Commander shall also be notified when assistance has been requested.

When responding to an incident, the State Patrol helicopter pilot will advise dispatch and communicate via radio with MECC and the ground units requesting assistance.

The Minneapolis Police Department shall be responsible for managing the event or incident for which assistance is requested.

As soon as the supervisor in charge determines that assistance is no longer needed, the supervisor shall notify MECC and the State Patrol Helicopter Unit immediately.

Supervisors shall also make non-urgent or pre-planned event requests.

Landing zones in each precinct have been established, enabling the State Patrol helicopter to land if needed. A file copy of landing zone locations shall be kept on file at each precinct, MECC, with the Watch Commander, and the State Patrol Helicopter Unit.

MECC shall maintain records via CAD event data, which includes the date and time of request for assistance, name and rank of officers, location, type of incident, and squad numbers involved.

If the State Patrol helicopter pilots have recorded an incident on videotape, a supervisor may request a copy of the videotape through MECC. A nominal charge may be incurred. MECC shall make such requests through the State Patrol Aviation Officer at 651-296-3170.

Emergency Communications and Calls for Service

7-101 Emergency Communications Center

(09/26/22)

The Minneapolis Emergency Communications Center (MECC) is the communications link between the Police Department and the public it serves.

The MPD acknowledges the authority of MECC to dispatch or otherwise deploy MPD resources to facilitate prompt responses to calls for police service.

7-102 Priority Call Code Numbers and Radio Call Numbers

(09/26/22)

Revisions to prior policies: (07/10/92), (08/13/02)

A. Priority Call Code Numbers and Procedures

1. Call Code Numbers

- a. Call code numbers are used by dispatchers and officers to indicate the seriousness of an incident and the procedures for response.
- b. The responsibility for determining the appropriate call code number rests with the responding officer based upon information communicated from MECC or other personnel.
- c. The call code numbers used are:

Code One: Indicates that an officer cannot be located or does not answer the radio.

Code Two: A call to be answered or situation to be handled immediately. The red lights and siren shall not be used and all traffic laws will be obeyed.

Code Three: Emergency Situation - To be answered immediately, but in a manner enabling the responding units to reach the scene as quickly and safely as possible. MN Statute sections 169.03 and 169.17 require the use of red lights and siren for emergency driving.

Code Four: Situation is under control. Responding squads that have not arrived may clear.

2. Call Classification Priorities

- a. The Police Department and MECC have developed protocols and appropriate timeframes for dispatching calls, and have established common working definitions about the urgency of any situation and to facilitate the most efficient delivery of service to the public.
- b. MECC call classification priorities are not the same as call code numbers.
- c. Police calls are identified by a nature code and each nature code is assigned to one of five possible priority categories. The categories are:

Priority 0 - Calls classified as Priority 0 include those situations where a known crisis exists that threatens the life of an individual. This is the highest possible priority and the fastest possible response is desired. The MECC objective is to have squads en route to the call within 30 seconds of receipt by the dispatcher.

Priority 1 - Calls classified as Priority 1 include situations where an imminent threat to personal safety, or the loss or damage to property exists. Conditions at the scene of the call are unstable. The MECC objective is to have a squad en route to a priority 1 event within 70 seconds of receipt by the dispatcher.

Priority 2 - Calls classified as Priority 2 include situations where no immediate threat of harm exists at the scene of the call. A timely police response is still desirable. The MECC objective is to have priority 2 calls assigned at the earliest opportunity or within 45 minutes of receipt by the dispatcher. Pending priority 2 calls are assigned out of sector to an available precinct squad after 10 minutes or if known that sector squads will be unavailable indefinitely. Priority 2 calls are assigned up to the last 15 minutes of shift. If after 30 minutes the call remains in MECC due to a lack of recommended unit availability, the dispatcher may notify the affected precinct shift supervisor to review the pending priority 2 calls and recommend a course of action.

Priority 3 - Calls classified as Priority 3 include situations where conditions are stable at the scene of the call. MECC may hold priority 3 calls for the squad in whose district the call is occurring for up to one hour. After one hour, the situation should be reassessed by MECC and the precinct field supervisor, if necessary, to determine if the call should be reassigned to a squad outside of the district in which the call is occurring. Priority 3 calls may be assigned up to the last 15 minutes of shift.

Priority 9 - Calls classified as Priority 9 include administrative or service assignments. Squads on a service assignment may be reassigned to an event with a higher priority.

B. Radio Call Numbers

1. Radio call numbers are developed by the Minneapolis Emergency Communications Center (MECC) with input from the MPD Equipment Specialist. Current listings of radio call numbers are maintained by MECC and the MPD Equipment Specialist.

For precincts, call numbers are designed to indicate the precinct, sector, and sequence within the sector. For example:

- Squad 420 - Fourth Precinct, Sector Two, Primary Squad
 - Squad 421 through 429 - Fourth Precinct, Sector Two, Secondary Squads
2. Officers shall begin all radio communication using their assigned call numbers and radio prefix.
 3. Radio Prefixes
 - a. All vehicles using MPD radio channels will use the following prefixes which indicate their type of assignment:
 - “Squad” for marked vehicle
 - “Car” for unmarked or civilian vehicles
 - “Portable” for officers away from their vehicle
 - “Chaplain” for chaplains
 - “Base” for precinct, unit or division fixed operations
 - “Beat” for officers assigned to a specific beat
 - “Bike” for Bike Patrol
 - “Mounted” for officers on horseback
 - “Off-duty” for officers working off-duty employment (under P&P 3-800)
 - “Unit” for agents or community service officers
 - b. When beginning a radio transmission, officers shall begin the transmission with their appropriate radio prefix (Squad 310, not just 310).
 4. One and Two Officer Designation
 - a. In all communications with the MECC dispatcher, one officer squads or cars will be designated as "Able," i.e., 321A.
 - b. If, during an apprehension or an investigation, an officer separates from a partner, the driver of the vehicle will be "A(ble)," (320A). The passenger of the vehicle shall be "B(aker)," (320B). If no vehicle is being used, the officers shall decide beforehand who shall be designated as "A" and "B."
 - c. If, during a shift, one officer assigned to a two-officer squad is away from duty, the remaining officer shall immediately report the squad's change in designation to MECC.

5. FTO Squads

Squads that have an FTO and an Officer in training will be designated as an FTO Squad. (Example 320 FTO or 320A FTO.) This designation will be used on the precinct line-up sheet, but standard radio call sign procedures will be used.

7-103 **Calls for Service** (09/26/22)

A. Scope

1. Calls for service include calls assigned by MECC, as well as self-initiated calls and any call an officer self-assigns to.
2. This policy applies to:
 - On-duty uniformed officers
 - Officers employed by an off-duty employer, in a law enforcement capacity as an MPD officer
 - Off-duty officers taking any law enforcement action as an MPD officer
3. This policy covers uniformed officer response. Response to calls for service by plainclothes officers will be handled in accordance with P&P 10-202.

B. Prompt Response and Safe Approach

1. It is the policy of the Minneapolis Police Department to respond to all calls for service within a minimum amount of time after being dispatched or notified of the need for police service.
 - a. Officers shall respond without delay to calls for police service unless otherwise directed by proper authority. Emergency calls for service shall take precedence. However, all dispatched calls shall be answered as soon as possible consistent with departmental procedures.
 - b. If officers need to temporarily go out-of-service on a detail or otherwise be unavailable for calls, they shall notify their immediate supervisor and request permission for such details.
 - c. Officers working uniformed patrol or in a marked squad who wish to go out of service for a meal break shall request OTL status from the MECC dispatcher.
 - i. The request must include the requested OTL location.
 - ii. The dispatcher may grant or deny OTL status based on call load and staffing levels.

- iii. Employees shall not take excessive time for meals and officers working two-officer squads must take OTL at the same time.
 - iv. No more than three marked or unmarked squads may be OTL at the same public location unless officers are also participating in a community event.
2. Officers shall be responsible for responding to calls in a safe manner and assessing any need for additional assistance.

C. Assigning to Calls

- 1. Calls assigned by MECC
 - a. The dispatcher shall have the authority to assign calls to all available sworn personnel, including superior officers. Officers shall not refuse to take a call.
 - b. When an officer is unable to respond to an assigned call for any reason, the officer shall promptly notify the dispatcher and provide the reason for the change in status.
 - c. Officers shall not pass on to the succeeding shift any assigned calls without the permission of the shift supervisor.
- 2. Self-initiated calls
 - a. Any time an officer initiates a law enforcement action that was not part of a call assigned by MECC, the officer shall notify MECC to generate a call for service and assign to the call.
 - i. Any temporary detainment shall be considered a law enforcement action and requires a call for service. This includes, but is not limited to, all investigative stops and traffic stops.
 - ii. Taking a report of criminal activity shall be considered a law enforcement action and requires a call for service.
 - b. If an officer is assisting a citizen, and is using MPD tools or resources to provide assistance (including a squad) or will be out of service for more than a short time, the officer shall notify MECC to generate a call for service and assign to the call.
 - i. This does not include encounters where a citizen is only filing a complaint. Such encounters do not require a call for service. If a call for service was initiated already and the encounter is determined to be only complaint-related, the call shall be cleared as PROSRV.
 - c. The notification to MECC should be done by initiating an on-site in the Mobile Data Computer (MDC) or by radio. If the officer does not have access to an MDC or a radio, the notification can be made by phone.

3. Self-assigning to calls

All MPD employees who respond to calls for service or arrive on scene at an active call for service shall assign to the call, subject to the exceptions described below in [b].

- a. This includes assisting squads and supervisors through the rank of Lieutenant.
- b. Exceptions:
 - i. This does not include appointed positions, except when they are performing crime scene management or are directly involved in the call for service.
 - ii. This does not include employees performing the role of a Public Information Officer.

4. Situations may arise which require that an officer decide whether to continue on an assigned call or handle a citizen's complaint, an observed event, or a higher priority call, and cause the original call to be reassigned. Such determination should be based upon the comparative urgency and the risk to life and property of the assigned call and the intervening incident.

- a. When it is not possible for officers to handle a citizen's complaint or an observed event, they should, if circumstances permit, give directions for obtaining such assistance or initiate the necessary notifications themselves.
- b. When handling a call and subsequently receiving a higher priority call, officers shall advise the person of the reason for leaving and of the squad's intention of returning after the call.

D. Acknowledging Calls

1. All officers assigned calls by MECC shall immediately acknowledge receipt of the call via voice radio.
2. Any time a squad is responding to an event, the officers shall notify the dispatcher either by radio or by pressing the “Self-assign” button.

E. Arriving on Calls

Officers shall announce their arrival at the scene by:

1. Depressing the “Arrive” status key on their MDC; and
2. If the unit is the first of multiple squads to arrive, using the voice radio indicating their call number followed by the word "arrived."

F. Updating the Problem Nature Code

Officers shall ensure the Problem Nature Code is accurate or is updated to reflect the correct code as soon as practical. The code must be updated prior to clearing the call.

G. Clearing from Calls

Officers shall clear from all calls or other assignments as soon as the call or assignment is complete by:

1. Depressing the “Clear” status key on their MDC and adding a disposition code; or
2. Using the voice radio indicating their call number followed by the word “cleared” and by a disposition code.

H. Single Transmission

Whenever possible, all aired status changes should be accomplished on a single radio transmission (Squad 320 is clear report).

I. Broadcasting Descriptions

1. The first officers to arrive at a crime scene or other incident that warrants the broadcasting of descriptive information shall conduct a brief interview with victims and/or witnesses.
2. If sufficient information is obtained to justify a broadcast, and radio traffic permits, it shall be transmitted in the following manner:
 - a. The officer will notify the dispatcher that a description is available. The officer will also inform the dispatcher of the extent of dissemination of the broadcast (e.g. involved channel, citywide, regional broadcast, teletype, etc.) and will indicate arrest authority (au. probable cause, attempt to locate, etc.).
 - b. The dispatcher will notify all squads that a description will follow and will state the location and nature of the crime. Permission will then be given for broadcast.
3. Once the dispatcher has given permission, the officer shall broadcast the description in the following sequence:
 - a. Type of crime
 - b. Time of occurrence
 - c. Location of occurrence
 - d. Number of suspects

- e. Description of suspects
- f. Weapons involved
- g. Direction and method of flight
- h. Description of vehicle, if applicable
- i. Description of loss, if applicable

J. Request for Back-Up

1. Additional squads will be dispatched when requested by an officer or when department policy dictates a back-up be sent automatically for an "Able" squad responding to certain types of incidents.
2. Officers requesting a back-up shall give their squad number, location and code priority.
3. If the requesting officer or the on scene superior officer determines that back up squads are not needed, the back-up squad should be canceled.

K. Emergency or "Officer Needs Help" Procedure

1. When an emergency situation arises, officers shall notify the dispatcher by doing the following:
 - a. Stating their radio call number, followed by "EMERGENCY" or "Officer needs help."
 - b. Giving the location of the officer needing help.
 - c. Giving the reason for the emergency, if time permits.
2. Whenever an emergency or "officer needs help" is announced, all other officers shall immediately clear the airway and keep the frequency clear until the dispatcher acknowledges the call.
 - a. Responding vehicles should wait to give their numbers until it is obvious that the officer calling the emergency is finished giving information.
 - b. When responding vehicles do give their numbers, they should be brief and then remain off the air until they arrive at the scene.
3. Once aired, the emergency commands the channel until the dispatcher announces a Code 4 and normal radio traffic is resumed.

1. Base unit radio transceivers located in divisions, precincts and units shall not communicate directly with their mobile or portable personnel or other base units, except on the designated car to car channel, or with the approval of MECC.
2. For MECC approval to communicate directly, the base unit operator shall contact the dispatcher by radio and request use of the air for the necessary transmission.

C. Unnecessary Use of Radio or Mobile Data Computer (MDC)

1. The police radio and MDC are for police business only. They shall not be used to conduct personal business or to transmit personal messages.
 - a. MDC messages are public information and are subject to public disclosure.

 - c. Communication about incidents over the radio or MDC shall only include the information, questions or comments necessary to handle or respond to the incident. Commentary shall not be included.
2. Information checks shall be requested only on the channel designated for such purposes. In most instances, Channel 7 will be the designated channel. When requesting information from Channel 7 or the precinct base, officers should try to include the nature of service in the initial transmission ("Squad 320, REGISTRATION," wait for acknowledgment; then "Squad 320, David Adam Paul 543").
3. Officers shall use Channel 5 or any other designated channel for non-emergency squad-to-squad or squad-to-precinct radio communications.
4. Requests for interoperable radio channels (MPD detail, Metro or State talk-groups) shall be made through the MECC Duty Supervisor.

Proper investigation of bias crime incidents is the responsibility of all Minneapolis Police Officers. The actions taken by the MPD after a bias crime has occurred are visible signs of our concern and our commitment to the community.

II. Policy

A. Report required for bias crimes

1. In accordance with MN Statute section 626.5531, officers shall complete a Police Report for violations of the MN Criminal Code (Chapter 609) or related Minneapolis Ordinances, if the officer has reason to believe, or if the victim alleges, that the offender was motivated to commit the act by the victim's race, religion, national origin, sex (including gender identity), age, disability, or characteristics identified as sexual orientation.
2. Sworn employees shall be aware of the following criteria which may also be used to determine whether a criminal act falls within the mandatory bias (prejudice) crime reporting requirements:
 - The motivation of the perpetrator, as expressed in statements made to the victim, (e.g., slurs, epithets).
 - The victim's stated viewpoint that the actor's comment or conduct was motivated by bias.
 - The nature of the symbols used to deface public or private property indicate bias or prejudice.
 - The date and time of the occurrence corresponds to a holiday or date of significance.

Such observations may include the group or groups involved, the manner and means of the crime committed, and recurring patterns of similar incidents in the same area or against the same victim.

taxicab company to discriminate in the access to, full utilization of, or benefit from service because of a person's disability; or for a place of public accommodation not to make reasonable accommodation to the known physical, sensory, or mental disability of a disabled person based on factors in MN Statute section 363A.11. In determining whether an accommodation is reasonable, the factors to be considered may include:

- the frequency and predictability with which members of the public will be served by the accommodation at that location;
- the size of the business or organization at that location with respect to physical size, annual gross revenues, and the number of employees;
- the extent to which disabled persons will be further served from the accommodation;
- the type of operation;
- the nature and amount of both direct costs and legitimate indirect costs of making the accommodation and the reasonableness for that location to finance the accommodation; and
- the extent to which any persons may be adversely affected by the accommodation.

 - ii. At the top of these “hits,” there is a data field indicating if the Order has been served or not.

2. Hits on unserved OFPs

If an officer encounters a person and receives a “hit” on an unserved OFP through a CJIS Hot File query, the officer shall use the following procedures to verify the hit and serve the respondent by Short Form Notification:

assist a party in entering a hotel room for the purposes of obtaining divorce information. Persons with domestic problems should be advised to seek the assistance of a private agency or legal counsel.

7-316 Eviction of Cohabitant

(A)

A home is community property. Neither party can be forced to leave without a court order. A possible solution is for the officer to advise one party to leave the home for the night. If one party is locked out of the house for the night, the complainant will be advised to contact an attorney as the matter is an eviction and therefore a civil matter. Officers will not assist in breaking in the house. (07/02/90) (10/11/92)

7-316.01 Eviction

(10/11/92)

A. Custody of Children By a Parent

1. Requests to remove child from parent custody

Only a court of record may take a child from the custody of one or both of the child's parents.

- b. In the event of threats or actual physical violence, officers shall take whatever action is necessary to protect the child. Officers shall inform their supervisor if the actions taken included removing the child.

2. Visitation violations

MN Statute section 609.26 states that a person is in violation of visitation rights of a parent when that person “takes, obtains, retains, or fails to return a minor child from or to the parent in violation of a court order, where the action manifests an intent substantially to deprive that parent of rights to parenting time or custody.”

a. Officer on-scene response

- i. Officers shall verify the status by checking records such as NCIC, Odyssey and paper records, if possible. If an officer cannot access the court orders, the officer shall contact the Strategic Information Center (SIC) or MECC Channel 7 for assistance in verifying the status.
- ii. Officers shall also check for Domestic Abuse No Contact Orders (DANCOS) and Orders for Protection (OFPs) in accordance with P&P 7-314.
- iii. If officers have reason to believe that the child may be transported out of the state by the non-custodial parent, immediate enforcement actions will be initiated.
- iv. If any transfer of custody is going to happen as a result of the visitation violation situation, including if the transfer is for health and welfare (in accordance with P&P 8-205), the officer shall notify a supervisor to respond to the scene and approve the transfer.
- v. If transfer of custody is not authorized at the scene, the officer may still refer the victim to the Crimes Against Children unit.

- iii. Supervisors needing assistance should contact First Response or the City Attorney’s Office for possible advice.

c. Referrals to the Hennepin County Attorney's Office

- i. Hennepin County has indicated they will review referrals for criminal charging in these situations on a case by case basis. Some of the factors they consider include, but are not limited to, the following:
 - Substantial effort made to hide child
 - Removal from state to deprive of custody
 - Child was in custody of county
- ii. If any of these factors are part of the case facts, officers shall make sure they are part of the referral.

B. Custody of Children by a Person Other Than a Parent

If a person who is not a parent has a court order for custodial time and there is a request or dispute regarding custody, officers shall follow the same procedures listed above as they would for a parent.

If it is not evident that a robbery is in progress, the officers shall wait until a "callback" to the site is attempted. When callback arrangements have not been made with the site or a callback cannot be completed, the officers must proceed as if a robbery is in progress. (09/01/92)

During a robbery in progress, officers will maintain their observatory positions until the suspects leave the interior of the business or site. Exceptions are limited to actions ordered by superior officers or circumstances which dictate action to protect someone from great bodily harm. Every effort should be made to prevent a hostage situation. When hostages are taken, officers will remain in position and a superior officer will immediately call for an Operation 100.

The on-site MPD supervisor has the authority to make the final determination of any action that need to be taken during the holdup call by the Department and ECB staff. (09/01/92)

7-320.01 Hold - Up Alarm – Callback Procedures (09/01/92) (08/16/97)

Once a squad is dispatched to a holdup alarm call, ECC shall immediately contact the MPD supervisor to do a callback to the facility, giving the supervisor a contact person, phone number and other necessary information. If for any reason, the MPD supervisor cannot make the callback, he/she shall direct ECC to do so, and the ECC supervisor shall immediately take responsibility for the callback. ECC shall maintain constant contact with the dispatched squads, advising them of callback and/or robbery status.

Forgery is the making or altering of a document, writing or object with intent to defraud. The victim of forgery is a person or business that suffers a loss. An Offense/Incident Report shall be completed in all suspected forgery cases. (08/14/07)

Officers shall attempt to recover the original forged instrument or a photocopy if the original is not available, taking care to preserve all evidence in the condition in which it was received. All recovered evidence shall be inventoried at the Property and Evidence unit, not at precincts. (08/14/07)

Once a gunfire event is received and acknowledged by MECC, it will be dispatched to the closest available squad. Officers shall immediately respond to the event location and provide any needed emergency services required.

It is important to note that the ShotSpotter system has a self-learning capacity and needs accurate and timely feedback. Officers shall make every reasonable effort to confirm a gunfire event has occurred. Other operational points to consider;

- Officer shall not respond to a SPOTS call in-service (INS)

Personnel first arriving on the scene shall avoid committing themselves to a hazardous position or situation, and will ensure the Fire Department HazMat Team has been dispatched at the earliest possible time.

When approaching the incident squads shall slow down or stop, depending on the available information, and cautiously assess the situation. As part of this assessment:

- Evaluation of any visible activity shall include the effects of wind, topography and location of the problem;
- Always approach from an upwind direction;
- Avoid walking on or touching material;
- Avoid inhaling fumes, smoke or vapors; and
- Do not assume odorless/colorless gases, vapors or fumes are harmless.

The primary police role in hazardous material incidents will be to support the Fire Department in perimeter security, evacuation, traffic and crowd control, and first aid. The priorities shall be:

- Removing and keeping unnecessary persons from the scene (denying entry); and
- Isolating the hazard area (establishing a perimeter).

Any additional information obtained regarding the hazardous material shall be provided to the Emergency Communications Center (MECC). If it is safe to do so, officers shall survey the scene and take steps to identify the material. Such steps include:

- Checking the Safety Data Sheets (for fixed sites); or for transportation related incidents, DOT ID Number, shipping manifest, bill of lading, or information from the driver/operator; and
- Contacting those responsible for storage, shipping or receiving the material.

If it is not safe to proceed or you are not able to identify the product, treat each unknown as an immediate hazard, isolate the area and deny entry to anyone but those with an authorized response or operational need.

When the Minneapolis Fire Department arrives, they will assume the primary role of incident command. However, if it is determined that the material is an explosive compound and capable of detonating in its present state, the incident becomes the responsibility of the Police Department's Arson/Bomb Squad. Assigned officers shall remain at the scene until relieved by a superior officer and shall complete required reports.

In no manner, word or action shall police officers display partiality toward either of the parties involved. Officers will maintain a courteous but firm attitude in the performance of their duties.

The purpose of a peaceful, orderly labor dispute shall be deemed to be legal, unless advice is received to the contrary from the courts or other authority. When notified of a strike or labor trouble in a precinct, the commanding officer will notify the Chief of Police.

The following procedures will be adhered to by all officers in dealing with disputes relating to strikes and picketing. All officers shall:

Such unlawful exclusion is a misdemeanor under this statute. (03/19/93)

Officers called to a situation where the tenant alleges a lockout or unlawful exclusion may not make a forced entry into the building. A vulnerable adult is defined as any person 18 years of age or older who is unable to adequately care for themselves without assistance due to a physical, mental, or emotional disability. This includes any adult who is a temporary or permanent resident of a health care facility or licensed group home.

Abuse, neglect, or financial exploitation of a vulnerable adult is a crime. Abuse resulting in substantial bodily harm, great bodily harm, or death is a felony. All other abuse is a gross misdemeanor. Neglect is a gross misdemeanor. Financial exploitation may be a misdemeanor, gross misdemeanor, or felony depending on the dollar amount lost. The dollar amounts are equivalent to those used to determine charging level in the theft statute 609.52.

Officers who receive complaints or become aware of abuse, neglect, or financial exploitation of a vulnerable adult shall complete a CAPRS report using one of the following offense codes as the primary offense. Secondary offense codes may be added as appropriate. A caregiver, as

mentioned in the descriptions below, is defined as any person or organization that has agreed to provide assistance with any portion of the vulnerable adult's care.

- **VABUSE:** This code applies when a vulnerable adult is physically or sexually assaulted by a caregiver. This code should not be used if the suspect is not a caregiver for the vulnerable adult.
- **VANEG:** This code applies when a caregiver fails to provide necessary food, clothing, shelter, health care, or supervision to a vulnerable adult. This code does not apply in cases where the vulnerable adult is neglecting his or her own needs by refusing services or assistance.

It also applies when any individual acquires possession of money or property belonging to a vulnerable adult through undue influence, harassment, or duress.

Officers should document the relationship between the suspect and victim as well as the victim's status as a vulnerable adult in the narrative portion of their reports. This information should also be reflected in the description and relationship portions of the CAPRS report.

Minnesota law mandates that law enforcement personnel immediately report all cases of abuse, neglect, or financial exploitation of a vulnerable adult via the Minnesota Adult Abuse Reporting Center at 844-880-1574. Officers should document in their CAPRS report the date and time of this notification. Intentional failure by law enforcement personnel to report abuse, neglect, or financial exploitation to the Minnesota Adult Abuse Reporting Center is a misdemeanor. If it results in the death of a vulnerable adult, the failure to report becomes a gross misdemeanor. Officers are immune from any civil or criminal liability that might result from their actions provided they are acting in good faith. (07/01/15)

 - b. Once the form is completed it must be given to the offender by the officer or property owner/agent with an explanation of the conditions.

C. Off-Duty

1. If an officer is working in off-duty/part-time capacity, they can complete and issue trespass notices to the offender provided the officer has been given express consent by the property owner to do so and there is a valid legal reason to do so. - that the person acknowledged that they understood what was read (if applicable),
- the offender’s acceptance of the notice sheet,
- the date the applicable notice was issued to the offender, and

The State statute is enhanceable to a gross-misdemeanor after a person has been convicted two times.
- b. Minneapolis City Ordinance 385.380 is generally employed for charging violations of Minneapolis No Trespassing signs, and is not enhanceable.

F. Detention

Officers must list a Rule 6 reason for continued detention on the authority to detain. If no Rule 6 reason is listed, the offender will be released without bail.

8. If the patient has no improvement in breathing or has not regained consciousness in 2-5 minutes, a 2nd dose of Naloxone may be administered to the other nostril. 3. Make a report titled “CSC”.
 - a. Responding officers should generally limit their initial interview to questions that will establish only the basic facts of the assault and provide the information necessary for the immediate needs of the investigation and safety of the victim, such as the suspect identity and elements of the crime.
 - b. Ask about and document signs and symptoms of injury, including strangulation.
 - c. Identify and attempt to interview potential witnesses to the sexual assault and anyone the victim told about the sexual assault.
 - d. Inform the victim that a second interview may occur at a later time by a trained investigator.

 - Severe drowsiness
 - Difficulty in walking and other motor movements
 - Slurred speech and impaired judgment
- b. Symptoms similar to intoxication may indicate the use of date rape drugs.
- c. All symptoms shall be documented in the report.
- d. If the victim complains of any of the above symptoms or similar symptoms, they should be transported immediately for a sexual assault exam. When the victim arrives at the hospital for the exam, the officer should immediately notify the hospital staff of the possible use of a "date rape drug."
- e. Hospital staff will be responsible for drawing blood or urine samples from the victim for later processing.
- i. It should be noted that the body metabolizes most of these substances within 12 hours, so the samples must be drawn immediately.
 - ii. If possible, officers shall note the time of ingestion of the substance and the time of the sample draw in their reports.
- f. If available, the samples should be collected along with the victim's clothing and property inventoried by the officer. If circumstances do not allow the transfer of evidence at that time, the hospital may retain the samples or clothing for an investigator or Property and Evidence Unit personnel to pick up and inventory later.

B. Booking suspects

1. When a suspect is apprehended for sexual crimes, officers shall inventory all the suspect's clothing, including undergarments and personal effects. All items shall be packaged separately in paper containers and properly marked for identification.

C. Victim interviews

1. The MPD recognizes that victims of sexual assault are best served through trauma informed interviewing techniques and strategies.
2. In recognizing the need for non-traditional interviewing skills for sexual assault victims, officers should consider doing the following:
 - a. Offer to have a confidential victim advocate present if the victim would benefit from additional support during the process.
 - b. Whenever possible, conduct victim interviews in person.
 - c. Make an effort to conduct the interview in a warm, welcoming environment.
 - d. Let the victim share the details at their own pace.
 - e. Recognize that victims of trauma may have difficulty remembering incidents in a linear fashion and may remember details in the days and weeks following the assaults.
 - f. After the initial interview, consider reaching out to the victim within a few days, after at least one sleep cycle, to ask if they remember any additional details.
 - g. Additional interviews might be needed to gather additional information. Offer support from a victim advocate to help facilitate engagement with the investigative process and healing.
3. During initial and subsequent victim interviews, officers should note the following information:
 - a. Whether the suspect was known to the victim.
 - b. How long the victim knew the suspect.

- f. Specifics actions, statements or thoughts of both victim and suspect immediately prior to, during and after the assault.
- g. Relevant communication through social media, email, text messages, or any other forms of communication.

D. Special considerations- minors, vulnerable adults, and family and household members

1. Minors and vulnerable adults

- a. Officers should be alert for victims who would be best served by the use of specialized interview techniques. In making this determination officers should consider:
 - the nature of the offense,
 - the length of time since the assault,
 - the victim's physical, mental, and emotional state,
 - the victim's age, level of maturity, communication skills, cognitive and intellectual capacity, and
 - any other observable factors that would indicate specialized interview techniques would be appropriate for the particular victim.
- b. When an officer determines that a victim requires the use of specialized interview techniques, the officer should limit their actions to the following:
 - i. Ensuring the safety of the victim;
 - ii. Ensuring the scene is safe;
 - iii. Safeguarding evidence where appropriate;
 - iv. Collecting any information necessary to identify the suspect; and
 - v. Addressing the immediate medical needs of individuals at the scene.
- c. Unless evidence or the investigation would be compromised, initial responding officers should not attempt to interview the victim in situations in which a minor or vulnerable adult is involved. Instead, officers should attempt to obtain basic information and facts about the situation, including the jurisdiction where the incident occurred and whether a crime most likely occurred. Officers should seek to obtain this information from parents, caregivers, the reporting party, or other adult witnesses, unless those individuals are believed to be the perpetrators.
- d. Officers responding to victims with special considerations must comply with the mandated reporting requirements of MN Statute sections 626.556 and 626.557 and the Vulnerable Adult policy (P&P 7-344), where applicable.

- e. Officers investigating cases involving victims with special considerations should coordinate these investigations with the appropriate local human services agency as required.
 - f. Any victim or witness interviews conducted with individuals having special considerations should be audio and video recorded whenever possible.
 - g. Not all sexual assaults of minor victims require a mandatory report to social services.
 - i. The MPD recognizes that in certain cases, notifying or involving parent or guardian can cause harm to the minor or impede the investigation.
 - ii. Officers responding to the sexual assault of a minor victim that does not trigger a mandated report under MN Statute section 626.556 should assess the potential impact on the victim and the investigation of notifying parents or guardians before deciding to involve them.
 - h. Officers should obtain necessary follow-up contact information for the victim's caregiver, guardian or parents as well as how or where to locate the victim later.
 - i. Officers should advise the victim and any accompanying adults, guardians or caregivers that an investigating officer may follow up with information on a forensic interview.
 - j. The officer should advise the victim's caregiver, guardian or parent that if the victim starts to talk about the incident they should listen to them but not question them as this may influence any future statements.
2. Victims of domestic abuse

Officers responding to a report of sexual assault committed against a family and household member shall also follow the Domestic Abuse policy (P&P 7-314) in addition to the guidelines in this policy.

E. Protecting victim rights

1. Confidentiality

Officers should explain to victims the limitations of confidentiality in a criminal investigation and explain that the victim's identifying information is not accessible to the public, in accordance with the MN Government Data Practices Act (specifically MN Statute section 13.82 Subd. 17b).

2. Crime victim rights

- a. Officers shall provide the following information to the victim by providing them with the Victim Assistance Card (Blue Card), in accordance with P&P 4-608:

 - d. The Lieutenant of the Sex Crimes unit or their designee will be the liaison between MPD and the forensic laboratory and will respond through the Records Information Unit to requests for data from sexual assault victims in accordance with MN Statute section 611A.27.
 - i. MPD will respond to such requests within thirty days of receipt, unless the release of the data will interfere with the investigation.
 - ii. Releases under this section are limited to:
 - date a sexual assault examination kit was submitted to the forensic laboratory for testing
 - the date MPD received notice of the results of that testing, and
 - whether a DNA profile was obtained from the testing.
 - iii. The Records Information unit will handle the request and response and will coordinate with the Lieutenant of the Sex Crimes unit to collect the data.
 - iv. In accordance with MN Statute section 611A.27, the sexual assault victim can designate another person to request information on the victim's behalf by providing written authorization to the agency.
3. Language access

Officers shall provide language assistance when needed, in accordance with the Limited English Proficiency (LEP) policy (P&P 7-1001) and the Communicating with Deaf or Hard of Hearing Individuals policy (P&P 7-1002).

F. Considerations for evidence collection

1. If the victim chooses to participate in a sexual assault exam, the collection of evidence on or from the victim would occur during this examination.
2. Officers may attempt to collect evidence in addition to what might be collected through a sexual assault exam by doing the following:
 - a. Collect evidence regarding the environment in which the assault took place, including indications of isolation and soundproofing.
 - b. Document any evidence of threats or any communications made by the suspect, or made on behalf of the suspect, to include those made to individuals other than the victim.
 - c. In situations where it is suspected that drugs or alcohol may have facilitated the assault, officers should assess the scene for evidence such as drinking glasses, alcohol bottles or cans, or other related items.
3. If the victim has declined a sexual assault exam or one will otherwise not be conducted the officer should request victim consent, and once granted, should take photographs of visible physical injuries, including any healing or old injuries. The victim should be given directions about how to document any bruising or injury that becomes evident later after these photographs are taken.

G. Sexual assault exams

1. Prior to the sexual assault exam, the officer should do the following:
 - a. Provide the victim with general information about the exam and encourage them to seek further detail and guidance from the sexual assault medical forensic examiner, health care professional, or a victim advocate.
 - b. Ensure the victim understands the purpose of the sexual assault exam and its importance to both their general health and wellness and to the investigation.
 - c. Instruct the victim not to wash, change clothes or clean the crime scene until evidence can be gathered.
 - d. Inform the victim that the sexual assault exam is free and provide information about evidence collection, storage and preservation in sexual assault cases (P&P 10-400 and MN Statute section 299C.106).
 - e. Ask the victim for a signed release for access to medical records from the exam.
2. Officers should be aware that there might be additional treatments or medications that victims are entitled to and if necessary, officers should relay that to victims who do not want to undergo an exam or have evidence collected.

- a. Victims can seek that information from a health care provider or a victim advocate.
 - b. If possible, officers should transport or arrange transportation for the victim to a hospital for the additional treatments or medications.
3. If the victim undergoes an exam, officers should make arrangements for the victim's transportation home or to the Sex Crimes Unit after the exam.
4. Officers and investigators cannot deny a victim the opportunity to have an exam.
5. Officers should not be present during any part of the exam, including during the medical history.
6. When the designated person in the Sex Crimes unit (the kit coordinator) is notified by a health care professional that an unrestricted sexual assault examination kit is available for pickup, the designated person will ensure the kit is retrieved within ten days of receiving notification.
7. Within sixty days of receiving an unrestricted sexual assault examination kit, the designated person in the Sex Crimes unit (the kit coordinator) will ensure the kit is submitted to the forensic laboratory for testing, unless MPD deems the result of the kit would not add evidentiary value to the case (in accordance with MN Statute section 299C.106 Subd. 3). If a kit is not submitted during this time, MPD shall make a record, in consultation with the county attorney, stating the reasons why the kit was not submitted.
8. Restricted sexual assault examination kits will not be submitted for testing.
 - a. Restricted sexual assault examination kits will be handled in accordance with the standards in P&P 10-400.
 - b. The kits will be recorded under the assigned case number for restricted sexual assault examination kits.
9. When a victim who has a restricted sexual assault examination kit chooses to report the sexual assault to law enforcement and convert the kit to an unrestricted kit, the Sex Crimes unit will:
 - a. Ensure that MPD has a signed medical release from the victim.
 - b. Provide the signed medical release to the associated health care facility with a request for the nurses' Sexual Assault Nurse Examiner (SANE) report.
 - c. Update the case information for the report and the newly unrestricted kit. This includes reassigning the kit from the assigned case number for restricted kits to the new case number (as needed).
 - d. Ensure the kit is sent to the forensic laboratory for testing.

- e. Contact the victim for any needed information or follow-up.

H. Contacting and interviewing suspects

1. Prior to contacting the suspect, investigators should do the following:
 - a. Conduct a background and criminal history check specifically looking for accusations, criminal charges, and convictions for interconnected crimes, especially crimes involving violence.
 - b. Consider conducting a pretext or confrontational call or messaging.
 - i. Involvement of a victim in contacting suspects should be based on strong consideration of the victim's emotional and physical state.
 - ii. A victim advocate should be present whenever possible to offer support.
2. When possible, investigators should attempt to interview the suspect in person.
3. In situations where suspects do not deny that a sexual act occurred, but rather assert that it was with the consent of the victim, officers should do the following:
 - a. Collect evidence of past communication, including but not limited to all relevant interaction (including through social media) between the suspect and victim.
 - b. Identify events that transpired prior to, during, and after the assault to help locate additional witnesses and physical locations that might lead to additional evidence.

I. Forensic examination and the collection of evidence from the suspect

1. Prior to or immediately after the preliminary suspect interview, the officer or investigator should photograph the suspect to include any injuries or the absence of injuries.
2. Officers and supervisors should communicate with Car 710, the Watch Commander or the Commander of the Special Crimes Investigation Division to determine whether a sexual assault exam of the suspect should be conducted.
3. Officers and investigators are strongly encouraged to consider obtaining a search warrant, which should include specific details about what evidence will be collected, and which should include forensic evidence collection.
4. Investigators or Crime Lab personnel should do the following:
 - a. Collect biological and trace evidence from the suspect's body;
 - b. Document information about the suspect's clothing, appearance, scars, tattoos, piercings, and other identifiable marks;

- c. Seize all clothing worn by the suspect during the assault, particularly any clothing touching the genital area;
- d. Document the suspect's relevant medical condition and injuries.

J. Role of the Supervisor

Supervisors should do the following:

1. Assist officers investigating incidents of sexual assault or if requested by an officer, when possible.
2. Provide guidance and direction as needed.
3. Review sexual assault reports to ensure that necessary steps were taken during initial response and investigations.
4. Contact Car 710, the Watch Commander or the Commander of the Special Crimes Investigation Division for further information or advice if needed.

K. Case Review/Case Summary

The Sex Crimes unit supervisor should ensure cases are reviewed on an on-going basis. The review process should include an analysis of:

- Case dispositions
- Decisions regarding evidence collection
- Submissions of evidence for lab testing
- Interviewing tactics and decisions

II. Policy

- A. MPD employees shall request emergency medical services (EMS) as soon as practical if any employee has come into contact with an individual having an acute medical crisis and any delay in treatment could potentially aggravate the severity of the medical crisis, or as otherwise required by policy.

1. While awaiting EMS, MPD employees assisting an individual having an acute medical crisis shall provide any necessary first aid consistent with MPD training, as soon as practical.
 2. Naloxone (Narcan) shall be administered only in accordance P&P 7-348.

1. MPD employees shall provide medical personnel with any necessary information related to the subject's observed or known conditions and behaviors, so the medical personnel can conduct a quick and accurate assessment and determine the best medical course of action.
 2. MPD employees shall provide medical personnel the names of any MPD employees who provided first aid or assisted with a person's care, so that notifications can be made to involved officers of possible exposure to any pathogens discovered through further medical examination.
- D.** MPD employees responding to incidents where EMS has already been requested shall not cancel EMS unless the employees determine that the call was unfounded or the subject is no longer at the scene.
- E.** MPD employees shall document in a report any assistance provided to medical personnel regarding the medical crisis, including actions taken by the employees, the effects of those actions on the subject, and the outcome of the situation. Any physical control applied by MPD personnel should be reported in accordance with the P&P 5-306 Use of Force-Reporting and Post-Incident Requirements.

7-401 Normal and Emergency Vehicle Operation

(12/31/90) (12/31/91) (02/08/93) (03/19/97) (10/12/01) (02/23/05) (12/14/07) (08/05/13)
(06/16/19) (05/05/23)

A. Vehicle Condition

1. Vehicles shall not be driven when they are in unsafe mechanical condition.
2. Officers shall inspect their assigned vehicle before each tour of duty and immediately report any damage or mechanical failure to their supervisor.

B. Normal Operation

1. Under normal conditions, personnel will operate police vehicles in the same manner as required for the public.
2. Violations of motor vehicle laws when not authorized, or careless and abusive use of police vehicular equipment may result in disciplinary action.

C. Operating Without Lights

This section regarding operating without lights applies to headlights and taillights, and does not apply to emergency lighting, which is addressed separately in this policy.

1. MN Statute section 169.541 exempts peace officers from statutes relating to the lighting of vehicles and watercraft when all of the following conditions apply:
 - while operating a motor vehicle or watercraft owned, leased, or otherwise the property of the state or a political subdivision;
 - in the performance of the officer's law enforcement duties if the officer's conduct is reasonable and is consistent with the standards adopted by the Minnesota POST Board; and if
 - the officer reasonably believes that operating the vehicle without lights is necessary under the circumstances to investigate a criminal violation or suspected criminal violation of state laws, rules, or orders or local laws, ordinances or regulations.
2. In accordance with the Minnesota Post Board standards, a peace officer may not operate without lights:

- on interstate highways
- at speeds greater than what is reasonable and prudent under existing weather, road, and traffic conditions;
- faster than the posted speed limit;
- in situations where the peace officer is an active participant in the pursuit of a motor vehicle in violation of MN Statute section 609.487 (Fleeing a Peace Officer in a Motor Vehicle);
- contrary to the elements listed in MN Statute section 169.541 (explained in the preceding paragraph);
- contrary to any written policies or procedures established by the Chief Law Enforcement Officer of the agency that employs the peace officer.

D. Emergency Driving

1. Emergency driving occurs whenever an officer intentionally drives in excess of the speed limit or in violation of any traffic control device or other traffic law.
2. Emergency driving is authorized only, in accordance with MN Statute section 169.03 Subd. 5, “when in response to any emergency call or in the immediate pursuit of an actual or suspected violator of the law.”
3. Only police vehicles with department authorized lights and sirens are authorized for emergency driving.
4. Ordinarily, all MPD officers shall use department authorized red lights and sirens continuously during any emergency driving.
 - a. Some incidents may necessitate an unannounced approach. If a responding officer determines the incident warrants an unannounced approach, the officer may deactivate or avoid use of the emergency lights or sirens when nearing the location, when reasonable given the environment and circumstances. The officer shall sound the siren or display at least one department authorized lighted red light to the front if exceeding the speed limits or proceeding past a red or stop signal or stop sign.
5. Officers performing emergency driving shall exercise caution and due consideration for the safety of the public.
 - a. The use of the red lights and siren does not exempt officers from the need for caution nor does it exempt them from criminal or civil liability.
 - b. Officers driving low profile, unmarked, or other MPD vehicles should be particularly aware of the less visible nature of the emergency equipment in/on the vehicle and should use extra caution.
 - c. Officers are prohibited from going around the light rail crossing arms when they are down at an intersection.

E. Emergency Escorts or Transportation by Police Vehicles

1. Officers will not provide emergency escorts for private vehicles except under extreme or exigent circumstances.
2. Officers may provide emergency escort for other emergency vehicles equipped with red lights and sirens, when requested to do so.
3. Employees shall not transport persons in police vehicles except for a proper police purpose or on official department business.
4. Police vehicles should not be used to transport persons in need of physical medical attention except when ambulances are not available. Persons in need of medical attention shall normally be transported by ambulance and/or other medical equipment.

2. Any non-emergency escorts outside of the state of Minnesota shall be coordinated with the local jurisdictions.
3. All requests for non-emergency ceremonial escorts for dignitaries must be approved by the Chief of Police.

7-402**Pursuit Policy**

(11/20/01) (12/31/01) (05/03/02) (07/26/03) (04/06/05) (11/01/05) (12/14/07) (02/08/13) (02/18/13) (05/24/13) (06/16/19) (11/07/22) (05/02/23)

I. Purpose

This policy is intended to establish expectations of MPD sworn employees who, during the course of their duties, become involved in a vehicular pursuit.

II. Definitions

Air Support: For the purpose of this policy, it shall mean a Minnesota State Patrol Helicopter. (See P&P 6-111 Minnesota State Patrol Helicopter)

Discontinued: Discontinuation is a condition affecting individual participation in a pursuit and not the safety of the overall pursuit. This may be due to stopping at a light rail crossing, an equipment malfunction or another similar reason, and may be a temporary pause. Individual participation in a pursuit is discontinued when the participating squad has discontinued the use of sirens, slowed to the posted speed limit or stopped, and when feasible discontinued the use of emergency lights.

End of Pursuit: A pursuit is ended when all participating squads have terminated or discontinued their participation or after the suspect was apprehended.

Great Bodily Harm: Bodily injury, which creates a high probability of death, or which causes serious permanent disfigurement, or which causes a permanent or protracted loss or impairment of any bodily member or organ or other serious bodily harm.

Offender: The operator of a vehicle being pursued who has been signaled to stop.

Police Vehicles:

1. **Fully Marked Squad Car:** Any vehicle used by the MPD that has clearly identifying police markings, emergency lights visible from front, sides and rear, siren, and a manufacturer's rating to make it suitable for pursuits. Currently, the Ford Crown Victoria, Ford Police Interceptor SUV, Chevrolet Caprice, and the Chevy Tahoe Police Pursuit Vehicle (PPV) are the only vehicles in the MPD Fleet with such a rating.
2. **Low Profile Squad Car:** Any vehicle used by the MPD that has a permanent or temporary MPD door marking, emergency lights visible from front, sides and rear, siren, and a manufacturer's rating to make it suitable for pursuits.
3. **Unmarked Squad Car:** Any vehicle used by the MPD not clearly identified with a shield, logo or department name that has emergency lights visible from the front, sides and rear, and a manufacturer's rating to make it suitable for pursuits.

Primary Squad: The squad car that initiates the vehicular pursuit, or any squad that assumes control of the pursuit.

Pursuit Rated Vehicle: Some police vehicles are designated by the manufacturer as "pursuit rated." This rating indicates the manufacturer certifies the vehicle to be generally suitable for high-speed police pursuits. Not all police vehicles are considered "pursuit rated" and those without the rating shall not be used during a pursuit, in accordance with this policy. The Fleet Services unit maintains a list of pursuit rated vehicles.

Pursuit Supervisor: The supervisor who monitors and manages the pursuit.

Secondary Squads: Police squad cars that provide direct support in the pursuit to the primary squad and follow the primary squad at a safe distance.

Terminated: A pursuit is terminated when all participating squads do the following, without or prior to the apprehension of the offender:

- turn off sirens
- stop the squad cars completely, or slow to the posted speed limit and turn off the pursuit route at the next available intersection, and
- turn off emergency lights (when feasible).

Vehicular Pursuit: A vehicular pursuit is a multi-stage process in which a peace officer initiates a vehicular stop and a driver resists the signal or order to stop by increasing speed, taking evasive action, extinguishing motor vehicle headlights or taillights, refusing to stop the vehicle or using other means with intent to attempt to elude the peace officer. Once the driver refuses to obey the peace officer's signal or order, this pursuit policy and procedure will determine the officer's and agency's actions.

III. Policy

A. Continuously Weigh Risk

Officers shall not initiate a pursuit or shall terminate a pursuit in progress if the pursuit poses an unreasonable risk to the officers, the public or passengers of the vehicle being pursued who may be unwilling participants.

1. Officers shall always be aware of the inherent danger to the public and to themselves in vehicle pursuits or emergency responses.
2. Officers shall continuously weigh the necessity for apprehension against the risk created for the officers and the general public. Officers shall consider factors such as weather, vehicle and pedestrian traffic, as well as any other factors that could contribute to an unreasonable risk to safety.

B. Decision to Participate

All officers involved in a pursuit must decide whether or not to participate, discontinue their individual involvement, or if appropriate, to transfer their responsibility to another squad. Officers shall immediately take and acknowledge direction from the assigned pursuit supervisor.

C. Take Direction from Pursuit Supervisor

Officers shall immediately take and acknowledge direction from the assigned pursuit supervisor.

D. Authority to Intervene

All MPD supervisors at the rank of Lieutenant or higher have the authority to intervene in a pursuit if they feel the pursuit should be terminated, but cannot overrule a supervisor of higher rank.

1. Supervisors terminating any pursuit shall complete a statement in the pursuit report that documents their basis for terminating the pursuit.
2. This section is in addition to the responsibilities and authority assigned to the pursuit supervisor.

3. All sworn employees have a duty to inform the pursuit supervisor if they know of specific hazards that appear to be in the pursuit path. Examples include, but are not limited to, Open Streets events, block parties, etc.

E. Approaching Vehicle at Pursuit Conclusion

1. Officers are strongly discouraged from immediately approaching a stopped vehicle at the conclusion of a pursuit.
2. Where reasonably possible, officers shall use felony stop tactical procedures.

F. Pursuit Squad Limit

Vehicle pursuits are limited to the primary marked squad and no more than two secondary marked squads unless otherwise authorized by the pursuit supervisor over the radio.

1. Additional squads beyond the primary and two secondary squads shall not engage or attempt to engage in a pursuit unless specifically authorized by the pursuit supervisor over the radio.
2. Supporting or responding officers (such as those attempting to strategically place themselves in the area of pursuit's conclusion or those securing or maintaining a perimeter) shall follow the requirements in P&P 7-401, including using speeds and driving that do not present a danger to the public or to other officers.

G. Pursuits Outside of Minneapolis

Officers shall not engage in pursuits outside the corporate city limits of Minneapolis, unless authorized by an on-duty supervisor, in accordance with the section in this policy on Pursuits into Other Jurisdictions.

IV. Procedures/Regulations

4. Terminating a pursuit for reckless driving

If continuation of a pursuit for flagrantly reckless driving increases the danger to the public, officers shall terminate the pursuit.

5. Wrong way on freeways

During a pursuit, officers shall not drive their vehicle the wrong way on freeways. They may, however, go down the wrong way of a freeway ramp to make a traffic stop on a vehicle going the wrong way to prevent it from entering the main portion of the freeway.

6. Wrong way on one-way streets

Officers may not pursue the wrong direction on one-way streets without due consideration for existing conditions as listed in this policy.

ab. The officers shall discontinue their participation in the pursuit as soon as another squad is able to take over as the primary pursuit squad.

ii. Secondary pursuit squad

When any pre-approved individual is in the squad who is not an MPD employee (this includes Ride-alongs who are not MPD employees), officers shall not participate as a secondary pursuit squad.

8. Previously terminated pursuit

Officers shall not initiate a previously terminated pursuit within 20 minutes of the termination, unless there are exigent circumstances.

9. Terminating a pursuit due to distance or loss of visual contact

Officers shall terminate a pursuit in progress whenever the distance between the primary pursuit squad and the offender is so great that further pursuit is futile, or when the primary pursuit marked squad loses visual contact of the offender for a significant period of time (approximately 10-15 seconds).

10. Discontinuing participation required

a. Discontinuation applies to whole squad

Any time a squad is required by policy to discontinue participation or chooses to discontinue participation, it applies to the vehicle and all officers in the squad.

 - v. The number of police vehicles used in a roadblock shall be limited to only those necessary to cause the offender to stop.
- d. This policy is not intended to prohibit the strategic placement of squads on side streets, driveways, parking lots and alleys to eliminate potential escape routes and assist in controlling a pursuit. Supporting or responding officers shall use speeds and driving that do not present a danger to the public or to other officers.

3. Hostage-involved vehicular pursuit

- a. If a vehicular pursuit involves a hostage, the safety of the hostage must be the primary consideration in determining the tactics that will be used during the pursuit.

3. The Pursuit Review Committee will review all pursuits involving MPD personnel and MPD vehicles.

F. Vehicle Pursuits into Minneapolis by Other Jurisdictions

1. In any pursuit, regardless of the initiating agency or jurisdiction, MPD officers shall observe existing MPD policies regarding pursuits.
2. If another agency involved in a pursuit enters the city limits, MPD officers shall not assist in the pursuit unless authorized by a supervisor.
3. If more than two squads from other agencies are involved in the pursuit, only one authorized MPD marked squad shall assist in the pursuit.
4. The initiating agency will be in charge of the arrest scene when they arrive.
5. The initiating agency retains the authority to terminate pursuit.
6. In the event vehicles from the initiating agency cannot continue, the pursuit supervisor may authorize MPD police officers to take responsibility for the pursuit if:

7-403 Tire Deflation Devices

(08/20/21)

I. Purpose

Because of the risks involved with vehicle pursuits, officers and supervisors shall mitigate the likelihood of a pursuit whenever possible. Tire deflation devices may prevent vehicles from fleeing, reducing the likelihood of crashes or other adverse situations, and reducing risk to the officers, vehicle occupants and the community.

This policy is intended to cover the use of these devices for fleeing prevention.

II. Definitions

Tire deflation devices: Commercially manufactured law enforcement products, (currently made by “Stop Stick Ltd”), which contain puncture devices to deflate vehicle tires. Also referred to as fleeing prevention devices. The devices are used on a vehicle that is stopped. There are two styles of approved tire deflation devices officers are permitted to deploy, which both have a tire deflation rate of five seconds:

1. The Patrol Terminator, which is generally preferred for fleeing prevention, and
2. The Piranha, which is primarily intended as a covert option.

III. Policy

A. Department-Issued Devices and Training

1. Officers shall only use approved department-issued tire deflation devices.
2. Only officers who have been trained in deployment by the MPD may these deploy tire deflation devices.

3. This policy is not intended to cover tactical (intentional) deflation of tires by specialized units such as SWAT.

B. Deployment

Officers may deploy approved tire deflation devices to prevent a vehicle from fleeing, subject to the following conditions:

1. The officers can articulate the need to prevent the vehicle from fleeing and why the device was necessary. Factors may include:
 - The driver has a known history of fleeing
 - A suspect in the vehicle has active warrants
 - The driver or occupant exhibits behavior or movements indicative of fleeing
 - The vehicle is an occupied, parked, stolen vehicle
 - The occupants are asleep or unconscious
 - The vehicle is under surveillance for a felony level crime
 - The time and location of the vehicle stop
2. This device shall **only** be deployed on stationary vehicles as a fleeing prevention tool.
3. This tire deflation device shall **not** be used on any vehicle that normally operates with fewer than four pneumatic tires.
4. Officers should only use this device when it can be safely deployed. For example, if the approach on a felony stop would make it unsafe to deploy prior to securing the occupants, officers should avoid doing so.

C. Pursuit

In a situation where a vehicle with a deflated tire flees, officers shall not pursue the vehicle unless it meets the requirements of an Authorized Pursuit (P&P 7-402).

IV. Procedures/Regulations

A. Placement

The best tactical placement for deployment is between the front and rear tires. Other placement options may work better in certain circumstances (such as on an unoccupied vehicle).

B. Warnings and Announcements

1. Warn the Driver

When practical, officers shall verbally warn the driver that a tire deflation device has been deployed and tire damage may result if the vehicle is moved.

2. Broadcast Deployment

Officers who deploy the Patrol Terminator shall broadcast the deployment over the radio. For example, “Squad 123- I have deployed TDD (Tire Deflation Devices)”. This will alert other officers in the area that this vehicle has the potential to flee.

C. Device Recovery

1. Stop Completion

Upon completion of the stop, officers shall recover the device **prior** to the vehicle leaving, and shall inform the driver when it is safe to leave.

2. Device Inspection and Reuse

- a. Once used and activated, the device shall be delivered to the Auto Theft Prevention unit, who will inspect and re-load the device, and will return it to service.
- b. Officers shall ensure that the tire deflation device is in working order at the beginning of their shift.

3. Evidence Retention

The device shall be retained and submitted as evidence if the use of the device resulted in a crash involving great bodily harm or death or was otherwise used in a critical incident.

D. Reporting

1. No Tire Damage

- a. No report being made

Officers who deploy a tire deflation device that does not result in tire damage shall document the information in CAD when a Police Report will not be made.

- b. Report being made

Officers who deploy a tire deflation device that does not result in tire damage shall document the information in the Police Report when a report will be made for the incident, and shall include the code STOPST.

2. Tire Damage

Officers who deploy a tire deflation device that results in tire damage shall document the deployment in a Police Report, and shall include the code STOPST.

E. Training

The Training Division shall be responsible for device training and shall maintain records of officers authorized to deploy tire deflation devices.

F. Program Administration

1. The Auto Theft Prevention unit shall purchase and issue equipment and shall maintain a current inventory of tire deflation devices, including a record of which vehicles or units the devices are assigned to.
2. Tire deflation devices shall be mounted and carried in accordance with the manufacturer's recommendations.

Vehicle Impounding and Towing

7-701 **Impounding Vehicles** (06/01/12) (09/14/18)

I. Purpose

The purpose of this policy is to provide employees with information and guidance on towing vehicles, and inventory, storage and releasing of impounded vehicles.

II. Definitions

Responsible Occupant: A person in the vehicle, who after reasonable inquiry, appears to be in lawful possession of the vehicle.

III. Procedures/Regulations

A. Officers shall impound vehicles in the following circumstances:

1. As authorized by a “Pick-up and Hold” Order;
2. As directed by an MPD investigator or supervisor;
3. The officer has probable cause to believe the vehicle is stolen and the owner is not present.

B. Unless otherwise prohibited by law, officers may impound vehicles parked on public property in the following circumstances:

1. The officer has probable cause to believe that the vehicle constitutes evidence of a crime and impoundment is reasonably necessary to preserve the evidence;
2. There is probable cause to believe that the vehicle contains evidence of a crime and impoundment is reasonably necessary to obtain or preserve the evidence;
3. The vehicle impedes traffic, threatens public safety, or threatens public convenience and the owner or responsible occupant cannot immediately remove the vehicle on his/her own;
4. The vehicle is subject to forfeiture.
5. The vehicle is illegally parked **and** impoundment is specifically authorized by Minnesota state statute or Minneapolis ordinance, including, but not limited to, MN Statute sections

168B.04 and 168B.035. This includes, but is not limited to, retaining control over a vehicle that is subject to forfeiture;

6. The owner or responsible occupant is arrested, absent, or otherwise incapacitated and impoundment appears appropriate for the safekeeping of the vehicle and its contents, to protect them from theft and damage and to protect the MPD from claims of mishandling, unless prohibited in section [C] below.
7. The owner or responsible occupant requests that the MPD takes responsibility for the vehicle.

C. Officers shall *not* impound a vehicle *solely for safekeeping* in the following circumstances:

1. When the owner or responsible occupant has been cited rather than arrested, and is capable of taking responsibility for the vehicle.
2. When the owner or responsible occupant has been arrested, specifically requests to make arrangements for the vehicle *and* is successful in making those arrangements.
 - a. An officer should give an arrestee a reasonable opportunity to make arrangements if specifically requested.
 - b. Such an opportunity should not unnecessarily delay or hinder any ongoing police investigation or official duties (e.g. testing a driver's alcohol concentration within a statutorily required time-frame).
3. When another person with a valid driver's license is available at the scene and has the owner's/responsible occupant's permission to take custody of the vehicle, even if the owner/responsible occupant has been arrested.
4. The vehicle is legally parked and the owner/responsible occupant requests the vehicle to be left legally parked.

D. Officers are not required to ask an owner or responsible occupant if they wish to make their own arrangements for the removal of the vehicle in lieu of impoundment.

1. Vehicle Accidents

- a. In vehicle accidents, if an immediate tow is necessary, officers shall note the reason in the Vehicle Impound Report and shall order the tow. An immediate tow is necessary when a vehicle is disabled and either impedes traffic or otherwise presents a risk to the public safety and public convenience, or when the failure to immediately tow would place the vehicle or its contents at risk of theft.
- b. If the vehicle does not have to be moved immediately, is not disabled, and the owner or responsible occupant is able to remove the vehicle within a reasonable time, officers shall not order a tow.

- c. In other cases where an immediate tow is not necessary, but the vehicle is disabled, the owner (if on scene) or responsible occupant should be given a reasonable opportunity to arrange a tow. If officers have an opportunity they should ask the owner or responsible occupant if they wish to arrange a tow, when practical. When a citizen is arranging a tow, they shall be responsible for ordering the private tow and for the resulting charges. Officers shall not order a private tow.
- E. In all cases in which a report is required and a vehicle is towed, officers shall state the reason for towing in the report. If a report is not required, officers shall state the reason for impounding the vehicle on the tow sheet.
- F. In all cases in which a report is required and a vehicle could have been towed but is left legally parked, officers shall note the reason it was left parked, including a summary of the owner or responsible occupant's request(s), if any, in the report.

7-702 Towing- Inventory Procedure

(09/14/18)

- A. It is the policy of MPD that an inventory search of a vehicle must be conducted when a vehicle is impounded by MPD for any of the reasons discussed in P&P 7-701, or when an unlocked and unoccupied vehicle is otherwise towed by police order.
 - 1. The purpose of an inventory search is to protect property in the vehicle, to ensure that the vehicle does not contain harmful or dangerous weapons or other items that would endanger the safety of officers or the public, and to protect the department against false claims of loss or damage.
 - 2. The inventory search shall be for the entire vehicle, including all compartments that can be accessed without damage to the vehicle.
 - a. Officers shall investigate the contents of containers within the vehicle if those containers can be opened without damage to the container.
 - b. If a container cannot be opened without damage, an officer shall attempt to determine the value of the contents of a container by reasonable means, such as asking the owner.
- B. The inventory search shall be performed in accordance with P&P 9-201 III B, entitled "Searching Vehicles." For ease of reference, the primary obligations of an officer conducting an inventory search are included here:
 - 1. An "inventory search" is the search of a vehicle lawfully seized in order to ensure that the vehicle does not contain harmful or dangerous weapons, secure valuable items, and protect against false claims of loss or damage.
 - 2. A "Vehicle Impound Report" (AKA "tow sheet") must be completed for every tow.

- a. All items of significant monetary value shall be recorded on the tow sheet.
 - b. Officers must indicate on the tow sheet what items were removed and inventoried and what items were left in the vehicle.
3. If the inventory of the vehicle results in an arrest or seizure of evidence or contraband, a report and supplement shall be completed by each officer conducting the inventory search. This is in addition to completion of the tow sheet. The officer(s) must articulate, at a minimum, the following:
 - a. The legal justification(s) for the search;
 - b. Results of the search;
 - c. Any damages that occurred;
 - d. Any other pertinent information.
4. If the inventory of a vehicle does not result in an arrest, property damage, or seizure of evidence or contraband, the fact that a search occurred and the legal justification for it should be documented via added remarks to the call in CAD (Computer Aided Dispatch) or by another method.
5. If damage to property was caused during the course of a search and/or resulting seizure, officers shall:
 - a. Notify a supervisor; and
 - b. Document the damage by taking photographs.

2. When an officer directs a "Red Tag Tow," no inventory search shall be performed. - B.** The Bill of Rights in Article 1 of the Minnesota Constitution addresses the rights of free speech and the liberty of the press. However, neither the state nor federal constitutions protect criminal activity or threats against citizens, businesses, or critical infrastructure.
- C.** The Minneapolis Police Department supports all people's fundamental right to peaceably assemble and their right to freedom of speech and expression.
- D.** The purpose of this policy is to provide guidelines to MPD employees regarding the application and operation of law enforcement actions during public assemblies and First Amendment Activity.

3. The government may impose reasonable restrictions on the time, place, or manner of protected speech, provided the restrictions are justified without reference to the content of the regulated speech, that they are narrowly tailored to serve a significant governmental interest, and that they leave open ample alternative channels for communication of the information.

1. with intent to commit any unlawful act by force; or
2. with intent to carry out any purpose in such manner as will disturb or threaten the public peace; or
3. without unlawful purpose, but the participants so conduct themselves in a disorderly manner as to disturb or threaten the public peace.”

III. Policy

A. Facilitating Exercise of Rights

1. MPD employees shall not unlawfully interfere with people engaged in the lawful exercise of their rights.
2. The MPD will uphold the constitutional rights of free speech and assembly while using the minimum amount of physical force and authority required to address a crowd management or crowd control issue.
3. The policy of the MPD regarding crowd management and crowd control is to apply the appropriate level of direction and control to protect life, property, and vital facilities while maintaining public peace and order during a public assembly or First Amendment activity.

B. Policy Application

This policy concerning crowd management, crowd control, crowd dispersal, and police responses to violence and disorder applies to:

- Spontaneous demonstrations,
- Spontaneous crowd event situations, and
- Planned demonstration or crowd events regardless of the permit status of the event.

C. Use of Force

1. Nothing in this policy prohibits officers’ abilities to use appropriate force options to defend themselves or others as defined in P&P 5-300.
2. Use of any crowd control weapons shall be reported and reviewed in accordance with the sections on Force Reporting and Supervisor Force Reviews in P&P 5-301.

D. Supervisor Responsibility for Oversight

Supervisors shall be responsible for:

1. Ensuring that officers assigned launchers or munitions have completed relevant training and certification as applicable.
2. Describing to on-scene officers the rules of engagement for the deployment of munitions, including a review of the applicable use-of-force policy sections.
3. Maintaining responsibility for the munitions issued and deployed.
4. Ensuring appropriate radio notification of deployments where practical and ensuring subsequent reporting.
5. Ensuring officers complete proper written documentation for the deployment of less-lethal weapons after deploying such tools.

E. Incident Commander

In some cases, the Incident Commander role in this policy may be the same person as the on-scene supervisor.

F. Annual Policy Review

This policy is to be reviewed annually.

IV. Procedures/Regulations

A. Uniform

1. All officers responding to public assemblies shall at all times, including when wearing protective gear, display their agency name and a unique personal identifier in accordance with P&P 3-100.
2. The Chief or the Chief's designee shall maintain a record of any officer at the scene who are not in compliance with this requirement due to exigent circumstances.

B. Officer conduct

1. Officers shall maintain professional demeanor and remain neutral in word and deed despite unlawful or anti-social behavior on the part of crowd members.
2. Verbal abuse against officers does not constitute a reason for an arrest or for any use of force against such individuals.
3. Officers shall not take action or fail to take action based on the opinions being expressed.
4. Officers shall not interfere with the rights of members of the public to observe and document police conduct via video, photographs, or other methods unless doing so interferes with on-going police activity (P&P 9-202).

5. Officers shall not use a weapon or munition unless the officer has been trained in the use and qualified in deployment of the weapon/munition (P&P 5-302).
6. This policy does not preclude officers from taking appropriate action to direct crowd and vehicular movement; enforce ordinances and statutes; and to maintain the safety of the crowd, the general public, law enforcement personnel, and emergency personnel.

C. Responses to Crowd Situations

1. Spontaneous disturbances

Officers responding to large-scale disturbances, or those that are likely to become violent, shall notify their supervisor. The responding supervisor shall assume the role of Incident Commander and determine the need for additional assistance, equipment, and tactics to be used.

- a. The Incident Commander shall inform the Watch Commander, who shall contact MECC with information of the situation. MECC shall contact the Chief of Police and the appropriate Bureau Head, with information of the situation.
- b. The first level of additional assistance shall be precinct officers and designated response cars. The Incident Commander shall establish a field command post with a designated staging area. The Incident Commander shall designate officers for security details for police vehicles and equipment.
- c. The Incident Commander may request the activation of the SWAT team to provide additional demonstration management resources. Upon activation, the SWAT team will be deployed and directed by the SWAT Lieutenant in consultation with the Incident Commander.
- d. The Incident Commander shall be in charge of the incident as a whole, however, the SWAT Lieutenant shall direct the specific actions of SWAT members once they have been activated, consistent with the mission outlined by the Incident Commander.

2. Lawful assembly

Individuals or groups present on the public way, such as public facilities, streets or walkways, generally have the right to assemble, rally, demonstrate, protest, or otherwise express their views and opinions through varying forms of communication including the distribution of printed matter. These rights may be limited by laws or ordinances regulating such matters as the obstruction of individual or vehicle access or egress, trespass, noise, picketing, distribution of handbills, leafleting and loitering.

3. Unlawful assembly

- a. The mere failure to obtain a permit, such as a parade permit or sound permit, is not a sufficient basis to declare an unlawful assembly.

- b. The fact that some of the demonstrators or organizing groups have engaged in violent or unlawful acts on prior occasions or demonstrations is not grounds for declaring an assembly unlawful.
 - c. Whenever possible, the unlawful behavior of a few participants shall not result in the time, place or manner of expression being impacted for majority of peaceful protestors, unless other participants or officers are threatened with dangerous circumstances.
 - d. Unless emergency or dangerous circumstances prevent negotiation, crowd dispersal techniques shall not be initiated until after attempts have been made through contacts with the police liaisons and demonstration or crowd event leaders to negotiate a resolution of the situation so that the unlawful activity will cease, and the First Amendment activity can continue.
4. Declaration of Unlawful Assembly
- a. If the Incident Commander has declared an unlawful assembly, the reasons for the declaration and the names of the decision maker(s) shall be recorded.
 - i. The declaration and dispersal order shall be announced to the assembly.

 - c. Whenever possible, dispersal orders should also be given in other languages that are appropriate for the audience. Officers shall recognize that not all crowd members may be fluent in the language(s) used in the dispersal order.
 - d. Dispersal announcements shall be made in a manner that will ensure that they are audible over a sufficient area.
 - i. Dispersal announcements shall be made from different locations when the demonstration is large and noisy.

- ii. The dispersal announcements should be repeated after commencement of the dispersal operation so that people not present at the original broadcast will understand that they must leave the area.

5. Crowd Dispersal

- a. Crowd dispersal techniques should not be initiated until officers have made repeated announcements to the crowd, or are aware that repeated announcements have been made, asking members of the crowd to voluntarily disperse and informing them that, if they do not disperse, they will be subject to arrest.
- b. Unless an immediate risk to public safety exists or significant property damage is occurring, sufficient time will be allowed for a crowd to comply with officer commands before action is taken.
- c. If negotiations and verbal announcements to disperse do not result in voluntary movement of the crowd, officers may employ additional crowd dispersal tactics, but only after orders from the Incident Commander, and by using the minimum amount of physical force and authority needed to address the issue.
- d. If, after a crowd disperses pursuant to a declaration of unlawful assembly and subsequently participants assemble at a different geographic location where the participants are engaged in non-violent and lawful First Amendment activity, such an assembly cannot be dispersed unless it has been determined that it is an unlawful assembly, and a new declaration of unlawful assembly has been made.

D. Authorization for Crowd Control Weapon Use

- 1. Except as provided in [E] below, during civil disturbances or assemblies (as defined in this policy), authorization for use of crowd control weapons shall only come from the Chief of Police, or if the Chief is unavailable, the Chief's designee at the rank of Deputy Chief or above.

MPD shall retain such documentation for a period of not less than seven years.

2. Crowd control weapons shall not be authorized for peaceful gatherings or assemblies (such as peaceful protests and demonstrations).
3. In situations not involving civil disturbances or assemblies, the use of weapons listed in this policy shall be in accordance with the other sections in P&P 5-300 specific to those weapons.

E. Objectively Imminent Physical Harm to Oneself or Another

1. If there is an immediate need to protect oneself or another from objectively imminent physical harm and crowd control weapons have not been authorized under [D] above:
 - a. Crowd control weapons, excluding chemical munitions, smoke munitions and light sound distraction devices, may be used without prior authorization in order to stop the assaultive conduct or act of violence.
 - b. In these circumstances, crowd control weapons may only be used against specific people who are posing a threat of objectively imminent physical harm to another person.
 - c. Chemical munitions, smoke munitions and light sound distraction devices may not be used in these circumstances.

MPD shall retain such documentation for a period of not less than seven years.
5. The Incident Commander or Watch Commander who is notified shall email a brief notification before the end of their shift that an officer used crowd control weapons without prior authorization, including the case number and circumstances establishing the need to use the weapon, to the Chief of Police, Assistant Chief, Deputy Chiefs, and the Commander of Internal Affairs, for further review and handling.

II. Definitions

Behavioral Crisis Response (BCR) team: The City of Minneapolis has established Behavioral Crisis Response (BCR) teams to respond to incidents of non-violent mental health crises. All crisis responders are mental health practitioners or professionals as defined by MN Statute section 245.426, Subd. 17 and 18.

Crisis: An event or situation where a person's safety and health are threatened by behavioral health challenges, to include mental illness, developmental disabilities, substance use, or overwhelming stressors. A crisis can involve a person's perception or experience of an event or situation as an intolerable difficulty that exceeds the person's current resources and coping mechanisms and may include unusual stress in their life that renders the person unable to function as they normally would. The crisis may, but not necessarily, result in an upward trajectory or intensity culminating in thoughts or acts that are possibly dangerous to the person or others.

Crisis Intervention: An attempt by an MPD officer to de-escalate a person in crisis or refer or divert the person to other services when appropriate.

Crisis Intervention Coordinator: An officer of the MPD who is responsible for the Crisis Intervention Program. The Crisis Intervention Coordinator is the point of contact between mental health and crisis intervention issues involving the MPD and the community, including crisis intervention training, reporting and policies. The Crisis Intervention Coordinator will maintain continuous working relationships with all community partners, with specific emphasis on mental health and advocacy partnerships.

Crisis Intervention Data Collection Form: A data collection form that gathers required crisis intervention information for the MPD to track and assess gaps in crisis intervention responses and training.

Crisis Intervention Program: A partnership program between police, mental health agencies, advocates, and the community that seeks to achieve the common goals of safety, understanding,

and service to people in crisis, those suffering from mental health issues and their families. The goals of the Crisis Intervention Program are to:

- Improve the safety and security of people in crisis and their family, community members, and officers.
- Improve the quality of life for people suffering from mental illness or crisis.
- Change how society and systems view people suffering from mental illness or crisis.
- Change how healthcare and criminal justice systems respond to people suffering from mental illness or crisis.

Crisis Intervention Trained Officer: A licensed peace officer of the MPD who has completed the MPD's approved crisis intervention training. Crisis Intervention Trained Officers work in cooperation with community partners, mental health facilities and organizations.

Developmental Disability: A physical, cognitive, or emotional impairment often caused by a neurodevelopmental disorder such as cerebral palsy or autism spectrum disorder that results in a person's limited functions in areas such as self-care, language, learning, mobility, self-direction, comprehension, or capacity for independent living and economic self-sufficiency.

Disengagement: Disengagement is a strategic decision to leave, delay contact, or delay custody of a person in crisis when there is not an immediate need to detain them.

Mental Illness: MN Statute Section 245.462, Subd. 20 defines mental illness as "an organic disorder of the brain or a clinically significant disorder of thought, mood, perception, orientation, memory, or behavior that is detailed in a diagnostic codes list published by the commissioner, and that seriously limits a person's capacity to function in primary aspects of daily living such as personal relations, living arrangements, work, and recreation." Mental illness conditions may be characterized by impairment of a person's normal cognitive, emotional, or behavioral functioning, and caused by social, psychological, biochemical, genetic, or other factors.

Person in Crisis (PIC): The nature code for a person experiencing a crisis event or situation (as defined in this policy).

III. Policy

- C. The MPD shall handle incidents involving mentally ill, chemically dependent or developmentally disabled people and those in crisis, with care and expertise, ensuring that such people receive appropriate responses based on their needs.

IV. Procedures/Regulations

A. Crisis Intervention Response

1. Responding to calls involving a person in crisis

- a. Whenever possible, a Crisis Intervention Trained Officer will be dispatched to incidents involving a person in crisis who is believed to be in danger of harming self or others, and is:
 - Believed to have a mental illness or developmental disability, or
 - Believed to be chemically dependent or intoxicated in public.
- b. If officers who are dispatched or responding to a call involving a Person in Crisis (PIC) have not received Crisis Intervention training, the officers shall notify dispatch of the need for a Crisis Intervention Trained Officer to respond.

2. Inform person of steps being taken

When practical, officers should inform the person and their family (if on-scene) of the steps being taken while assisting the person to a treatment facility, making referrals, or making an arrest, including providing information such as contact numbers and the reasons for the actions being taken.

- Believed to have a mental illness or developmental disability, or
- Believed to be chemically dependent or intoxicated in public.

- a. Both of the following elements are required to take an individual into custody under a transport hold:
 - Has a mental illness or developmental disability, or is chemically dependent or intoxicated in public.
and
 - Is in danger of harming self or others if not immediately detained.
- i. The police officer's statement shall specify the facts to substantiate why the officer has reason to believe both elements are applicable.
- b. The peace or health officer does not need to directly observe the behavior or other facts upon which the transportation hold is based and may consider information from other reliable and reasonably trustworthy sources.
 - i. The sources can be based on the statements of the person, witnesses, family members, or on the physical scene itself.
 - ii. Anonymous tips must be corroborated through direct observation or identifiable, reliable sources.
- c. If the person in crisis is only posing a danger of harming self and not others, and is resistant to the transport hold, officers should consider whether continued contact with the person in crisis may result in an unreasonable risk to the person, the public or officers.
 - i. Officers may choose to strategically de-escalate or disengage to avoid resorting to physical force when the danger to the person in crisis by self-harming is no longer imminent and the person has not committed a serious or violent crime.
 - ii. Officers should only consider using this technique when it is safe and prudent to do so.
- d. The police officer shall complete the Application by Peace Officer for Emergency Evaluation Form (MP-9094), also known as the MPD "transport hold" form, when taking a person into custody under MN Statute section 253B.051 subd. 1 and transporting the person to a health care facility for evaluation.

 - iii. The police officer completing the form shall provide a copy of the completed form to:
 - the health care facility,
 - the person taken into custody and

- to the transporting agency, if the person is not transported by the police officer.
- e. The transport hold allows the person to be transported to a hospital and held until they are evaluated. After the evaluation, the hospital may release the person or place them under a 72-hour hold.
 - i. When a police officer responds to a health officer's call to assist in transporting a person, the health officer should identify themselves to the police officers as qualified under the statute to write a transport hold.
 - ii. If the transport hold order is written by a health officer (on or off-site) and presented to a police officer, the police officer may assist in executing the transport hold.
 - iii. Officers also have the authority to sign a transport hold, based on the factors set out above.

2. Health officer defined

MN Statute section 253B.051 Subd. 1(e) states that "as far as practicable, a peace officer who provides transportation for a person placed in a treatment facility, state-operated treatment program, or community-based treatment program under this subdivision must not be in uniform and must not use a vehicle visibly marked as a law enforcement vehicle." If a transport is required and unmarked and non-uniformed resources are available, officers should use those to make the transport.

C. People in Crisis Who Require Medical Attention or Transport

1. Officers shall call EMS and render first aid in accordance with P&P 7-350 Emergency Medical Response.
2. If a person in crisis requires a transport but is unable to walk due to a medical or physical condition or other circumstances, officers shall call EMS to transport the person to the medical facility.

D. Handcuffing People in Crisis

1. Officers shall use extreme caution when taking a person in crisis into custody and shall use handcuffs when the person is not restrained by other means (in accordance with P&P 9-109)

- i. When MPD officers complete a transport hold requested by a health officer, the MPD officers shall upload a copy of the completed hold form to Evidence.com under the incident number, and shall note the transport hold in added remarks in CAD.

2. Citation or arrest

When a person in crisis is cited and released or arrested for an offense, the arresting officer shall complete the Police Report.

3. Nature code

If an original incident (e.g. CKWEL, SUSPP, DIST) is later determined to be an incident involving a person in crisis, officers shall request that MECC change the nature code to PIC prior to clearing the call.

4. Report

When a report is required, officers completing the Police Report shall:

- a. Use CIC as the primary code or include CIC as an additional code when CIC is involved but not the primary code.

The supervisor shall review the case and make the determination regarding further actions.

If an officer learns of a new agency that can be used as a resource, the officer should notify the Crisis Intervention Coordinator via e-mail and include the agency name, address and phone number as well as the resources that can be provided. The Crisis Intervention Coordinator will add this information to the Crisis Intervention Resources.

H. Behavioral Crisis Response (BCR) teams

When on duty, BCR teams will be responding to 911 calls involving community members with mental health challenges. The calls for service will be routed to the BCR teams via MECC only. They do not have a crisis line. They will be assigned calls by dispatch.

2. BCR transports

BCR teams can transport people on a voluntary basis only. They will not transport people who are placed on a transportation hold.

 - BCR (Behavioral Crisis Response), and
 - BCRW (Behavioral Crisis Response Welfare)
- b. If a BCR team is not on duty or unavailable to respond, or if call circumstances change requiring the response of a Crisis Intervention Trained Officer, MECC will change the nature code to the appropriate MPD nature code (PIC, CKWEL, etc.) and will dispatch a squad. BCR teams will defer to responding officers instructions upon arrival.
- c. Officers dispatched to such calls shall follow current MPD policy and training in responding to these calls.

 - iv. Provide details to enable the primary responders or investigators to secure the scene.
 - v. Facilitate the commencement of the investigation.

MPD Crime Lab personnel shall collect identified evidence at the direction of Investigations Bureau and Internal Affairs Investigators, including MVR recordings from all squads at the Critical Incident scene (in accordance with P&P 4-218) and Body Worn Camera data (in accordance with P&P 4-223).
- c. All Investigators at the crime scene shall complete a statement in the Police Report.

B. Procedures for Involved and Witness Officers

1. Supporting Officers following a Critical Incident

Officers involved in Critical Incidents, whether Witness or Involved Officers, can be profoundly affected by the incident. How a Witness or Involved Officer is treated during the time following a critical incident can minimize or aggravate the psychological effect on them. Therefore, first and foremost, anyone dealing with a Witness or Involved Officer should keep in mind the following guiding principles at all times:

- Be sensitive to individual officer needs. Physical contact with the officer must be evaluated on an individual basis. Often officers feel overwhelmed by people wanting to console them. Before attempting to speak with an officer, please ask the Escort attending to the officer to inquire if the officer would like to meet with

you. If the officer declines to meet with any particular person, please honor their decision.

- Because Witness or Involved Officers can be profoundly affected by Critical Incidents, they should not be left alone or ignored.
- Avoid making the officers feel like a suspect.

2. Managing Involved Officers

a. Involved Officers at the scene

- i. The MPD Incident Commander shall determine which officers are Involved Officers. The Incident Commander at the scene shall promptly assign an Escort to stay with each Involved Officer until relieved by a Homicide Investigator. One Escort shall be assigned for each Involved Officer. Whenever possible, Escorts assigned to Involved Officers shall be of the rank sergeant or above and shall not be the Incident Commander.
- ii. Involved Officers shall not talk to anyone at the scene about the incident, except to the Incident Commander, Lead Investigator or legal counsel and to provide a Public Safety Statement to the Incident Commander.
- iii. The Involved Officers shall not be unreasonably denied access to legal counsel at the scene.
- iv. As soon as practical, the Escorts shall take the Involved Officers from the scene to the designated drug and alcohol testing collection site in accordance with P&P 3-1001. After test samples are obtained, the Escorts shall transport the Involved Officers to Headquarters-Involved Officer's Room.
- v. Escorts shall keep the Involved Officers separate from other Involved and Witness Officers.
- vi. Unless a supervisor has a reason to believe that the officer may pose a threat to self or to others, or unless directed by the Investigators, the Involved Officers' firearm should not be taken at the scene.
- vii. Involved Officers should not be placed in the back seat of a police vehicle.

b. At Headquarters- Involved Officer's Room

- i. If Involved Officers request, they shall not be unreasonably denied access to:
 - Food and drink
 - Restroom facilities
 - Telephone to contact loved ones
 - A representative from the Federation or other legal counsel

- A representative from the MPD Employee Resource Program or the responding peer support team member
 - A Community Chaplain or other clergy
- ii. If requested by Investigators, Involved Officers shall make themselves available for a firearms inspection and shall surrender their firearm and any other requested equipment to the Investigators. Homicide Investigators will take custody of the Involved Officer's firearm, place it in a paper bag, and put it in the evidence locker in Investigative Headquarters if Crime Lab personnel are unavailable to take immediate custody of the weapon. The evidence locker will be locked immediately after the firearms are placed inside. Crime Lab personnel will remove the officer's handgun from the locker and process in accordance with P&P 10-400.
- iii. Involved Officers shall be provided with replacement firearms and equipment as soon as reasonably possible.
- iv. Involved Officers shall be allowed a reasonable opportunity to consult with Federation representatives, legal counsel, Community Chaplain or other clergy, and MPD Employee Resource Program personnel.
- v. After consultation with legal counsel, the Involved Officers or legal counsel will inform the Lead Investigator or designee if the Involved Officers are willing to give a Voluntary Statement.
- aa. Voluntary Statements should be given as soon as possible, but in all cases within 48 hours of the Critical Incident to ensure the continuity of the investigation unless the involved officer is not able to do so.
- ab. Involved Officers' statements shall be given at Investigative Headquarters or such other location chosen by the Lead Investigator. All statements from involved officers will be taken in question and answer (Q&A) format.
- c. Administrative Leave
- i. Involved Officers shall be placed on a mandatory paid administrative leave for a minimum of three calendar days and a maximum of seven calendar days following the Critical Incident unless otherwise requested by the officer and approved by the Chief or the Chief's designee. Such administrative leave does not relieve the Officer of the requirements of this policy.
- ii. An officer shall not work a uniformed off-duty job or buyback while on Administrative Leave (in accordance with P&P 3-800). An officer may work an approved non-uniform, non law-enforcement off-duty job while on a "pending investigation" administrative leave at the sole discretion of the Chief or their designee.

d. After Incident Care for Involved Officers

i. Peer Debriefing

All Involved Officers may take part in a group peer debriefing facilitated by the MPD Employee Resource Program or other Mental Health Professional and after care as necessary.

ii. Psychological Debriefing

All Involved Officers shall be required to meet with a Mental Health Professional selected by the officer from the approved list.

aa. Such meeting or meetings shall be considered on-duty time, and the City shall pay the fees of the Mental Health Professional as stated in the Collective Bargaining Agreement.

ab. If, after consultation, the Mental Health Professional renders an opinion that the Involved Officer is not yet fit for duty, the Involved Officer shall be placed on Injured on Duty (“IOD”) status, pursuant to Minneapolis Civil Service Rule 15.19(A). If the Mental Health Professional determines that the officer is not able to return to work in any capacity after the officer has exhausted IOD benefits, the officer may continue to be eligible for paid time off pursuant to MN Statute section 299A.411 and applicable provisions of the Labor Agreement and other Civil Service Rules.

ac. Any disputes concerning the officer’s ability to return to work shall be resolved in accordance with the Collective Bargaining Agreement.

ad. A return to duty determination and documentation will be presented to the Chief of Police by the Mental Health Professional prior to the Involved Officer being returned to duty.

3. Managing Witness Officers

a. Witness Officers at the scene

i. The Incident Commander shall determine which officers are Witness Officers. As soon as possible, the Incident Commander shall assign an Escort to each Witness Officer. If possible, one Escort shall be assigned to each Witness Officer. Witness Officers shall be separated from each other and other witnesses and shall not talk to anyone at the scene about the incident other than the Incident Commander, Lead Investigator or legal counsel and to provide a Public Safety Statement.

ii. The Witness Officers shall be allowed a reasonable opportunity to consult with legal counsel at the scene.

- iii. As quickly as possible after the Public Safety Statement, Witness Officers will be released from the scene by the Lead Investigator and advised to proceed to Investigative Headquarters. The Lead Investigator will inform the Incident Commander of any officers released from the scene. Witness Officers shall be advised that they are to wait at Investigative Headquarters for an opportunity to meet with legal counsel, a Community Chaplain or other clergy, or MPD Employee Resource Program personnel.
- b. Witness Officers at the Investigative Headquarters
 - i. Witness Officers shall be afforded an opportunity to meet with a Community Chaplain or other clergy, the responding MPD Employee Resource Program representative and to consult with legal counsel or Federation representatives.
 - ii. After such consultations, statements from Witness Officers are to be taken by Homicide Investigators prior to the officers being released from duty unless otherwise directed by Homicide Investigators. All statements by Witness Officers will be taken in a question and answer (Q & A) format.
 - iii. If requested by Investigators, Witness Officers shall make themselves available for a firearms inspection and shall surrender their firearm and any other requested equipment to them. Homicide Investigators will take custody of the Witness Officer's firearm, place it in a paper bag, and put it in the evidence locker in Investigative Headquarters if Crime Lab personnel are unavailable to take immediate custody of the weapon. The evidence locker will be locked immediately after the firearms are placed inside. Crime Lab Personnel will remove the officer's handgun from the locker and process (in accordance with P&P 10-400).
 - iv. Witness Officers shall be provided with replacement firearms and equipment as soon as reasonably possible.
- c. Administrative Leave
 - i. A Witness Officer may request to be placed on paid administrative leave for up to three calendar days following the Critical Incident. The decision to grant the request shall be made at the sole discretion of the Chief or their designee. The decision on whether to grant paid administrative leave shall be promptly communicated to the Witness Officer by their commander or the commander's designee. Such administrative leave does not relieve the Officer of the requirements of this policy.
 - ii. If an officer is granted a paid leave, the officer shall not work a uniformed off-duty job or Buy Back while on Administrative Leave. An officer may work an approved non-uniform, non law-enforcement off-duty job while on a "pending investigation" administrative leave at the sole discretion of the Chief or their designee.

d. After Incident Care for Witness Officers

i. Peer Debriefing

All Witness Officers shall take part in a group peer debriefing facilitated by the MPD Employee Resource Program representative or other designated Mental Health Professional and shall take part in any after-care, if appropriate.

ii. Psychological Debriefing

aa. Witness officers granted a paid leave shall be required to meet with a Mental Health Professional selected by the officer from the approved list.

ab. Witness officers not on a paid leave shall be encouraged and allowed to meet with the Mental Health Professional selected by the officer from the approved list. Such meeting or meetings shall be considered on-duty time, and the City shall pay the fees of the Mental Health Professional pursuant to the Collective Bargaining Agreement.

ac. If, after consultation, the Mental Health Professional renders an opinion that the Witness Officer is not yet fit for duty, the Witness Officer shall be placed on Injured on Duty (“IOD”) status, pursuant to the Labor Agreement. If the Mental Health Professional determines that the officer is not able to return to work in any capacity after the officer has exhausted IOD benefits, the officer may continue to be eligible for paid time off pursuant to applicable provisions of the Labor Agreement.

ad. Any disputes concerning the Officer’s ability to return to work shall be resolved in accordance with the Labor Agreement.

ae. After consultation, a return to duty determination and documentation will be presented to the Chief of Police by the Mental Health Professional. In the case of a Witness Officer on paid administrative leave, their fitness for duty determination and documentation will be presented to the Chief of Police prior to being returned to duty.

C. Consultation with Legal Counsel

1. Involved and Witness Officers are entitled to consult with their legal counsel during the pendency of the Critical Incident investigation, up to and including any grand jury proceedings.

a. Such reasonable and necessary meeting or meetings shall be considered on-duty time and the fees of the legal counsel may be eligible to be paid by the City pursuant Chapter 466 of the Minnesota State Statutes and the City’s legal fees policy.

- b. Officers shall be personally responsible for payment of any legal fees that exceed the hourly rate provided for in the City's legal fees policy.
2. It is common for Critical Incidents to result in civil lawsuits being filed against the City and the officers. Pursuant to the City's adopted defense and indemnity policy, the Minneapolis City Attorney's office, as the legal counsel for the City of Minneapolis, defends the City and *its employees* in such suits. Therefore, it is very important in order to properly prepare to defend any potential lawsuit following a Critical Incident that the City Attorney's office be able to fully investigate the Critical Incident as soon as possible. For that reason, both Witness and Involved Officers shall be required to meet with and otherwise cooperate with the Civil Division of the City Attorney's office when appropriate in its investigation and subsequent defense of any case that may arise.

D. Internal Affairs

The Internal Affairs unit shall be responsible for conducting an Administrative Investigation of all Critical Incidents and will investigate the Critical Incident simultaneously with Homicide Investigators. The IAU Commander or the Commander's designee will be the Chief's Proxy on scene.

1. Scene Access

MPD Homicide Investigators and Internal Affairs unit Investigators have equal access to the scene, evidence, civilian witnesses and all investigative data obtained at the scene.

2. Suspect and Witness Interviews

Homicide Investigators shall ensure that all suspect and critical witness interviews are done in the monitored and recorded interview rooms at Investigative Headquarters. IAU will be notified of the interviews and may observe the interviews from the monitors in Investigative Headquarters.

3. Investigative Data and Additional Evidence

Homicide Investigators shall notify in a timely manner and provide investigative data to IAU Investigators from sources not on scene, investigative reports or additional evidence as the investigation proceeds. IAU will have full access to all investigative records, statements and evidence that is collected during the criminal investigation. Evidence collected during any Critical Incident shall not be released without IAU approval.

- ERU assigned tactical weapon
- Ballistic helmet

This equipment shall be placed in the trunk of the ERU officer's police vehicle at the start of his/her patrol shift and removed at the end of the shift. If the equipment is needed at a scene, the ERU officer will advise MECC of his/her arrival at the scene with tactical weapons and equipment. If an Operation 100 has been called, the tactical decisions will be made by the on-scene ranking ERU member in concert with incident command. If an Operation 100 has not been called, the highest ranking department member at the scene shall command the incident. The equipment shall not be removed unless at least one of the following circumstances is present:

- The ERU officer is responding to an "active shooter" situation where gunfire is present at the time of the officer's arrival at the scene. An active shooter situation is defined as an ongoing or continuing act where the perpetrator is actively assaulting others with a firearm or deadly weapon.
- The ERU officer is responding to, or is present at, an Operation 100.
- The ERU officer is requested to participate in a high-risk search warrant entry or high-risk building search during their patrol shift.

MPD personnel shall remain cognizant of the fact that in many active shooter incidents, innocent lives are lost within the first few minutes of the incident. In some situations, this dictates the need to rapidly assess the situation and act quickly in order to save lives.

7-905 Incident Command System

(06/30/05) (02/16/23)

I. Purpose

The purpose of this policy is to ensure that MPD employees respond to potentially large-scale threats to life and property in accordance with Incident Command System principles and priorities, and to ensure the response is done in an effective, comprehensive and appropriate manner in coordination with other responding agencies.

II. Definitions

Incident Commander (I.C.): First Officer or Supervisor to arrive on the scene of a call for service where multiple units, scenes, or assisting agencies are dispatched. The Incident

Commander has overall command of the incident, until properly relieved by a Supervisor of higher rank if necessary, and will be based at the incident command post. The priorities of the Incident Commander include:

1. Assess incident priorities.
2. Determine strategic goals and tactical objectives, not related to the operations of SWAT or ESU personnel.
3. Identify a staging area, if needed.
4. Develop and implement incident action plan.
5. Develop appropriate incident management structure.
6. Assess resource needs.
7. Coordinate overall on-scene emergency activities.
8. Authorize information to be released to the media.

Public Information Officer: disseminates information to the public and media.

Staging Officer: responsible for identifying a single location or multiple locations, as needed, for resources to gather in preparation to respond to the emergency. Also keeps track of the availability of various resources for the incident.

Finance: tracks and records costs (via logs) for the operation.

III. Policy

A. Incident Command System Model

The Incident Command System is a model for the management of critical incidents and other emergencies that provides a common, uniform approach to the command and management of emergencies at the local, county and state levels. The incident command system will be used for single-agency responses, single-jurisdiction/multi-agency responses, and multi-jurisdiction/multi-agency emergency and disaster responses.

1. Command types

Some critical incidents involve only a police tactical response (**Single Command**) while other emergencies or disasters will require a planned, coordinated response from several departments, agencies or jurisdictions (**Unified Command**). A small-scale police incident may also escalate into an emergency requiring county, state and federal assistance.

2. ICS priorities

All emergencies or critical incident management plans must have the same incident priorities:

- Life safety;
- Incident stabilization;
- Property conservation.

3. ICS situation examples

Examples of critical incidents and emergencies are described as, but not limited to, public safety incidents that escalate beyond existing resources (large shooting scene; multiple shooting scenes, multiple emergency events); civil disturbances, riots, barricaded suspects, snipers, terrorist activities, hostage situations, hazardous materials accidents, major fires and explosions, aircraft crashes, weather disasters and nuclear, chemical and biological emergencies. This is not an all-inclusive list. The incident command system is designed to be used in any such situation.

B. Adhere to ICS Principles

MPD employees shall adhere to Incident Command System principles in an emergency or crisis.

IV. Procedures

As a major emergency is reported, or a small incident escalates beyond existing resources, the following incident command responses will be observed.

A. Incident Commander responsibilities

When arriving at the scene of an emergency event, the on-scene Incident Commander **shall**:

1. On the radio, identify yourself as the Incident Commander.
2. Rapidly assess:
 - What is the problem?
 - What are the objectives needed to bring this to a positive resolution?
 - What resources will be needed?
 - Will responding personnel need Personal Protective Equipment (PPE)?
3. Quickly determine or identify:
 - Perimeter locations....cold zone, warm zone, hot zone
 - Do people need to be evacuated or sheltered-in-place?
 - Is there a need for a separate radio frequency for the event?
 - Will weather conditions affect response plans? What is the wind direction?
4. Systematically:
 - Identify a Command Post location.
 - Identify Staging Area and Evacuation Area.
 - Request necessary personnel and resources to handle the event.
 - Insure that perimeters are adequate and held to prevent escalating the event.
5. Delegate:
 - Perimeter Control Officer
 - Staging Officer
 - Safety Officer
 - Any other functions necessary for incident command or unified command operations.

B. Police Supervisor (Sergeant or Lieutenant) Response

1. The Supervisor will announce on the radio that they have arrived, and **if** the Supervisor will be taking over as **Incident Commander**.
2. The Supervisor will assess the situation and any potential for escalation of the incident.
3. The Supervisor will provide MECC with a description and assessment of the situation and request additional resources as needed, such as Precinct response cars, additional supervisors, SWAT or other specialized units, or Fire/EMS services to respond.

4. The Supervisor should consider the need for a designated radio channel for incident management.
5. The Supervisor in charge will then notify the on-duty Watch Commander or a Deputy Chief of Field Services.

C. Watch Commander / Deputy Chief Response

1. The on-duty Watch Commander or Deputy Chief will announce on the radio that they have arrived and **if** the Watch Commander or Deputy Chief will be taking over as **Incident Commander**.
2. The Watch Commander or Deputy Chief will again make an assessment of the incident, and advise MECC of any changes in the situation.
3. The Watch Commander or Deputy Chief should consider the need for a designated radio channel for incident management.
4. If additional police personnel are needed for life safety or containment of the incident, the Watch Commander or Deputy Chief should consider the use of Police Reserves and the Emergency Response Unit (ERU).

D. MPD-SWAT (ERU) Activation

1. When activated through MECC by the Watch Commander, Precinct Supervisor or Deputy Chief, the MPD SWAT (ERU) will provide a mobile command vehicle, and the SWAT Commander will assume command of tactical police operations involving SWAT personnel.
2. The Watch Commander or Deputy Chief will assist as necessary, but will retain citywide supervisory responsibility.
3. Incident command responsibilities include:
 - a. Assessments of incident priorities;
 - b. Determination of the strategic objectives for the incident;
 - c. Directing the activities of police personnel;
 - d. Developing an appropriate incident management structure;
 - e. Deployment of resources to specific objectives;
 - f. Coordination of all incident activity;

- h. Authorization of information to be released to the media.

E. Unified Incident Command / Multi-Agency Incident Command

1. Police and Fire Department Response (with Public Works or other emergency agencies)

a. Fire Department

At most multi-agency/department emergencies, the Fire Department will assume the on-scene incident command with a designated on-scene Incident Commander, under a Unified Command System.

b. Police Department responsibilities

At this time the Police Department responsibilities will include traffic control, incident/area security, and evacuation assistance when required.

c. Single command post and IC

Although separate departments or agencies may use mobile communications vans and operations centers, there will be only one incident command post under the direction of one single Incident Commander.

d. Command of police personnel

- i. The Police Field Commander will maintain command of all police personnel and will use police communications as necessary, but will coordinate all police activity under the direction of the Fire Department on-scene Unified Incident Commander.
- ii. Police personnel will receive direction and orders from police supervisors only, to insure unity of command and the police chain of command.
- iii. When activated and assembled at a designated staging area, Police Reserve officers will receive assignments through the Police Reserve Coordinator for traffic control, security or evacuation assistance. The Police Reserve unit may utilize their own mobile communications van with a separate radio net, but will coordinate with established police and fire channels used.

e. Activation of an EOC

The on-scene Incident Commander may request the activation of an Emergency Operations Center (EOC) when field responsibilities exceed the capabilities of on-scene personnel. When established, the EOC will be staffed with City officials and department heads to assume the overall incident command. The on-scene Incident Commander will then report directly to the EOC Commander.

7-906 Phase I Alert

(11/02/01)

(B-C)

Supervisors called to a large disturbance or event requiring resources beyond the capabilities of a single precinct may request a Phase I Alert. Only a Watch Commander, or in their absence the ranking supervisor, may declare a Phase I Alert. The appropriate Deputy Chief of Field Services shall be notified by MECC as soon as possible. General duties of personnel in a Phase I Alert are:

Officers:

- If already at the scene of a disturbance, remain on the perimeter and await arrival of sufficient help.
- Those at the scene shall give a preliminary evaluation to the ranking officer.

- The on-scene supervisor shall notify the Watch Commander or other ranking officer of the situation and any additional resources required.

Precinct Commander or Ranking Officer:

- The Precinct Commander, Bureau Head or other ranking officer will assume incident command and establish a Field Command Post (FCP).

(B-C)

Under a Phase II Alert, the following additional steps shall be initiated:

- Notification of Mayor and MECC of the Phase II Alert.
- The Chief of Police or a designee will notify the Minnesota Duty Officer, who will notify the National Guard and federal law enforcement agencies of the Phase II alert.

- The Hennepin County Medical Center and the Hennepin County Medical Examiner shall be notified of the emergency. Two officers shall be assigned at each precinct to ready emergency equipment.
- Personnel reporting to the FCP shall go to the staging area and shall be transported in as few vehicles as possible.
- Officers reporting to the staging area for assignments will be logged in for assignments by a staging officer for accountability and safety.

7-908 Phase III Alert

(11/02/01)

(B-C)

A Phase III Alert is a **large-scale disturbance or event that requires resources beyond on-duty MPD personnel and affects the welfare of the city**. A Phase III Alert may only be initiated by the Chief of Police, or in his/her absence, the next highest command officer. Under a Phase III Alert, the following additional steps shall be initiated:

- An Emergency Operations Center (EOC) shall be established and commanded by the Chief or his/her designee for those critical incidents involving only the Police Department.
- The mayor shall be notified of the Phase III Alert.
- The Minnesota Duty Officer shall be notified of the Phase III Alert status in order to contact the State Patrol, National Guard and other Federal agencies.
- For those large-scale disturbances or events involving the Fire Department and multiple city departments, an EOC will be established in room B-911 in City Hall and will be commanded by the Mayor. Command assistance will be provided by the Chief of Police and Deputy Chief of Field Services or other command staff designated by the Chief of Police.

- During a Phase III Alert, the on-scene incident commander shall remain at the scene and take direction from the EOC. Police on-scene operations will be directed by the on-scene Incident Commander.
- All police personnel will go on 12-hour shifts and immediate callbacks will be initiated. All days off will be canceled with the exception of vacations of more than four days.
- Neighboring law enforcement agencies shall be notified of the disturbance or event and mutual aid will be requested if it is needed.
- The Emergency Operations Center (EOC) shall inform other agencies of their reporting instructions.
- In the event of a Phase III Alert, police responsibilities will include traffic control, on-scene and perimeter security, and evacuation assistance.

7-909 Emergency Callback Roster

(A)

Commanders shall maintain an emergency callback roster that includes all employees under their command. A copy of the roster shall be distributed by the commanders to all employees who will be responsible for calling personnel back to work. The roster must be kept at the home and the work place of those employees subject to making callbacks.

The callback roster shall be updated by January 15th and July 15th each year. A copy of the updated callback roster shall be forwarded to the Operations Development Unit, who will coordinate distribution to MECC, the Watch Commander's Office, and Administration.

(10/22/96) (05/02/01)

7-909.01 Callback Procedures

(A-C)

Immediate callbacks will be initiated with a Phase III Alert. The following procedures shall be followed:

- On-duty personnel shall remain at work until relieved.
- The callback roster shall be utilized to contact all personnel not on duty. When an employee is contacted, the time he/she was notified, the estimated time of arrival or the time they were told to report to work shall be noted on the callback roster.
- If an employee cannot be contacted on the first try, a second attempt will be made to contact them. If they still are not contacted, a notation shall be made on the callback roster as to the time and manner of the attempted contacts (i.e., message left on answering machine).
- If an employee was not contacted by a person doing a callback, but learns of the callback via other sources, the employee shall immediately call their place of assignment, let it be known they are aware of the callback and find out when and where they are to report to work.
- The MPD will go to two twelve-hour shifts during a Phase III Alert. Day Shift uniform personnel at the precincts will begin working an emergency shift from 0700 hours to 1900 hours. Night Shift uniform personnel at the precincts will be assigned to work 1900

hours to 0700 hours. Depending upon the time of announcement of twelve-hour shifts, shifts may be held-over until either 0700 or 1900 hours. Hours for all other personnel will be set at the time of the callback. (11/27/96)

- All sworn personnel are to report to work in uniform unless directed otherwise. (04/01/93)

7-910 Emergency Operations Center – MPD

(11/02/01)

For large-scale disturbances or events involving only the MPD, the Emergency Operations Center (EOC) may be established in the police administrative offices and the Chief shall be the EOC Commander. When requested by the Incident Commander or on-scene Deputy Chief/Director, the EOC will be activated and staffed by the following personnel:

- Chief of Police
- A Deputy Chief
- Director of the Emergency Communications & Technology Bureau
- Administrative Assistant to the Chief
- MPD Legal Advisor
- MPD Public Information Officer
- Additional personnel as needed

Responsibility for recording all information coming in and directions leaving the center belongs to the Administrative Assistant to the Chief. Other staff assignments may be made as necessary for planning, logistics, finance and media relations.

Incident command models require that the on-scene incident commander retain direct control and authority over all on-scene activity. The on-scene Incident Commander shall take direction from the EOC and will report all situational developments to them. All requests for additional personnel, equipment, and support of other City departments and outside agencies shall be forwarded to the EOC.

The EOC Commander will determine the incident command structure to be used and will establish the procedures required for the following:

- Mass arrests and transportation arrangements
- Arrest processing center location and teams for staffing
- Video taping
- Intelligence gathering
- Use of weapons and force
- Mutual aid requests and liaison with the Minnesota Duty Officer

The on-scene Incident Commander, whether a Police or Fire Department commander, may elect to designate on-scene operations, logistics, planning, and finance officers for large scale or complex emergency situations. These officers shall report directly to the on-scene Incident

Commander. An officer assigned at the incident scene as a staging officer will be responsible for the recording of all reporting personnel, assignments made, and the inventory of available equipment and vehicles.

7-910.01 Emergency Operations Center – City (11/02/01)

When a large-scale disturbance or event involves multiple City departments or agencies, the on-scene Incident Commander shall request the activation of an Emergency Operations Center in MECC through the Chief or Deputy Chief. The Phase III Alert may require a larger incident command structure and may be of a longer duration. The Mayor shall be notified when a Phase III Alert escalates, to report to the EOC in room B-911 in City Hall. The Chief of Police shall report to the EOC with the Deputy Chief of the Central Services Bureau until staffing requirements are later decided.

See Volume 6 - Procedures for requesting assistance under Mutual Aid and for requesting National Guard Assistance.

7-911 Multi-Jurisdictional Radio Channels (07/15/03)

There are several multi-jurisdictional radio channels and 800 MHz talk groups that are currently available and may be activated by an incident commander for use in a major inter-jurisdictional incident or emergency within Hennepin County. MECC must be notified when using any of these resources so that they may notify the other radio system users as per Metro Radio Board requirements.

Available multi-jurisdictional radio resources:

HTAC-3 (Talk Group) MPD Portable Radio Zone A-13 (Mode 1 on mobile radios)

MINSEF (Talk Group) MPD Portable Radio Zone C-15 (Mode 2 on mobile radios)

Contact MECC if communication with non 800 MHz users is needed.

Metro Emergency (Talk Group): MPD Portable Radio Zone C-14 (Mode 2 on mobile radios)

Contact MECC if communication with non 800 MHz users is needed.

PTAC Talk Groups: MPD Portable Zone C-1 thru C-4 (Mode 2 on mobile radios)

Mettac-P Talk Group: MPD Portable Zone C-5 (Mode 2 on mobile radios)*

MIMS (155.37 MHz): Contact MECC for patch to an 800 MHz talk group.

**Mettac-P will likely become the standard for incidents involving multiple agencies. It is actually a combination of several VHF/UHF and three different 800 MHz systems (Eden Prairie, Bloomington and Minneapolis).*

7-912 **Weapons of Mass Destruction (WMD)**

(11/27/02)

(A-C)

Weapons of Mass Destruction (WMD) pose a great threat to first responders and requires a unique and extraordinary police response. Often times, officers may not know that they are responding to such an incident when dispatched. Officers should be aware of signs and symptoms of any victims and should be mindful that any emergency could involve a weapon of mass destruction, particularly unknown trouble, explosions or medical emergencies. It is imperative that the responding officer/supervisor solicit as much information as possible from MECC and/or victims and witnesses in order to properly ascertain whether the call may involve WMD materials.

Definitions:

Weapon of Mass Destruction: Any destructive item/device that incorporates explosives, toxic chemicals, biological materials, radiological materials, or nuclear materials, and is designed to inflict mass casualties and destruction of human life and/or property.

Biological Weapons: Items or devices containing disease-causing microorganisms or toxins derived from or produced by living organisms.

Chemical Weapons: Items or devices containing toxic chemicals designed to kill victims by attacking systems of the human body. Chemical agents include:

- Nerve Agents
- Blood Agents
- Choking Agents
- Blister Agents

Explosive/Incendiary Weapons: Items or devices that contain explosive or incendiary material and are designed to inflict injury and property damage.

Radiological Weapons: Items or devices that contain and emit radiation, causing immediate and long-term human tissue damage and health effects.

Nuclear Weapons: Items or devices containing radioactive nuclear material with the ability to cause widespread catastrophic explosive damage and a wide release of radioactive material.

WMD Incident: When a weapon of mass destruction has been used and/or a known chemical, biological, or radiological substance is present.

WMD Threat: Any threat received whether verbal, non-verbal, or written that indicates the potential use of chemical, biological, radiological, explosive/incendiary or nuclear weapons of mass destruction.

Suspicious Package/Device: Any package or device that is reported to be unusual in nature due to any of the following factors: location, size, shape, odor, wrapping, markings, no known origin, etc.

Suspicious Substance: Any substance that is emitted from or contained within a suspicious package. These substances may be liquid, solid or gas.

7-912.01 Weapons of Mass Destruction – Initial Response (11/27/02)

Responsibilities of first responding officer:

If an officer responds to an incident which involves chemical, biological, radiological, explosive/incendiary, or nuclear materials he/she should do the following:

- Notify MECC immediately that you suspect WMD materials and the type of material you suspect may be present.
- Relay signs and symptoms of victims to MECC.
- Be alert for visual signs of clouds of dust, liquid or gaseous materials in the area.
- Do not enter an area you believe to be contaminated.
- Take appropriate self-protection measures. Squad windows and air vents should be closed prior to responding to a suspected WMD incident. The squad PA system when possible, should be used to direct victims fleeing the incident to decontamination locations or areas where initial triage can safely occur outside the hot zone(s).
- Be aware of secondary devices that may be designed to kill/incapacitate first responders.
- Isolate area if possible.
- Stay upwind and uphill if possible.
- Do not perform first-aid on persons who you believe may have been exposed to chemical or radiological materials because you may become a victim yourself.
- Solicit as much information as possible from victims and/or witnesses.
- Take note of your surroundings and any suspicious persons, vehicles, aircraft, or incidents that may be present or occurring.

MECC Responsibilities:

If MECC believes that an incident may involve materials consistent with a weapon of mass destruction, an MPD supervisor shall be dispatched to the area with responding squads. MECC shall immediately make the below notifications and relay that there is a “potential WMD incident” and the type of incident if known.”

MECC required notifications are:

- Minneapolis Fire Department
- MPD Bomb Squad
- Watch Commander/Police Chief and Administration
- Local FBI Office
- State Duty Officer
- 55th WMD Civil Support Team (directly or through State Duty Officer)

The following information should be relayed as soon as it becomes available:

- Location of the incident
- Command post location
- Type and number of casualties if known
- Victim signs/symptoms if known
- Type of material suspected (i.e. chemical, biological, radiological, etc.)

Other notifications should be made as necessary consistent with the City of Minneapolis Emergency Plan.

Responsibilities of first responding supervisor:

Generally, the Minneapolis Fire Department will have overall command of a WMD incident until the scene is stabilized and victims are removed and/or decontaminated. The first responding MPD supervisor will be responsible for managing police resources until relieved by a higher ranking MPD official. The primary responsibility of the Minneapolis Police Department in response to a WMD incident is to establish and maintain a perimeter outside the contaminated area in order to accomplish the following objectives:

- Prevent other persons from entering the contaminated area;
- Prevent contaminated or potentially contaminated persons from leaving the area;
- Maintain crowd and traffic control outside the contaminated area;
- Preserve and protect the crime scene to the best of our ability.

MPD supervisors will work with the MFD incident commander to establish the following:

- Location of command post;
- Location of perimeter and hot, warm, and cold zones;
- Location of decontamination area and decontamination procedures;
- Location and availability of first aid;
- Necessary safety precautions for responding police officers such as personal protective equipment and the potential for secondary devices. Position personnel and vehicles appropriately.

Any incident involving a weapon of mass destruction will be managed using the City of Minneapolis Emergency Plan and the Minnesota Incident Management System (MIMS), which utilizes the principles and structure of the Incident Command System or ICS.

Note: Although the FBI is charged with crisis management for a WMD incident, they will rely on local first responders for initial management and response. The MPD will work with the FBI on additional considerations as necessary.

Decontamination Procedures:

If an officer believes that he/she may have been contaminated and/or is exhibiting symptoms of chemical or radiological material, he/she should notify dispatch or other first responders in the area if possible. The officer should proceed to a safe decontamination area if possible. Normal decontamination procedures include:

- Removal of all clothing;
- Showering with large amounts of water;
- Administration of prophylactics and/or drugs which can counter act the effects of chemical agents.

7-912.02 Weapons of Mass Destruction – Threats (11/27/02)

An officer may be dispatched to an incident in which use of a weapon of mass destruction has been threatened; however, no known event has occurred and there are no known casualties. If a suspicious substance or device is present and a threat has been received, officers should follow the guidelines listed below when responding to such incidents:

- Isolate the area and do not enter an area where a suspicious substance/device may be present.
- Notify MECC and request that a supervisor and the Bomb Squad respond.
- MFD HAZMAT should be requested if necessary.
- Keep those who have been potentially exposed to a suspicious substance isolated and at the scene until medical personnel have evaluated them or the incident has been deemed safe.
- If possible, those exposed should wash exposed areas with soap and water.
- Solicit as much information from witnesses about the threat and suspicious substance (i.e., suspect actions, substance color, odor, and form such as liquid, gas, solid, powder).
- If there is no suspicious package or device present, but a threat of a WMD incident has been received, the officer shall notify his/her supervisor and MECC. MECC shall notify the Watch Commander. An offense report titled “BOMBT” shall be completed immediately and forwarded to the Bomb/Arson Unit for investigation and further notification of the FBI if required.

7-913 Gas Masks/Respiratory Protective Equipment Program (01/29/04)

All MPD officers will be enrolled in the department's Respiratory Protective Equipment Program. Officers will go through a medical evaluation and a fit-testing procedure before being issued an Air Purifying Respirator (APR)/Gas Mask.

Only MPD-approved and issued APR's/Gas Masks will be used by officers. Officers must have their MPD-issued APR/Gas Mask available at all times. Officers on patrol shall carry the APR/Gas Mask with them in their squad. Officers will use their APR/Gas Masks whenever they feel it is needed to protect themselves or when ordered to do so by a supervisor.

APR/Gas Masks will only protect the respiratory system against a limited number of hazards. Officers must keep in mind that many agents such as nerve gas, mustard gas, anthrax, small pox and chlorine gas, to name a few, can also enter a person's system through contact with their skin or open wounds. Officers must keep these facts in mind when they are at a scene where chemical and/or biological agents may be present. Only a full chemical/biological suit can offer protection against most chemical/biological agents.

For the complete policy & procedure on the MPD's Respiratory Protection Program, it can be found on the MPD Net under "Manuals."

Persons With Disabilities and Limited English Proficiency

7-1001 Limited English Language Proficiency (LEP)

(02/08/96) (12/18/03) (12/05/08) (05/06/15)

(A-D)

I. Purpose

The purpose of this policy is to establish effective guidelines, consistent with Title VI of the Civil Rights Act of 1964 and the Omnibus Crime Control and Safe Streets Act, for Minneapolis Police Department (MPD) personnel to follow when providing services to, or interacting with individuals who have limited English proficiency.

The MPD recognizes the importance of effective and accurate communication between its employees and the community it serves. Language barriers can impede communication in a variety of ways. Language barriers can sometimes inhibit or even prohibit individuals with limited English proficiency from accessing and/or understanding important rights, obligations and services, or from communicating accurately and effectively in difficult situations. Hampered communication with LEP victims, witnesses, alleged suspects and community members can present the MPD with safety, evidentiary, and ethical challenges. Ensuring maximum communication ability between law enforcement and all segments of the community serves the interest of both.

II. Policy

It is the policy of the Minneapolis Police Department to take reasonable steps to provide timely, meaningful access to LEP persons with the services and benefits the MPD provides in all MPD conducted programs or activities.

All MPD personnel shall offer language assistance services to individuals whom they encounter and believe to be LEP, or whenever an LEP person requests language assistance services.

All MPD personnel will inform the public they encounter that language assistance services are available free of charge when using contracted City vendors.

III. Definitions

Bilingual: Is the ability to use two (2) languages fluently.

Interpretation: Is the act of listening to a communication in one language (source language) and orally converting it to another language (target language) while retaining the same meaning.

Language Identification Card: Language identification cards are used in face-to-face situations in order to determine which language a person speaks. The language identification card lists the languages most frequently encountered in Minneapolis. Language Identification Cards shall be readily accessible to MPD personnel in squad cars and in MPD areas accessible to the public.

Language Line: The City of Minneapolis Language Line provides phone interpretation services to residents who have questions about City services and functions. The Language Line should not be used for phone interpretation between police and LEP individuals.

Limited English Proficiency (LEP): Designates individuals whose primary language is not English and who have a limited ability to read, write, speak, or understand English. LEP individuals may be competent in certain types of communication (e.g. speaking or understanding), but still be LEP for other purposes (e.g. reading or writing). Similarly, LEP designations are context specific. An individual may possess sufficient English language skills to function in one setting, but may find these skills are insufficient in other situations.

Limited English Proficiency (LEP) Coordinator: The LEP Coordinator is an MPD employee who is responsible for coordinating all aspects of the LEP plan for the MPD to ensure meaningful access is available to LEP individuals and, to provide training and direction to MPD employees about when and how to access LEP services for an LEP individual.

Limited English Proficiency (LEP) Guide: The LEP Guide is a document for internal use only, that lists contracted City vendors who provide interpretation and translation services to the MPD. This document contains access codes and information that employees will need to give vendors for billing and can be found on MPD Net under “Manuals and Guides” or “Frequently Used”.

Primary Language: Means an individual’s native tongue or the language in which an individual most effectively communicates.

Translation: Is the replacement of written text from one language (source language) with written text from another language (target language) while retaining the same meaning.

IV. Procedure / Regulations

The language assistance services available to be used by MPD personnel include both in person and phone interpretation, translation, and American Sign Language.

A. Police Personnel in Need of Interpretation Services

1. Responding Police Personnel Responsibilities –

Police personnel in the field in need of interpretation services shall attempt to identify the LEP individual’s primary language by asking the LEP person what language they speak or by using the Language Identification Card. Once the language has been identified, police personnel shall contact a City vendor as outlined in this policy and the LEP Guide which is located on MPD Net under Manuals and Guides.

2. *Exigent Circumstances*

Exigent circumstances may require deviation from the general procedures outlined in this policy. In such situations, MPD personnel are to use the most reliable, temporary interpreter available, such as a bilingual MPD employee, a family member, friend, or bystander. Examples include but are not limited to: the need to obtain descriptive information on a fleeing suspect, or identifying information of an injured person. Once an exigency has passed all personnel shall revert to the general procedures in this directive.

3. *Family, Friends and Bystanders*

In other than exigent circumstances, MPD personnel should only use family, friends or bystanders for interpreting in informal, non-confrontational contexts, and only to obtain basic information at the request of the LEP person. Note the following:

- a. Using family, friends or bystanders to interpret could result in a breach of confidentiality, a conflict of interest, or an inadequate interpretation.
- b. Barring exigent circumstances, police personnel should not use minor children to provide interpreter services.
- c. An exception to this practice: Anyone of the LEP individual's choosing may represent him/her when filing a citizen complaint. If the LEP individual chooses someone other than a City vendor, the LEP individual is responsible for any charges incurred for the interpreter.

4. *Contracted Telephone Interpretation Services*

Contracted telephone interpretation services shall be available to assist all MPD personnel when interacting with LEP individuals.

- a. Police personnel in need of interpretation services shall attempt to identify the LEP individual's primary language through the use of the Language Identification Card, and shall notify the LEP individual that free interpretation services are available when using a City of Minneapolis vendor.
- b. Police personnel who believe they need to use interpreting services over the telephone shall contact a supervisor to make arrangements for use of a cell phone, if one is needed. If no cell phone is available for use, police personnel may transport the LEP individual to the precinct or other police facility to use a phone.
- c. Police personnel in need of interpretation services shall refer to the LEP Guide located on MPD Net under Manuals and Guides for specific contracted City vendors to use and to obtain necessary access codes.

- d. Police personnel shall record the interpreter's name, company affiliation, and date and time contacted in the investigative report and specifically note if the interpreter used is not a contracted City vendor.

5. *Contracted In-Person Interpretation Services*

Contracted in-person interpretation services shall be available to assist all MPD personnel when needed for interacting with LEP individuals. While contracted in-person interpreting services are available to all police personnel, it is best suited for investigative units operating under non-emergency situations, such as victim/witness interviews and criminal interrogations.

- a. Police personnel in need of interpretation services shall attempt to identify the LEP individual's primary language through the use of the Language Identification Card, and shall notify the LEP individual that free interpretation services are available when using a City of Minneapolis vendor.
- b. An authorized list of contracted in-person interpreters available shall be used by police personnel to obtain in-person interpreting services. Refer to the LEP Guide located on MPD Net under Manuals and Guides for the list of contracted vendors. The contracted in-person interpreter should be on location no more than two (2) hours from the time of the service's notification.
- c. Upon arrival of the interpreter, the officer/investigator shall record the interpreter's name and company affiliation in the investigative report along with the interpreter's arrival and departure times and the note the language being interpreted.
- d. Police personnel will ask all questions and/or give direction through the interpreter.
- e. Under no circumstances shall an interpreter independently question an LEP individual. The interpreter's role is to serve as a neutral third party, taking care not to insert his or her perspective into the communication between the parties.
- f. If the officer/investigator believes that there is any conflict of interest with the assigned interpreter, bias or any other reason why the interpreter should be excused, the highest ranking supervisor on location shall be consulted.
 - i. If that supervisor agrees that the concern is warranted, the interpretation service will be notified for another interpreter.
 - ii. Any time there may be a conflict of interest or bias on the part of the interpreter, the consulted supervisor shall forward a memorandum to the Division Commander and LEP Coordinator for the department.

6. *Translation of Documents*

- a. Investigators shall secure translation services through a contracted City vendor, noting in the investigative report the date, name of the vendor used and the document translated.
- b. Units having documents that need to be translated shall contact the LEP Coordinator who will secure translation services through a contracted City vendor. Refer to section E. 2.

B. Interrogation, Interviews and Complaints

1. *Criminal Interrogations*

A failure to protect the rights of LEP individuals during an interrogation risks the integrity of any investigation. Police personnel must recognize that miscommunication during interrogations may have a substantial impact on the evidence presented in any related criminal prosecution, and may adversely affect a suspect's legal rights. Therefore, qualified interpreters shall be used for all interrogations of LEP individuals.

- a. Because of the dual role a bilingual law enforcement officer may have when conducting interrogations and acting as an interpreter, bilingual officers shall not be used as interpreters during investigation.
- b. A contracted, in-person interpretation service shall be used as outlined in the LEP Guide available on MPD Net under Manuals and Guides.
- c. Vital written materials will be available to the suspect, victim or witness in his or her primary language. If needed forms are not available in the individual's primary language and in the case of illiteracy, forms will be read to the suspect, victim or witness in his or her primary language using the contracted interpretation services.

2. *Crime Witness Interviews*

Accuracy is a priority as these scenarios potentially involve statements with evidentiary value by which a witness may be impeached in court. Accordingly, a certified interpretation service may be used when taking any formal statement or conducting any interview, as outlined in the LEP Guide available on MPD Net under Manuals and Guides.

3. *Complaint Procedures for LEP Persons*

Any LEP individual who wishes to file a complaint with the MPD or Office of Police Conduct Review (OPCR) regarding language access or the discharge of Departmental duties, shall be provided with translated complaint forms in their primary language. Police personnel may obtain an electronic copy of the translated forms from MPD Net

under “Forms”, or direct the LEP individual to the MPD public website where the forms can be found under “On-line Services – Translated Forms”.

- a. The assigned Internal Affairs or OPCR investigator shall use the contracted, in-person interpretation service, as outlined in this policy and the LEP Guide.
- b. Internal Affairs or OPCR shall provide written notice of the disposition of any LEP complaint in the complainant’s primary language.

C. Notifying the Public About Departmental Language Services
(05/06/15)

1. Signs shall be posted in the most commonly spoken languages at each police building with direct public access or lobby, stating that interpreters are available free of charge to LEP individuals, when using a contracted City vendor.
2. Language Identification Cards and Notice of Free Interpretation Services shall be readily accessible to MPD employees working at public access points and in any MPD vehicle used for transporting individuals to or from an MPD office, facility or crime scene.
3. The commanding officers of all precincts and units with direct public access shall ensure that the signs are posted and visible to the general public.
4. Each MPD Division or Unit shall maintain and have available hard copies of translated public forms and documents for LEP individuals. These documents and forms along with available languages shall be listed on the MPD public website under Forms>Translated Forms.

D. Training – Language Assistance Policy and Interpreter Skills
(05/06/15)

1. The MPD will provide periodic training to personnel about the Department’s LEP policies, including how to access departmentally authorized telephonic and in-person interpreters.
2. The MPD shall conduct such training for new recruits and at in-service training and Roll Call for officers at least every two (2) years.
3. Training shall initially be conducted within 180 days of the effective date of this Directive.

E. Monitoring And Updating Language Assistance Efforts
(05/06/15)

1. LEP Coordinator:

The Chief of Police will appoint an LEP Coordinator who is responsible for coordinating and implementing all aspects of the MPD's LEP policy. The LEP Coordinator will serve as the contact person for MPD employees with questions about or issues related to providing language assistance to LEP individuals.

2. Documents:

- a. The LEP Coordinator shall be responsible for initially reviewing, identifying and classifying all MPD documents as vital or non-vital for each unit, then annually reviewing all new documents issued by the MPD to assess whether they should be considered vital documents and be translated.
 - i. New and updated forms or documents shall be submitted electronically to the LEP Coordinator who will assign an MPD form number, maintain the electronic original and process the request to get the forms translated.
 - ii. Updates to and creation of the forms shall be the responsibility of the Unit who primarily uses the forms
- b. All translated documents and forms shall be available electronically on the public MPD website.
- c. Divisions or Units with forms that have been identified as vital documents shall have paper copies of the translated forms available for the public.
- d. The LEP Coordinator is responsible for working with contracted vendors to create additional access codes.

3. Training:

The LEP Coordinator will assist Leadership and Organizational Development with developing a lesson plan for training MPD employees on the LEP policy and how to access and use language assistance services.

4. Collection of LEP Contact Data:

The LEP Coordinator will be responsible for collecting information on the LEP individuals that have come in contact with the MPD. This data may be collected through the review of billing statements submitted by the contracted telephonic and in-person service providers.

5. Tracking and Analysis of LEP Data:

The Chief or his/her designee shall be responsible for assessing demographic data to ensure that the MPD is providing meaningful access for LEP persons to the services and

benefits that MPD provides in all MPD-conducted programs or activities. This assessment and consultation shall be conducted in coordination with the LEP Coordinator.

7-1002 Communicating With Deaf or Hard of Hearing Individuals
(02/08/96) (12/05/08) (05/06/15)

(A)

It is the policy of the Minneapolis Police Department that American Sign Language interpreters will be provided to deaf or hard of hearing individuals who request them. Upon becoming aware that a person may be deaf or hard of hearing, MPD employees must inform the person that sign language interpreters are available at no cost and that it may take up to an hour for an interpreter to arrive. Employees should also ask the deaf or hard of hearing person what kind of interpreter or auxiliary aid he/she needs to communicate.

If a deaf or hard of hearing person suggests a mode of communication, MPD employees should try to accommodate the suggestion. Employees shall not require the deaf or hard of hearing person's friend or family member to interpret on his/her behalf.

If it is determined that an interpreter is needed, employees shall refer to the LEP Guide located on MPD Net under Manuals and Guides for specific contracted City vendors to request the interpreter service. If no immediate police action is required, employees may offer to schedule an interview or appointment to include an interpreter, for a later mutually agreeable date and time.

Before an interpreter arrives, employees should not take a suspect's statement, give Miranda warnings or have any other conversation which may be used in a court of law. During exigent circumstances, an interpreter will be offered after the exigency ends.

Officers assigned to 911 response cars have the discretion to determine whether to stay with the deaf or hard of hearing person while waiting for an interpreter to arrive. If there is no immediate threat of danger and the person has requested an interpreter, officers should direct them to go the nearest precinct where the interview will take place upon arrival of the interpreter. Officers shall return to the precinct when the deaf or hard of hearing person and the interpreter are present.

Upon encountering a deaf or hard of hearing person, officers should note the person's deafness in the CAPRS report. Any actions taken to accommodate suggestions made in order to facilitate communication should also be noted. If an interpreter was requested, the CAPRS report should include the time the interpreter was requested and the time the interpreter began interpreting. In addition, issues or problems that arise as a result of attempts to provide a qualified interpreter should be documented in the CAPRS report, if applicable, and the LEP Coordinator shall be notified via phone (673-2338), memo, or email.

MPD employees should direct questions and concerns regarding communication with deaf or hard of hearing individuals to the LEP Coordinator.

Communication Guidelines

In general, when communicating with deaf or hard of hearing individuals in the absence of an interpreter, employees should be aware of the following:

- Face the person; get his/her attention. Face the light.
- Communicate with the deaf or hard of hearing person directly; maintain eye contact.
- Use gestures and facial expressions. Do not restrict the use of both arms (unless necessary for officer safety).
- Offer the person a pencil and paper, or if available, use a computer. (02/08/96) (12/05/08)
- Written communications may require more effort to understand. American Sign Language is a language with different sentence structure and word usage than the English language. (02/08/96) (12/05/08)

7-1002.01 Arrest or Detention of Person Handicapped in Communication
(05/06/15)

(A)

Minn. Stat. 611.32 subd.2 requires law enforcement agencies to immediately make contacts to obtain a qualified interpreter whenever a person who is handicapped in communication is apprehended or arrested for a crime. An arrested person has the right to an interpreter to explain all charges filed against the person and to explain all procedures relating to the person's detainment and release. The interpreter will also assist with any other necessary communications (arrangements for medical attention, etc.).

When arresting a person who is deaf or hard of hearing who communicates through sign language, the officer shall immediately refer to the LEP Guide located on MPD Net under Manuals and Guides for specific contracted City vendors and arrange for a sign language interpreter to interpret for the arrestee at the place of detention. Upon arrival at the place of detention, detention center personnel shall be informed that the person is deaf or hard of hearing and that a sign language interpreter will arrive to communicate with the arrestee. This notification shall be recorded on the arrest report. Officers do not have to wait at the detention center for the interpreter to arrive, however should request that they are notified when the interpreter has arrived. (02/08/96) (05/06/15)

7-1003 Transportation of Persons With Disabilities in Wheelchairs
(06/19/94) (11/06/07) (05/06/15)

Special consideration is required when transporting a person with a disability who is in a wheelchair. When disabled persons in wheelchairs are arrested, are taken to Detox, or require placement on a health and welfare hold at HCMC, such persons will be transported by squad car whenever possible. However, prior to transport officers shall ask the disabled person if there is any medical reason they cannot be removed from their wheelchair for transport by squad.

If the person says they cannot be removed from their wheelchair, then special transportation by lift-van shall be made. A vehicle with a hydraulic lift is available through the Traffic Control Office, weekdays before 1530 hours. Officers shall contact the Traffic Control Street Supervisor at (612)335-5932, who will transport the wheelchair/arrested person. The officer requesting the Traffic Control lift-van shall give the Traffic Control Supervisor their name, badge number, squad number, and address where the arrested person/wheelchair is to be taken. One officer is required to accompany the person in the lift-van if the person is under arrest. Officers are not required to accompany the transport of just the wheelchair. (11/06/07) (12/14/07)

After 1530 hours and on weekends officers may obtain use of the hydraulic lift vehicle through the 1st Precinct. The key for the vehicle along with specific instructions for locating the van and operating the hydraulic lift are available at the 1st Precinct. Questions should be directed to 1st Precinct personnel, who have been trained in the procedure for transporting wheelchairs. 1st Precinct personnel will provide assistance to officers regarding use of the equipment, but are not responsible for transporting the arrested persons for other precincts. (11/06/07) (12/14/07)

If the person says they can be removed from their wheelchair, Officers will assist the disabled person into the squad, using care and caution. (08/27/95) (11/06/07)

When officers have had recent contact with the disabled person to be transported and have knowledge that there is no medical reason the person is not able to be removed from their wheelchair, the person may be transported by squad.

All wheelchairs shall be taken to the transport location of the disabled person, with collapsible wheelchairs transported in the trunk of the squad. When a person with a motorized wheelchair is transported by squad, the lift-van shall be called and directed to transport the wheelchair to the disabled person's location.

Officers may contact MECC to make arrangements for the arrival of the disabled person at the appropriate detox or detention facility, or they may contact the facility on their own. (03/18/96) (11/06/07)

Transport of Arrestee - When transport is needed to the detention facility, officers should contact or request that MECC contact the Jail Intake Supervisor for arrangements to book the arrestee as soon as possible. The Jail Intake Supervisor can be contacted at (612)596-8010. (03/18/96) (11/06/07)

Transport to Detox - When transport is needed to a detox facility, officers should request that MECC contact a supervisor at 1010 Currie for admission of the person. 1010 Currie is the preferred location because it is more wheelchair accessible. If 1010 Currie cannot accept the person, their staff supervisor should be able to direct the transport to another appropriate shelter facility. Ideally these arrangements should be made prior to the arrival of the lift-van service. The lift-van driver can then be directed to the pre-arranged facility. The phone number for 1010 Currie is 379-3646. (03/18/96) (11/06/07)

Officers shall follow department searching and restraining procedures when dealing with disabled persons in wheelchairs. Extra care shall be exercised during these procedures due to the arrestee's physical and/or medical conditions.

Exposure to Blood Borne and Airborne Pathogens

7-2001 Exposure to Blood Borne and Air Borne Pathogens (04/22/09)

Officers may be called upon to directly interact with persons who are known or suspected of having communicable infectious diseases. Such interactions may occur when officers are acting as first responders, when they are called upon to transport possibly infectious persons, or to enforce isolation or quarantine orders. Other MPD employees might have contact with contaminated clothing or other personal effects of infected persons as a result of these officer contacts.

The policy of the Minneapolis Police Department regarding exposure to blood borne and air borne pathogens in the occupational setting is to provide precautions and preventative measures, offer testing, counseling and follow-up for employees exposed in the course of their work for the MPD.

The following sections provide Occupational Safety and Health Administration (OSHA) and Minnesota Department of Health (MDH) guidelines for MPD employees. These guidelines should be followed to prevent exposures and provide a post-exposure plan in the event an employee suffers a significant exposure.

7-2002 Exposure Terms and Definitions (04/22/09)

AIDS: Acquired Immune Deficiency Syndrome – This virus attacks a person's immune system and reduces the ability to fight other diseases. AIDS is the final stage of HIV (Human Immunodeficiency Virus) infection.

Bloodborne Pathogen: Pathogenic microorganisms present in human blood that cause disease. These pathogens include, but are not limited to, hepatitis B virus (HBV), hepatitis C virus (HBC), and human immunodeficiency virus (HIV).

Body Fluids: Body fluids include but are not limited to blood, semen, vaginal secretions, breast milk, amniotic fluid, urine, saliva, vomit and stool.

Health and Wellness Coordinator: The MPD's Health and Wellness Coordinator is the designated point of contact for communications between Hennepin County Medical Center's (or other clinic/local hospital) Infection Control Unit and the MPD.

HBV: Hepatitis B Virus – A viral infection that can result in jaundice, cirrhosis, and cancer of the liver. The virus causes HBV and may be found in blood, urine, semen, vaginal secretions and saliva. It may be transmitted by direct contact with infected persons and through needle sticks or sharps exposures.

HCV: Hepatitis C Virus – A viral infection that can result in chronic infection, cirrhosis and liver disease. Infection occurs when blood from an infected person enters the body of a person who is not infected. HCV is spread through sharing needles and through needle sticks or sharps exposures.

HIV: Human Immunodeficiency Virus – HIV is the virus that causes AIDS (Acquired Immune Deficiency Syndrome). HIV may be transmitted from one person to another primarily through sexual contact or through the sharing of intravenous drug needles. It may also be transmitted by coming into direct contact with an infected person; i.e. an officer with a cut or sore on their hand gets blood on that hand while rendering first aid.

Influenza: Influenza (the flu) is a contagious respiratory illness caused by influenza viruses. It can cause mild to severe illness and can lead to death. Influenza is transmitted from person to person in respiratory droplets of coughs and sneezes. It may also be spread when a person touches respiratory droplets on another person or an object and then touches their own mouth or nose (or someone else's mouth or nose) before washing their hands.

Infected adults infect others a day before symptoms develop and up to five days after becoming sick. Children may pass the virus for longer than seven days. Symptoms start one to four days after the virus enters the body.

Meningitis: An inflammation of the membranes that envelop the brain and spinal cord. Meningitis may be contracted through direct contact with an infected person's respiratory secretion.

Personal Protective Equipment (PPE): Personal protective equipment is specialized clothing or equipment used by workers to protect themselves from direct exposure to blood or other potentially infectious materials. It includes, but is not limited to, protective disposable gloves, masks, goggles, boots, gowns and resuscitation masks.

Significant Exposure: Having sustained a contact which carries a potential for a transmission of bloodborne pathogens by one or more of the following means:

- A skin puncture by a needle or sharp object that has had contact with blood or body fluid from another person;
- Blood or bodily fluids of another person in contact with the mucus membranes or eyes;
- Any contamination of open skin (cuts, abrasions, blisters, open dermatitis) by blood or body fluids, or bites that break the skin;
- Blood or blood containing fluids in contact with skin longer than 5 minutes;

Note: Fluids such as urine, saliva, vomit and stool are considered significant only when they contain visible blood.

Significant exposure to diseases communicable by airborne transmission (including tuberculosis, chicken pox, measles, and pertussis) will be confirmed and follow-up will be determined with the help of Public Health.

Source Individual (SI): An individual, living or dead, whose blood, tissue, or potentially infectious body fluids may be a source of bloodborne pathogen exposure to another person. Examples include, but are not limited to, a victim of an accident, injury or illness, or a deceased person.

Tuberculosis: Bacterial disease causing swelling and lesions in the tissue of the lung. The most common means of exposure is by inhaling airborne particles from the cough of an infected person. Transmission may occur after being in a non-ventilated area for an extended period of time with an infected person. In rare cases, this bacterial disease can be transmitted through the saliva, urine, blood and in some cases, other body fluids of infected persons.

Universal Precautions: Precautions designed for infection control. Under Universal Precautions, blood and certain body fluids of all individuals are considered potentially infectious for HIV, HBV and other blood borne pathogens. Universal Precautions must be posted in a central area at all precincts and division locations.

7-2003 Bloodborne/Airborne Pathogen Information and Training (04/22/09)

Training on the Department's Exposure Control Plan, information regarding Hepatitis B vaccinations and basic use of Personal Protective Equipment (PPE) shall be provided to all new hire personnel in at-risk assignments within a reasonable period of time of beginning employment.

The MPD Training Unit and the MPD Health & Wellness Coordinator can be utilized as a resource for employees seeking additional information/materials regarding Universal Precautions and blood/air borne pathogens in the workplace.

7-2004 Employee Vaccinations (04/22/09)

Hepatitis B vaccinations are available to all MPD employees at no cost. To arrange for obtaining a vaccination, contact the MPD Health and Wellness Coordinator or the MPD Training Unit.

7-2005 Personal Protective Equipment (04/22/09)

Use of Personal Protective Equipment (PPE) is recommended and strongly encouraged in any situation which the employee believes an exposure to blood borne and/or airborne pathogens may occur. PPE may be obtained through MPD Stores and at each precinct.

7-2006 General Practices for Exposure Control

(04/22/09)

When possible, all MPD employees shall practice Universal Precautions to reduce the risk of infection by blood borne pathogens. Universal Precautions shall be used for all activities involving contact with blood, tissue, body fluids, equipment and materials that may be contaminated by infectious disease.

All MPD employees are responsible for ensuring that the following Universal Precautions and policies are followed when interacting with any potentially infectious individuals or handling potentially infectious materials:

1. Employees shall not eat, drink or smoke in work areas or at crime scenes where bodily fluids are present or other contagious factors exist.
2. Food and drink shall not be kept in refrigerators, freezers, shelves, cabinets or on countertops where blood or other potentially infectious materials are present.
3. Employees shall wash their hands and any other skin with soap and water, or flush mucus membranes with water immediately or as soon as feasible following contact of such body areas with blood or other potentially infectious materials.
4. Contaminated needles and other contaminated sharps shall be properly disposed of in a “sharps” container or stored in leak-proof, puncture resistant packaging if needed to preserve for evidentiary purposes.
5. Property and evidence containing blood and/or body fluids or other potentially infectious materials shall be placed in a container which prevents leakage during collection, handling, processing, transport and storage. The container used for transport or storage shall be labeled or clearly marked in such a way that it is evident that blood, body fluids or other potentially infectious materials are inside.
6. All handling or decontamination of items contaminated with blood or other potentially infectious materials shall be performed in such a manner as to minimize splashing, spraying, spattering and generation of droplets of these substances.
7. Sworn MPD employees have an obligation to inform other support personnel (MPD civilians, firefighters, paramedics, etc.) whenever a subject has blood or bodily fluids on his/her person, or if the subject has made a voluntary statement that he/she has a contagious disease.
8. Sworn MPD employees shall indicate in the CAPRS report when an individual taken into custody makes a voluntary statement that he/she has an infectious disease. A notation shall also be made in the related supplements when a subject has blood or bodily fluids on his/her person or clothing.

9. Employees shall not refuse to work with or handle any individual – victim, complainant or suspect because of the employee's fears of possible infection.
10. Employees shall not refuse to arrest or otherwise refuse to handle any person in a legitimate law enforcement context, provided that appropriate protective equipment is available.
11. Employees shall use appropriate PPE unless it is the employee's professional judgment that in a specific instance its use would prevent the delivery of public safety services or it would pose an increased hazard to the safety of the employee or a co-worker. When the employee makes this judgment, the circumstances shall be documented in CAPRS and with a Supervisor's Report of Injury to be reviewed by the employee's supervisor in order to determine whether changes can be instituted to prevent such occurrences in the future.
12. Employees should be aware that certain prescribed medications, such as steroids and asthma medications, can suppress their immune systems increasing their susceptibility to infectious diseases. Employees should consult with their physician if they are taking prescription drugs.

7-2007 Decontamination of Employee and Equipment

(04/22/09)

MPD employees shall use the following OSHA approved cleaning procedures when disinfecting or decontaminating themselves or equipment while on-duty.

Hand Decontamination

- Wash hands completely with soap and water.
- Rinse completely; dry with a clean towel or air dry.

Clothing, Tool/Equipment Decontamination

- Mix 1/4 cup bleach per gallon of water. (**Note:** More bleach is not better.)
- Immerse objects in solution for 10 minutes; if clothing, gently agitate periodically. (**Note:** Dark clothing/fabric may produce bleach spots.)
- Transfer objects to a soap and water solution for 10 minutes; if clothing, gently agitate periodically.
- Allow clothes and tools/equipment to thoroughly air dry before re-use.

Severe Surface Decontamination

- Use for decontaminating only the most seriously affected surfaces.
- Mix 1 ½ cups bleach per gallon of water.
- Douse surfaces with heavy contamination and allow to sit for 3 minutes.

- Wipe the contamination from the surface with a paper towel and douse the surface again but use the hand wash solution.
- Wipe off residual contamination with a paper towel.

Important Considerations

- Use gloves and eye protection.
- Prepare bleach solutions daily and allow to stand for at least 30 minutes before use.
- All containers should be labeled "Bleach-disinfected water, **Do Not Drink** "
- Do not mix bleach with products containing ammonia.
- **Do Not Immerse Electrical or Battery Operated Tools/Equipment in Solutions**; clean exterior with a rag soaked with soap and water or disinfectant solution.

7-2008 Decontamination of Police Vehicles (04/22/09)

Any police vehicle which has been contaminated by bodily fluids shall be taken to the Royalston Police Garage for proper biohazard decontamination. MPD employees shall not attempt to clean vehicles themselves.

Employees shall follow the standard vehicle drop-off procedure when leaving a vehicle for cleaning, including notifying the front desk during shop hours and displaying a notice on the dash of the vehicle indicating the biohazard status.

7-2009 Waste and Medical Debris Used at Crime Scenes and Traffic Accidents (04/22/09)

MPD employees are responsible for removing any non-biohazard items at a crime scene or traffic accident. This includes properly disposing of rubber gloves and crime scene tape.

Minneapolis Fire Department (MFD) personnel are responsible for removing any medical debris, blood and other bodily fluids from a crime scene, traffic accident, or in public places such as sidewalks and streets, and decontaminating the area.

The MPD on- scene supervisor or senior officer may request MFD Personnel to leave the crime scene/accident scene intact during a prolonged investigation of the crime/accident scene.

The MPD on-scene supervisor or senior officer shall contact the MFD via MECC to make necessary arrangements for calling MFD personnel back to the scene to remove medical debris, blood, or body fluids upon completion of the investigation.

A police officer shall remain on the scene for security purposes until MFD personnel completely remove the medical debris, blood or body fluids.

7-2009.01 Removal of Waste, Blood, and Body Fluids From Locations Other Than Public Places

(04/22/09)

MPD is not responsible for the cleaning or repair of a crime scene after it has been processed.

7-2010 Disposal of Contaminated Materials

(04/22/09)

MPD units which accumulate/generate biohazard materials shall properly dispose of such materials (not including chemical waste) by transporting the waste to the Minneapolis Public Service Center Laboratory, Room 523. All waste shall be clearly marked by affixing warning labels or biohazard symbols to any containers or waste involving body fluids or associated materials.

Chemical waste shall be disposed of only by use of an approved vendor. Contact the City's Purchasing Department for assistance.

7-2011 Contacting a Medical Facility for Patient Information

(04/22/09)

Per HIPAA laws, medical facility staff shall not release confidential patient data. Questions relating to the diagnosis of a patient who may have a potentially contagious disease or infection and with whom MPD employees may have been exposed shall be directed to the MPD Health and Wellness Coordinator. The MPD Health and Wellness Coordinator will liaison with the Infection Control Unit of the medical facility to determine if the patient's medical status poses a risk of significant exposure to the MPD employee.

7-2012 When a Significant Exposure is Suspected: Actions of Employee

(04/22/09)

In the event of a significant exposure, the employee should do the following:

1. Seek initial medical examination with Occupational Medicine Consultants or HCMC ER; (08/05/13)
 - a. The employee may obtain testing, counseling, and follow-up services through their own medical provider;
 - b. Refer to the Checklist for Work-Related Injuries (08/05/13)
2. Complete a Supervisor's Report of Injury (IOD) form and submit it to their immediate supervisor.

Note: Employees may be responsible for medical expenses incurred if Worker's Compensation guidelines are not followed and/or Worker's Compensation does not accept the claim.

7-2013 Significant Exposure: Actions Taken by Medical Facility
(04/22/09)

If a physician determines that the MPD employee has suffered a "significant exposure" and the source individual is receiving treatment at a medical facility or is in-custody at the Hennepin County Jail, the medical facility will contact the source individual to obtain consent for a blood draw from the source individual (SI).

If the SI is not receiving treatment at the medical facility, the medical facility will make reasonable efforts to locate the SI and obtain consent. If the medical facility cannot identify or locate the SI, a representative from the Infection Control Unit will contact the MPD's Health and Wellness Coordinator to inform the MPD the SI has not been contacted. The MPD may initiate actions to identify or locate the SI after receiving such notice.

7-2014 Consent for Blood Draw Initiated by MPD
(04/22/09)

If the medical facility cannot identify or locate the SI but MPD subsequently identifies and locates the SI, a consent for blood draw may be initiated by the MPD.

A consent for blood draw must be coordinated by the Precinct/Division Commander (or designee) and the MPD Health and Wellness Coordinator (or their alternate). The Precinct/Division Commander and Health and Wellness Coordinator will coordinate contact with the SI to obtain consent only under the following conditions:

1. A physician determines that an MPD employee has suffered a significant exposure, and;
2. The SI is not at the medical facility, and;
3. The medical facility cannot identify or locate the SI.

When all of the above conditions are met and the MPD has identified and located the SI, the Precinct Commander (or designee) will initiate contact with the SI to obtain consent. The following steps should be taken;

1. The Consent for Blood Draw Form (MP-8861) should be read to the SI, using a language translator if necessary. The SI should be informed they have the right to refuse testing and that any test will be paid for by the MPD;
2. If the SI gives consent by signing the Consent for Blood Draw Form (MP-8861), the MPD may transport the SI to and from an appropriate medical facility;

3. If the SI refuses consent, indicate their refusal on the Consent for Blood Draw form (MP-8861) and include any other information/notes;
4. Forward the Consent for Blood Draw Form (MP-8861) to the Health & Wellness Coordinator.

7-2015 Seeking a Court Ordered Blood Draw
(04/22/09)

If the Precinct/Division Commander and Health and Wellness Coordinator determine that a court ordered blood draw is necessary, they shall contact the city attorney who will petition the Hennepin County District Court for a court ordered blood draw.

- ii. If the missing child is determined to be "at-risk," the officers shall contact and inform the on-duty Precinct Shift Supervisor of the circumstances.
- iii. The officers shall describe the reasons for their determination in their Police Report.
- iv. The code ARMISP shall be used for the Police Report if the missing child is determined to be "at-risk."

d. Complete a report

- iv. At the time the missing child is found or located, contact MECC to provide a brief summary and request MECC make required notifications.
- e. The “at-risk” missing child case shall be noted on the Watch Commander Log and the Precinct shift bullets.

B. Investigating Missing Juveniles

1. Investigator responsibilities

The Juvenile Missing and Absentee Investigations unit shall be responsible for the follow-up investigations on all juvenile missing person cases. Once an investigator is assigned a missing person case, the investigator shall:

C. Located/Returned Juveniles

1. MECC notified directly

- a. When MECC receives notification that a missing juvenile who is considered “high risk” has returned or been located, they will immediately dispatch a squad to the incident address to verify that the missing juvenile has returned. “High risk” generally includes many of the “at-risk” factors, particularly age, significant physical or mental disabilities or factors related to situations such as trafficking, abduction, etc.
- b. Upon verifying the juvenile has returned, the officer shall ensure that MECC Channel 7 is notified so that MECC can remove the juvenile from NCIC. MECC will remove the juvenile from NCIC within 24 hours from receiving notification the juvenile has returned.

Amber Alerts

(05/19/05) (10/07/08) (10/10/22)

I. Purpose

In child abductions, getting critical information out to as many people as possible as fast as possible is the best way to help bring about the child's safe and swift return.

II. Policy

A. BCA issues Amber Alerts

The BCA has sole discretion to issue Amber Alerts.

B. Requesting an Amber Alert Broadcast

To request an Amber Alert Broadcast the following criteria must be met:

1. The missing child is a victim of an abduction (parental or non-parental) or a runaway, and is 17 years of age or younger.
2. The child is believed to be in imminent danger of serious bodily harm or death.

3. There is information available to disseminate to the general public, which could assist with the safe recovery of the victim or the apprehension of the suspect.
4. The missing child has been entered in NCIC.

C. Activating the MN Crime Alert Network

In cases where Amber Alert criteria are not met but the general public, other law enforcement agencies, businesses and the media could assist in locating the missing individual, the MN Crime Alert Network (MNCAN) may be activated. To request activation of the MNCAN officers should contact the BCA.

III. Procedures

A. Notify supervisor and begin search

In instances when an Amber Alert may be warranted, officers shall notify their supervisor and begin an immediate search for the missing child.

B. Notify Watch Commander or Car 710

If it is immediately known that all criteria for an Amber Alert are met, the on-scene supervisor shall notify the Watch Commander or Car 710. The Watch Commander or Car 710 will decide if an Amber Alert Broadcast should be requested, and shall coordinate departmental notifications.

C. Contact BCA

To request an Amber Alert, a supervisor shall contact the BCA Communications Center at 651-793-7000 and request an Amber Alert Broadcast, providing the following information:

I. Purpose

The Minneapolis Police Department is committed to reducing youth violence through a number of measures, including curfew enforcement.

II. Policy

The City of Minneapolis has adopted the Countywide Curfew Ordinance #16.

III. Procedures**A. Under Age 10**

1. Curfew violators under the age of 10 shall be taken into custody if a parent or legal guardian cannot be located.
2. Officers shall contact First Response to determine where the child will be placed.
3. All juveniles under 10 who are stopped for curfew shall not be listed as Arrested Persons.

B. Over Age 10

1. Curfew violators over the age of 10 may be issued a Juvenile Citation and released to a parent or legal guardian.
2. If the juvenile cannot be released to a parent or legal guardian, the juvenile shall be transported to the Youth Connection Center.
3. When a juvenile is cited for curfew violation, officers shall complete a Police Report with the code CURFEW, and document to whom the juvenile was released.

Juveniles detained for truancy offenses shall be delivered to the assigned School Resource Officer (SRO) or to a school staffer, when possible; otherwise, juveniles detained for truancy offenses shall be taken to the Youth Connection Center.

8-205**Health and Welfare Holds for Juveniles**

(10/06/08) (10/10/22)

I. Purpose

The purpose of this policy is to establish guidelines for placing health and welfare holds on juveniles.

II. Policy

A. Situations involving juveniles in crisis

1. Situations involving juveniles in crisis shall be handled in accordance with P&P 7-809, including the potential need for a Transport Hold.
2. Health and Welfare 72-Hour Holds are distinct from Transport Holds for individuals in crisis. If a child or juvenile in crisis is going to be transported in accordance with the section in P&P 7-809 on Transportation for Emergency Admission, and is found in surroundings or conditions meeting the criteria of MN Statute section 260C.175, determinations for a Health and Welfare Hold will have to be made at the health care facility.

B. Officer responsibility

1. The decision to place a child on a Health and Welfare 72-hour Hold is solely the responsibility of the officer placing the hold. MN Statute section 260C.175 allows only a peace officer or judge (via court order), to take a child into immediate custody “when a child is found in surroundings or conditions which endanger the child’s health or welfare, or which such peace officer reasonably believes will endanger the child's health or welfare.”
2. Social workers may only *request* that a child is placed on a Health and Welfare Hold. Officers dispatched to place a child on a Health and Welfare Hold at the request of medical personnel or social services shall document the circumstances, surroundings, or conditions which necessitate the hold be placed. This must be done to ensure that the hold is legal.

C. Decision not based on cooperation

The decision to place a Health and Welfare Hold on a child shall not be based upon a parent or legal guardian’s cooperation (or lack of) with any police investigation.

III. Procedures

A. List of Child Welfare Services

MN Statute section 260C.175 mandates that whenever a law enforcement officer takes a child into custody in regard to a health and welfare hold, the officer must provide the parent or legal guardian a list of social service agencies that offer child welfare services. If the parent or legal guardian is not present, a copy of the “Rights as Parents” brochure shall be left in a conspicuous location on the premises. This brochure is available in multiple languages on the MPD’s intranet site.

B. Hold Process

If officers determine it is necessary to place a Health and Welfare Hold on a child, the following procedures shall be followed:

1. Complete Hold Notice

- a. Complete the Notice of 72-Hour Police Health and Welfare Hold (HC 12434).
- b. When a child is admitted to a hospital for care, a copy of the 72-Hour Hold shall be left in an envelope with the child's chart. Officers should complete the 72-Hour Hold by listing "HCMC" (or other local hospital name) **and** the Children and Family Services coordination center as the receiving facility in order to avoid the need for a separate 72-Hour Hold to be completed.
- c. The blue copy or printout of the electronic version of the 72-Hour Hold shall be forwarded to First Response at the 4th Precinct and the canary copy of the 72-Hour Hold shall be forwarded to the Crimes Against Children unit.

2. Provide Notice and Resource List to Parent or Guardian

The copy of the "brochure" listing of social service agencies and the pink copy or printout of the electronic version of the 72-Hour Hold shall be given to the parent or guardian or posted conspicuously in the home if the parent or guardian is not available. Officers shall document in the Police Report where the notices were left.

3. Contact CPS

- a. Contact Child Protection Services Intake at 612-348-3552 to advise the hold and to receive information regarding the transport destination.
- b. CPS staff will determine whether the child will be transported or if a Rapid Response CPS staff member will respond to the scene and take custody of the child to process the hold (response time is generally within an hour).
- c. If the child will be transported, CPS staff will let the officer know where to bring the child (such as an out-of-home placement or a family placement per an investigation).
- d. If the officer is unable to reach CPS, or CPS could not find a suitable transport destination, the child should be transported to the Fairview University of Minnesota Masonic Children's hospital.

4. Transports to Hospital

- a. Transport for medical attention
 - i. If the child requires medical attention or a medical assessment, officers shall transport the child to Hennepin County Medical Center (HCMC) whenever

possible, using an ambulance if necessary. If the child is transported via ambulance, an officer shall accompany the child in the ambulance.

- ii. An officer shall stay with the child at the hospital until relieved by an investigator from the Crimes Against Children unit or Car 710.

b. Transport due to neglect or unsafe surroundings

If a child must be transported to a hospital because the officer could not reach CPS or CPS could not find a suitable destination, and the child cannot safely care for themselves in the current surroundings, the officer should transport the child to the Fairview University of Minnesota Masonic Children's hospital.

c. Form completion

In accordance with the section on completing the Hold Notice, the officer shall list both the hospital and the Children and Family Services coordination center as the receiving facility in order to avoid the need for a separate 72-Hour Hold to be completed. A copy of the form shall be left with the child's chart.

5. Contact MECC

Contact MECC and provide the nature of the incident and the location where the child is being transported to help prevent a Missing Juvenile Report from being filed when not appropriate.

6. Complete a Report

Police Report with the code HLTWEL shall be completed. Officers shall articulate the reasons for the Health and Welfare Hold and state what crime was committed: neglect, medical neglect, child endangerment, criminal sexual conduct, malicious punishment or deprivation of parental rights.

C. Releasing the Hold

1. The "police hold" can be released before the 72-hour period expires.
2. The procedure is for First Response to request that the hold be removed by contacting the Crimes Against Children unit.
3. During the hours that the Crimes Against Children unit is not staffed, this request may be made to Car 710.

- A. Any parent or legal guardian being arrested has the option to designate a caregiver for their child(ren) while they are in custody **except** in those cases where juveniles are found in surroundings or conditions that endanger their health or welfare. If a caregiver is identified, officers shall allow a reasonable amount of time to conduct a temporary custody transfer of the child(ren). Officers are not required to transport the child(ren) to another location.
- B. Officers shall complete the MPD Transfer of Child Custody form (MP-9048) and identify the child(ren) and caregiver in the corresponding Police Report. Copies of the Transfer of Child Custody form shall be distributed as indicated on the form.
- C. If the parent or legal guardian does not designate a caregiver, officers will complete a Health and Welfare Hold. Officers shall complete a 72-Hour Hold and indicate on that form that the child(ren) can be released to the parents or other suitable person. Officers will also indicate that the transfer was declined on the MPD Transfer of Custody form. Copies of the 72-Hour Hold and the MPD Temporary Transfer of Custody form shall be distributed as indicated on the forms.
- D. Officers may refuse to transfer custody of the child(ren) to the caregiver if there are articulable circumstances which may place the child(ren) at risk. Officers shall document these circumstances in the corresponding Police Report.

8-207 **Lost and Abandoned Children** (10/07/08) (10/10/22)

I. **Purpose**

8-303 Juvenile Gross Misdemeanor, Felony and Domestic Assault Arrest Procedures – Over 10 Years of Age (10/07/08)

(A-D)

All probable cause juvenile felony arrests must be authorized at the scene of arrest whenever possible. In the event a supervisor is unable to respond to the scene of the arrest, authorization may be given by radio or telephone by:

- the arresting officer's supervisor;

- an investigator from the concerned investigative unit;
- a supervisor from a neighboring precinct; or
- the on-duty Watch Commander.

Officers arresting a juvenile for domestic assault, violation of an Order for Protection, or a probable cause offense shall have the suspect processed at:

If the juvenile does not meet JDC booking criteria and the Juvenile Unit is closed, officers may conduct a Scales interview regarding the incident.

The juvenile shall be released to a parent or legal guardian. If the juvenile cannot be released to a parent or legal guardian, he/she shall be transported to the Juvenile Supervision Center.

- fingerprinted or photographed.

Juveniles under the age of 10 may be detained to conduct an investigation.

Juveniles under 10 years of age shall be taken into custody if a parent/legal guardian cannot be located. Officers shall contact First Response to determine where the child can be placed. A CAPRS report shall be completed for the offense, to include whom the child was released to and/or the facility that the child was transported to.

Cases in which a juvenile under 10 years of age is listed as a suspect will be referred to the Hennepin County Attorney's Office with an accompanying Hennepin County Attorney

“Delinquent Under 10 Referral Form”. These forms can be obtained through the Juvenile Unit or Hennepin County Attorney’s Office.

8-305 Juveniles – Warrant Checks, Warrants and PC Pick Ups (10/07/08)

(A-D)

Anytime a juvenile is detained or arrested, officers shall check the juvenile for NCIC wants and local warrants. Officers may contact MECC or JDC Intake for local warrant checks. Juveniles taken into custody for a warrant and no other offense should be transported to JDC or other facility as directed on the warrant. Officers shall complete a CAPRS report coded WT.

In circumstances which juveniles are found to have an outstanding warrant from another county, officers shall contact JDC to determine where the juvenile will be placed.

Adults found to have an outstanding Hennepin County juvenile warrant (as the only offense) shall be booked at JDC. Officers encountering adults found to have an outstanding juvenile warrant from another county should contact JDC Intake to determine what facility the individual will be transported to. Officers shall complete a CAPRS report coded WT.

When a juvenile is arrested for a PC Pick-Up, prior to transport, the arresting officer(s) shall attempt to contact the appropriate investigative unit. If the investigative unit cannot be reached, the juvenile shall be transported directly to JDC. Officers will complete the JDC Authority to Detain form and note the original offense, not PCPKUP. Officers shall generate a new CCN and complete a CAPRS report coded PCPKUP. The original CCN shall be referenced in the “Related CCN” data field. Officers are not required to stay with the juvenile until a parent/legal guardian arrives.

If the juvenile is transported to the Juvenile Supervision Center (JSC) following medical evaluation or treatment, appropriate medical release forms (provided by the hospital) must accompany the juvenile when he/she is admitted to JSC.

Should officers become aware of underlying circumstances which necessitate placing the juvenile on a 72-Hour Health and Welfare Hold, officers shall place the hold in accordance with section

In regards to intoxicated juveniles, JDC policy states:

“The Admissions Juvenile Correctional Officer shall not accept custody of juveniles referred to detention who appear to be intoxicated from alcohol, drugs or inhalants, but shall direct the referring agent to HCMC’s Emergency Department. (05/29/02)

(A-B)

All probable cause adult felony arrests must be authorized at the scene of arrest whenever possible. In the event the supervisor is unable to respond to the scene of the arrest, authorization may be given by radio, telephone or MDT/MDC. The probable cause felony arrest may be authorized by:

- The arresting officer's supervisor, or
- An investigator from the concerned investigative unit/division, or
- Any other supervisor

Supervisors will add their remarks via MDT/MDC to indicate their approval of probable cause and also whether they made the approval at the scene or via radio/telephone or MDT/MDC.

Arrests made on the basis of warrants or PC pickups do not require supervisor's approval.

Prior to transporting arrestees to Hennepin County Adult Detention Center (HCADC), officers should consider a debriefing session. Arrestees shall be taken to HCADC for processing unless requested to be transported to the concerned investigative unit.

The Authority to Detain form (HC 6377) shall be completed. The approving supervisor's name and badge number must be listed in the remarks section of the Authority To Detain form. The name of the supervisor approving the arrest and continued detention of the suspect must be included in the narrative section of the CAPRS report.

The original will be left at the HCADC and the carbon copy shall be given to the Police Typist to accompany the CAPRS report. The 36-Hour Expiration Advisory (HC 6400) shall be completed. In order to comply with the Supreme Court imposed 48-Hour Rule, officers shall note the exact time of arrest. The time of arrest is not when the suspect was booked or when the reports were made. The original 36-Hour Expiration Advisory shall be left at HCADC and the carbon copy will be forwarded with the case to the appropriate investigative unit.

(05/29/02)

(A-B)

No names, addresses or any other information that would identify a victim or witness shall be entered in this section of the report.

The next prompt is the Judicial Probable Cause Oath statement. Following this prompt, officers shall write approximately one to two paragraphs detailing the probable cause for the arrest.

Supplement One (1) of the CAPRS report shall describe the entire incident in detail.

In cases of an arrest based on a PC arrest bulletin (PC Pick-up), officers shall attach a PC Pick-up to the CAPRS report. Copies of the PC Pick-up may be obtained from the Transcription Unit's file or MPD Net.

After administering a written or oral oath, peace officers can sign a written report of another officer for the purpose of providing probable cause for the underlying arrest.

Officers shall swear to and sign their Judicial Probable Cause statement in front of an MPD notary. Peace Officers can sign a Probable Cause statement written by another officer for the purpose of providing probable cause for arrest.

MPD notaries shall witness the swearing and signing, and after such fact, shall sign the statement with their signature, license number, and the date their license expires.

In order to comply with these laws, officers shall complete a Crime of Violence/Attempt Crime of Violence Information Form (HC 6194). This form shall be left at HCADC when the suspect is booked.

When a juvenile is booked at the Juvenile Detention Center for a crime of violence, a Victim Information Form must be completed. The forms are available at the Juvenile Detention Center.

Citizens making arrests must complete a Citizen's Arrest Form (MP-3406). Security personnel from businesses that make arrests on a regular basis may be allowed to use the standard CAPRS offense report instead of the Citizen's Arrest form.

Officers shall determine whether the circumstances justify taking the accused into custody. If officers feel that the arrest is illegal, the officer shall refer the complainant to the City Attorney's Office.

If the accused is to be taken into custody, officers shall verify the identity of the complainant and assist in completing the Citizen's Arrest Report. Complainants should be advised that the City Attorney will notify them if a formal complaint is needed.

Officers shall observe legislators' privilege from arrest as set forth in the State of Minnesota Constitution, Article IV, Section 10:

9-112 Diplomatic and Consular Immunity

(05/29/02)

(A)

Under international and federal law, diplomatic and consular officials are granted varying degrees of immunity and personal inviolability (i.e. freedom from arrest, detention, search etc.) depending on the position they hold. However, the privilege of personal inviolability must be balanced with the responsibility of the United States and its government bodies to protect the safety of its citizens. Police authorities may intervene to the extent necessary to halt activity that poses imminent danger to the safety of the public or when it is apparent that a serious crime may otherwise be committed.

1. Diplomatic agents, family members recognized as part of their household, and members of their administrative and technical staff and their households enjoy full immunity from arrest, detention, criminal prosecution, and search of their person, property or residence.
2. Members of their service staff have no privileges or immunities except for immunity from prosecution for acts related to performance of their official duties. Family members of the service staff have no privileges or immunity.
3. Family members of diplomatic agents who are also U.S. citizens have no privileges or immunities. Staff members or their families who are U.S. citizens or permanent residents of the U.S. have no privileges or immunities.
4. Consular officials, their families and staffs have no privileges or immunity related to arrest, detention, or search and seizure. The only exception is that career consular officers enjoy immunity from arrest unless the arrest is pursuant to a felony warrant.

The only authoritative document that can reliably identify a diplomatic or consular official is the identity card issued by the Department of State, Protocol Office. Other documents such as foreign diplomatic passports, U.S. diplomatic visas, tax exemption cards, or vehicle registration issued by the State Department do not conclusively indicate the diplomatic status of an individual. Officers presented with this type of identification should assume that the suspect might have some degree of immunity and attempt to verify further the diplomatic status of the suspect.

The on-duty Watch Commander must be notified of any incidents involving diplomats or consular officials. These incidents must still be fully documented on the CAPRS reports. The

federal government, acting through the State Department may be able to take corrective action against foreign diplomats who violate U.S. criminal law.

9-113 Arrest and/or Detention of Foreign Nationals

9-202 Public Recording of Police Activities

(05/05/16)

I. Purpose

The purpose of this policy is to acknowledge and protect the constitutional and legal rights of citizens to photograph and make audio and video recordings of Minneapolis Police Department personnel. This policy provides employees with guidance in dealing with situations in which they are being recorded.

II. Policy

- A. The Minneapolis Police Department recognizes that members of the general public have an unambiguous First Amendment right to record police officers while they are conducting official business or while acting in an official capacity in any public space, unless such recordings interfere with police activity. Officers should assume that a member of the public is likely to be observing and possibly recording their activities at all times.
- B. Officers shall be aware that recording of people, places, buildings, structures and events is a common and normally lawful activity. If a person is taking photographs or recording from a place where he or she has a right to be, this activity by itself does not constitute suspicious activity.

- C. In areas open to the public, members of the general public have the same right to photograph and record as a member of the media. No person is required to have or display “press” credentials in order to exercise the right to record events, including police activity.
- D. Officers **shall not** tell people that recording police activity is not allowed, requires a permit, or requires an officer’s consent.
- E. The warrantless seizure of material protected by the First Amendment (photos, videos, etc.) will be strictly scrutinized in court, and has a higher standard for reasonableness under the Fourth Amendment.
- F. Employees **shall not** erase or delete, or request any person to erase or delete any files, media or recorded images or sounds from any camera or other recording device that is in possession of any person, or that has been seized or voluntarily turned over. Such action may constitute a violation of the First, Fourth and Fourteenth Amendments.

III. Definitions

Police Duties: Police duties discharged in a public setting may include a range of activities, including detentions, searches, arrests or uses of force.

Public Space/Setting: Public settings include but are not limited to: parks, sidewalks, streets and locations of public protests. The right to record also extends to an individual’s home or business, common areas of public and private buildings, and any other public or private facility at which an individual has a right to be.

IV. Procedures/ Regulations

A. Responding to Public Recording of Police Activities

1. When an employee observes a citizen taking photographs or audio or video recording in a setting at which that person has a legal right to be present, the employee **shall not**:
 - a. Order that person to cease recording;
 - b. Demand that person’s identification;
 - c. Demand that the citizen provide a reason for recording;
 - d. Detain that person for recording or investigation of a recording;
 - e. Intentionally block or obstruct recording devices;
 - f. In any way threaten, intimidate or otherwise discourage an individual from recording.
2. The right to record does not grant a citizen the right to interfere with police activity. A person commits an offense if the person with criminal negligence interrupts, disrupts,

impedes or otherwise interferes with a peace officer while the officer is performing a duty or exercising authority imposed or granted by law.

- a. A person's recording of officers' activity from a safe distance, without any action to obstruct the activity or threaten the safety of an officer, does not constitute interference.
- b. If a person is recording activity from a position that impedes or threatens the safety of officers or their ability to perform their duties, an officer may direct the person to move to a position that will not interfere. Officers shall not order the person to stop recording.
- c. If a person is recording activity from a position that impedes or threatens the safety of members of the public, the officer shall direct the person to move to a safe position that will not interfere. Officers shall not order the person to stop recording.
- d. Citizens have the right to express criticism of the police activity being observed. As long as that expression does not jeopardize the safety of any officer, suspect or bystander, and does not violate the law or incite others to violate the law, the expression does not constitute interference.
- e. Arrest
 - i. Any arrest of a person who is recording officers in a public place shall be related to an objective, articulable violation of the law unrelated to the act of recording. The act of recording does not provide grounds for detention or arrest.
 - ii. If safe to do so, officers shall call a supervisor to the scene **before** any restrictive police actions are taken, and the supervisor must approve any related arrest.
 - iii. If an arrest is made prior to supervisor arrival due to exigent circumstances, the arrestee shall not be transported to a holding or detention facility until the supervisor is present and has approved the arrest.
 - iv. An arrest of a person does not provide an exception to the warrant requirement justifying a search of the individual's recording equipment or media. While equipment may be secured incident to an arrest, downloading, viewing or otherwise accessing files or media requires a search warrant.

B. Handling of Evidence on a Recording Device

1. Citizens have a high expectation of privacy for the contents of cellular phones and other recording devices. Absent arrest of the recording party, recording equipment shall not be confiscated.
 - a. Officers shall not order an individual to show recordings that have been made of police activity.

- b. A supervisor must be notified before an officer takes any action involving a person's recording device, including a request for voluntary consent to search or seizure of the device.
- 2. If an officer reasonably believes that evidence of a serious crime has been recorded by a member of the public, the officer shall immediately request a supervisor respond to the scene.
 - a. With approval of the supervisor, the officer may ask the person in possession of the recording if he or she will consent to voluntarily allow the officer to take possession of the recording device or media and process it as evidence.
 - i. The officer shall not, implicitly or explicitly, coerce consent to take possession of any recording device or information it may contain.
 - b. If the individual refuses to voluntarily provide the recording or device and the officer reasonably believes that the recording will be destroyed, lost, tampered with or otherwise rendered useless as evidence before a warrant can be obtained, the officer shall notify a supervisor.
 - i. The supervisor will assess the situation and determine whether exigent circumstances exist to permit the seizure of the device without a warrant.
 - aa. Any such seizure must be a temporary restraint intended only to preserve evidence, for no longer than reasonably necessary for the officer, acting with diligence, to obtain a warrant to seize the evidence.
 - ab. A warrant must be obtained in order to examine or copy the recording and the chain of custody must be clearly documented.
 - ac. The recording or device shall be processed as evidence (see P/P 10-400) and a DIMS download station shall **not** be used for retrieval (see P/P 4-217).
 - c. In exigent circumstances when an officer reasonably believes that an immediate search of the recording is necessary to prevent death or injury, the officer shall notify a supervisor.
 - i. The supervisor will assess the situation and determine whether exigent circumstances exist to permit the seizure and search of the device without a warrant. The supervisor shall notify the Watch Commander if a search is approved.
 - ii. Photographs, videos or recordings that have been seized as evidence and are not directly related to the exigent circumstances will not be viewed until a search warrant has been obtained.

- d. Any recording devices or media taken into custody shall be returned as soon as practical.
- e. Employees who view or listen to a recording from a citizen, or conduct a forensic examination of the recording or device, shall undertake reasonable efforts to ensure only materials that constitute potential evidence are accessed. Employees will refrain from examining any materials not relevant to the investigation.

 2. When seeking and serving warrants, MPD employees must focus on protecting the community from harm, promoting public safety and providing service in a manner that builds trust and meets community expectations.
- B. The purpose of this policy is to ensure that warrants are applied for, planned and served in a manner that protects officers, subjects and the public, and in a manner that upholds laws, the Constitution, and MPD policies.

II. Definitions

Administrative Search Warrant: A search warrant sent electronically or otherwise involving no in-person contact, or for the processing of evidence already in police custody. Examples of administrative search warrants include, but are not limited to:

- Bank records,
- Cell phone or other phone records,
- Social media and other electronic communications,
- Impounded vehicles,
- Medical records.

Affiant: The sworn officer, investigator or sergeant that is authoring the search warrant application and swearing to the facts of the affidavit contained in the application.

Affidavit: A written document (statement of facts) confirmed by oath or affirmation.

Court: The designated judicial branch having jurisdiction over the location or person listed in the search warrant application and affidavit.

“High-Risk” Search Warrant: A search warrant in which known or suspected hazards have been identified and likely might be present during the service of the warrant. The identified hazards are of such significant risk to the safety of individuals that the search warrant exceeds the capabilities of normal patrol and investigative functions. These hazards may include, but are not limited to, suspect factors such as weapon possession and use, and location factors such as obstacles and other approach difficulties.

“Intermediate-Risk” Search Warrant: A search warrant with limited potential threat for harm due to the nature and location of the warrant, as well as reasonably believed information about the individuals at the subject location. The potential hazards or risks do not meet the criteria for a “high-risk” search warrant, but may require additional scrutiny or planning. This could include a warrant where a forced entry may be required, and it is unknown if people present are armed.

“Knock and Announce” Search Warrant: Under the “knock and announce” rule, a police officer executing a search warrant generally must not immediately force their way into the premises, absent exigent circumstances as defined in the Warrant Entry Procedures section of this policy. Instead, the officer must first knock, identify themselves as “Police” and announce their intent, and wait a reasonable amount of time for the occupants to allow entry into the premises, pursuant to the Warrant Entry Procedures section of this policy.

“Lower-Risk” Search Warrant: A warrant with no or minimal potential threat for harm due to the nature and location of the warrant as well as the absence of suspects. Examples of “lower-risk” search warrants include, but are not limited to:

- Safe-deposit boxes,
- DNA sexual assault warrants for in-custody persons,
- Search warrants at a location where the investigator wouldn’t expect to encounter the suspect(s) or other resistance (for example, a location already under the control of law enforcement).

“No-Knock Search Warrant”: Also called an Unannounced Entry or Dynamic Entry warrant, a no-knock search warrant is a search warrant authorizing a police officer to enter certain premises without first knocking and announcing the officer’s presence or purpose prior to entering the premises (MN Statute section 626.14 Subd. 2).

Probable Cause: Having reasonable grounds for supporting the requested Court order, to include: search warrants, arrests or other legal process. Probable cause is required by the Fourth Amendment. Officers must have an objectively reasonable basis for believing that a crime may have been committed or that there is evidence of the crime present in the place to be searched.

Search Warrant: A document issued by the Court authorizing the police to enter and search a person, premises, location or vehicle for purposes of evidence recovery.

Search Warrant and Risk Assessment form: The form completed by Minneapolis Police Department employees that uses investigatory information and other criteria to evaluate the risk potential associated with a warrant.

SWAT: The Special Weapons and Tactics Team of the Minneapolis Police Department.

“Unannounced Entry” Warrant: Also called a “no-knock search warrant.”

III. Policy

A. Legal Principles

MN Statute sections 626.05 through 626.22 authorize peace officers to write and execute search warrants in the course of their investigative duties and criminal investigations, and the Statute sections establish the warrant requirements for peace officers. MN Statute section 626.14 specifically details time and manner of search warrants, and requirements for “no-knock search warrants.”

4. No-knock search warrants are prohibited

- a. MPD officers shall not apply for or execute a no-knock search warrant, whether for MPD or on behalf of another agency.
- b. MPD officers shall not request that another agency execute a no-knock search warrant on behalf of the MPD.

B. Time of Search Warrant Service

1. In accordance with MN Statute section 626.14, a search warrant may be served only between the hours of 7:00 a.m. and 8:00 p.m. unless the court determines on the basis of facts stated in the affidavits that a nighttime search outside those hours is necessary to prevent the loss, destruction, or removal of the objects of the search or to protect the searchers or the public.
2. The search warrant shall state that it may be served only between the hours of 7:00 a.m. and 8:00 p.m. unless a nighttime search outside those hours is authorized.

 - b. The affiant shall document on the form what investigative activities have taken place to try and apprehend the suspect or obtain the evidence prior to issuance of the search warrant, or why no investigative activity is needed or able to be performed.
2. SWAT review for “Intermediate-risk” and “High-risk” warrants for premises

In all search warrants for premises that are not determined to be an administrative search warrant or a “lower-risk” search warrant, the SWAT supervisor will review and

determine whether a SWAT team needs to be involved in the warrant planning and execution. This includes “intermediate-risk” search warrants.

3. Approval for “high-risk” warrants for premises

All search warrant applications for premises that are determined to be “high-risk” shall be reviewed and approved by a supervisor at the rank of Commander or above, prior to the execution of the warrant.

4. “Intermediate-risk” and “high-risk” warrants not for premises

Search warrants determined to be “intermediate-risk” or “high-risk” that are not for premises may be executed under the direction of a supervisor, without consultation with the SWAT supervisor. This includes search warrants for people and search warrants for vehicles that may be occupied or mobile.

5. “Lower-risk” warrants

Volume Nine – Enforcement Policies

Immigration Matters

9-401 Police Authority in Immigration Matters (05/29/02) (04/02/18) (01/16/25) (02/26/25)

I. Purpose

The Minneapolis Police Department (MPD) is committed to fostering trust and collaboration with all people in the city, regardless of race, religion, sexual orientation, national origin, ethnicity, or immigration status. Minneapolis is home to a diverse and vibrant community, and the Department values and celebrates this diversity as a source of strength.

The MPD ensures that immigration status will never impede access to law enforcement services and is dedicated to providing equitable, bias-free service to all members of the community. Protecting the safety and civil rights of every community member remains the core mission of the MPD.

II. Procedures

- A. The MPD recognizes the fear of deportation prevents some undocumented community members from reporting, interacting, and cooperating with law enforcement. The MPD is dedicated to community policing as a means of reducing crime while building community trust. Therefore, the MPD shall investigate criminal activity without regard to a person's actual or perceived immigration status. Doing otherwise would have a chilling effect on our ability to provide public safety to our community.
- B. The MPD works cooperatively with all federal agencies, but the MPD does not operate its programs for the purpose of enforcing federal immigration laws.
 - 1. The enforcement of civil and criminal federal immigration laws falls exclusively within the authority of the federal government and not the MPD. The United States Code, 8 U.S.C. §1101, empowers the U.S. Citizenship and Immigration Services (USCIS) and Immigration and Customs Enforcement (ICE), Department of Homeland Security, as the sole authority in immigration matters.
- C. Members shall not initiate actions to determine, verify or detect a person's immigration status, including but not limited to questioning any person about their immigration status, subject to the narrow exception stated below. (City of Minneapolis Ordinance §19.30 (a)(3))
 - 1. Members shall only initiate the actions above when specifically enforcing laws relating to human trafficking and smuggling where immigration status is an element of the crime.

- a. When questioning, arresting, or detaining any person under this exception, the member shall articulate and document the reason the member believes the exception applies.
2. Nothing in this policy shall prohibit members from assisting federal law enforcement officers in the investigation of criminal activity involving people present in the United States who may also be in violation of federal civil immigration laws in accordance with City of Minneapolis Ordinance §19.30 (a)(4).
3. Members are prohibited from stopping, detaining, or taking law enforcement action against a person, vehicle, business, or residence on the sole basis of civil administrative immigration alerts, detainers, or non-criminal warrants.
 - a. Local police do not have the authority to take law enforcement action for federal administrative civil warrants.
 - b. If a person is found to have a National Crime Information Center (NCIC) hit, members shall verify the hit is not solely for an administrative ICE warrant prior to taking any action.
 - c. Members shall not arrest or detain a person solely based on an administrative (ICE) warrant. This does not prevent members from taking law enforcement action on unrelated crimes, detainers, or non-criminal warrants.

Examples of the language seen in NCIC administrative ICE warrants:

Deported Felon

Warning Regarding Following Record- Subject of NIC/N307770847 is a previously deported felon. Contact LESC at (877) 999-5372 for immediate hit confirmation and availability of Bureau of Immigration and Customs Enforcement Detainer.

The MPD is dedicated to supporting potential U and T Visa recipients by facilitating access to necessary certifications for U and T Visa applications, as required by law. II. Procedures

Under federal law, victims and witnesses of certain qualifying crimes may be eligible to obtain temporary immigration status through a U Visa or T Visa as authorized by the U.S. Citizenship and Immigration Services (USCIS) (see 8 U.S.C. § 1101(a)(15)(U), 8 U.S.C. § 1101(a)(15)(T)).

A. Requests for Certification

1. If a victim or witness requests certification for a U Visa or T Visa, the MPD Chief or the Chief's designee may assist by completing the appropriate Department of Homeland Security (DHS) forms:
 - **Supplement B for Form I-918** (U Visa certification)
 - **Supplement B for Form I-914** (T Visa certification)
2. The certification must include details explaining how the person has been, is being, or is likely to be helpful in the investigation or prosecution of a qualifying crime.
3. All requests for certification shall be directed to the U Visa unit for reviewing and processing such requests.

B. Certification Process

1. All requests for U or T Visa certifications will be evaluated on a case-by-case basis and processed solely by the Chief or the Chief's designee.
2. The amount of time that has elapsed since the crime occurred may impact the evaluation. Victims are encouraged to provide detailed information, evidence, and explanations regarding their cooperation and any delays in submitting the certification request.

3. The certification process must include verification of the following for both U and T Visas:
 - a. The person is a victim of a qualifying crime or a derivative applicant (i.e., family member of the victim under federal law).
 - b. The crime occurred in the United States or violated U.S. extraterritorial law.
 - c. The victim has been, is being, or is likely to be helpful in the investigation or prosecution of the crime.

C. Specific Requirements for U Visa Certification

(See Form I-918, Supplement B)

To certify a U Visa application, the Chief's Designee must verify that:

1. The undocumented person was a victim of a qualifying criminal activity (e.g., domestic violence, sexual assault, human trafficking, extortion, or similar crimes).
2. The person has knowledge about the crime and has been or is being helpful to law enforcement in the investigation or prosecution.
3. MPD has determined the victim's helpfulness by reviewing evidence of cooperation, even if the investigation or prosecution was not completed.

D. Specific Requirements for T Visa Certification

To certify a T Visa application, the Chief's Designee must verify that:

1. The undocumented person was a victim of a severe form of human trafficking (e.g., labor or sex trafficking).
2. Derivative applicants may include the victim's spouse, children, parents, or unmarried siblings under specific age and relationship criteria outlined by federal law.
3. The victim must demonstrate cooperation with law enforcement efforts to investigate or prosecute the trafficking case.

E. Timelines and Documentation

1. Certification requests shall be completed within 30 business days of receipt.
 - a. For applicants in immediate removal proceedings, certifications shall be completed within 5 business days of receipt.

- b. Exceptions may apply during states of emergency or other extraordinary events impacting MPD operations.
2. Completed certifications will be returned to the victim or their representative. The Chief's designee shall not send the certification directly to DHS; this is the responsibility of the victim or their representative.
3. In cases where certification is denied, the Chief's designee shall document the decision in the case file and notify the victim or their representative of the decision.
4. All approvals and denials of certifications shall be tracked in an internal log maintained by the U Visa unit.

Volume Ten - Investigations

Crime Scene Processing

10-101 Crime Scene Supervision

(02/22/05) (05/13/05)

(A-B)

Crime scene processing will begin after incident stabilization of the scene. Incident command priorities of life safety, search and rescue, and security precede crime scene preservation and processing. (05/15/96)

Only the Watch Commander or on-scene investigative supervisor can relinquish a scene to another investigative agency.

After incident stabilization, the on-scene ranking investigative officer, or designee is in charge of a crime scene within the yellow tape. The on-scene ranking patrol supervisor or designee is in charge of the scene outside the yellow tape. Until an investigative officer arrives, the on-scene patrol supervisor will be responsible for the entire scene. The on-scene patrol supervisor is also in charge of the entire scene when the investigative supervisor leaves the scene. The on-scene supervisor will communicate to the patrol supervisor when they are relinquishing the scene.

Scene security shall remain in place until the Crime Lab personnel have finished processing the scene. Officers working security may only be released from an active scene on agreement between Crime Lab personnel and the on-scene supervisor.

The following log shall be used at all major crime scenes including Critical Incidents and Operation 100's.

Crime Scene Entry Log:

The Crime Scene Entry Log (MP-9011) is available to MPD personnel on the MPD's intranet page under "Forms." All uniformed officers shall have a supply of forms with them.

Immediately after a crime scene has been secured using yellow crime scene tape, it is the on-scene supervisor's responsibility, or their designee's to designate a point of entry and exit into the crime scene. All personnel shall enter and exit the crime scene at the designated point of entry.

The on-scene supervisor shall designate an officer to start and maintain the Crime Scene Entry Log. The officer responsible for the log shall be placed at the point of entry. The officer will record his/her name and badge number, case control number, location, date and time at the start of the log. The officer will then record the names, employee/badge number, date, time in, time out, and the reason for entering the scene of all officers or other personnel that enter the scene

past the yellow tape. All personnel recorded on the log must make a CAPRS statement prior to the end of their shift.

The on-scene patrol supervisor, in consultation with the on-scene investigative supervisor, will designate and set up a staging area outside the yellow crime scene tape for media and other non-MPD staff.

Once all MPD personnel have cleared the scene, the designated officer in control of the log will property inventory the log under the incident case control number.

Red Crime Scene Tape:

Crime Lab Unit personnel will maintain rolls of red crime scene tape. The red tape will be placed around portion(s) of the scene that need to be processed by the Crime Lab Unit. Only Crime Lab Unit personnel and Car 710 will be allowed to cross the red tape. Red tape usage will be at the discretion of the Crime Lab Unit. Once the Crime Lab Unit is finished processing the scene, Crime Lab Unit personnel will remove the red tape.

10-101.01 Crime Scene Supervision – Critically Ill or Injured Children

(12/15/98)

(A-C)

When responding to a call of a child under the age of five, who is DOA or has become suddenly or unexpectedly ill or injured, protocol shall be:

1. Officers shall notify Car 710 and a supervisor, who shall respond to the scene. (06/22/05)
2. Officers shall gather information from the caretaker/parents as to the circumstances surrounding the illness or injury. If more than one parent/caretaker is present, officers should attempt to separate the individuals and gather the information while they are apart. If a parent/caretaker is not at the scene, officers shall attempt to contact them by phone as soon as possible. (06/22/05)
3. Officers shall identify everyone at the scene, including full name, date of birth, address, phone number, etc.
4. If possible, officers shall obtain Fire Department and EMS run numbers, employee names, and ambulance or station number for the offense report.
5. Car 710 or the on-scene supervisor shall make the determination of whether Car 9 should be notified. (06/22/05)
6. Car 710 or the on-scene supervisor may contact the Family Violence Unit for more direction or assistance if needed. (06/22/05)
7. Car 710 or the on-scene supervisor shall make the determination whether the scene should be photographed by Crime Lab personnel. (06/22/05)

8. After clearing the scene, officers shall immediately enter a CAPRS report entitled "DOA, HLTWEL, CHLDAB, or another appropriate CAPRS code."
9. The on-scene supervisor shall determine which officers must make a supplement in the CAPRS report. (06/22/05)
10. Officers shall always err on the side of protecting the child victim or siblings. If other children are in the home, officers must consider their safety and well being. These children may have to be placed on a Health and Welfare hold. Officers shall attempt to place the child(ren) in the care of a responsible relative or another responsible person if the legal parent/guardian agrees to the placement. (06/22/05)

For children five years of age or above, officers may also be called to the scene if paramedics determine that circumstances surrounding the injury or illness are suspicious.

It is important to remember that in these types of cases, things are not always as they appear. It is imperative that officers at the scene balance the need to protect the child's and the parent's rights. Officers shall not openly accuse the caretaker/parent of child abuse.

Officers shall limit their questioning of the child to just getting the basic facts of what occurred. The child may be interviewed at Corner House at a later date, and detailed questioning by police or others may impede the investigation. If possible, separate the child and other child witnesses from the parent if circumstances dictate. (06/22/05)

Notify Child Protection by phone at (612) 348-3552 or fax a copy of the report to (612) 348-9095. (06/22/05)

10-102 Initial or Preliminary Investigations

(A-B)

Preliminary investigations by a responding officer may be very restricted or may constitute the entire investigation of the crime. In a particular crime, the preliminary investigation may be limited by investigative policy, and in all cases it is limited by an officer's assignment workload. An officer should not continue a preliminary investigation to the point where the investigation will jeopardize other job responsibilities or duties.

10-103 Follow-Up Investigation by Uniformed Officers

(A)

Uniformed officers may conduct a follow-up investigation upon approval of their superior officer when there is a reasonable chance of apprehending the suspect, when there is a need for obtaining additional information for the preliminary investigative report, or when there are other compelling circumstances.

10-104 Recommendation Upon Completion of Initial Investigation

(A)

Uniformed officers, upon completion of their initial investigation, will conclude the Offense/Incident Report, if one is required, with one of the following comments:

Officers will provide the Crime Lab with the information they require. Requests for assistance from the Crime Lab shall be made via dispatch. MECC shall notify Car 21 for all Critical Incidents and Homicides at the time Car 710 is notified. (12/14/07)

Scene security shall remain in place until the Crime Lab personnel have finished processing the scene. Officers working security may only be released from an active scene upon agreement between Crime Lab personnel and the on-scene supervisor.

Evidence identified at any crime scene which is not photographed or collected by the Investigator or Crime Lab personnel must be identified and documented in a supplemental report as to the reasons why the evidence was not collected or photographed at the scene.

When uniformed officers are relieved at the scene by investigators, and based on staffing levels, the supervisor shall direct officers to complete all CAPRS reports.

10-108 Death Determination

The primary responsibility of an officer in any situation is to take all steps necessary to preserve life. Except when a person is obviously deceased, it shall be the responsibility of a physician or Emergency Medical Services (EMS) personnel to determine if death has occurred. EMS shall be requested at the scene of an apparent death unless a physician is present or there is not even a remote possibility that the person is alive. (07/17/01)

10-109 Homicide or Suspicious Death Scene

(07/17/01)

The first officer to arrive at a death scene shall notify his/her immediate supervisor. The supervisor shall notify MECC who will then notify Car 710. If a death is suspicious in nature, Car 710 shall make the decision on whether or not to call Car 21 to the scene. (12/14/07) (08/19/15)

If a suspicious death occurs while Car 710 is off duty, Car 9, the on-scene supervisor or MECC shall notify the Commander of the Violent Crimes Investigation Division. The Commander will make the decision on whether or not to call investigators or Car 21 to the scene. (08/19/15)

The supervisor shall also notify the on-duty Watch Commander by telephone, when possible. (12/14/07)

- Secure the area where the crime was committed and where the body was found. For an indoor scene, seal off all points of entry and exit. For an outdoor scene, use crime scene tape to immediately rope off the area, securing the largest area possible. Efforts should be made to protect evidence from the elements. Be aware of the possibility of multiple scenes.
- Do not allow any unauthorized persons to enter or leave the scene. Identify any unauthorized persons attempting to enter the scene and relay this information to the on-scene investigator(s). No one shall be permitted to approach the scene until investigators arrive.
- Do not allow anything to be touched or moved at the scene. Do not move a weapon unless it presents an immediate danger. Do not cover the body with anything or allow anyone else to cover the body. If possible, and without disturbing evidence, create a secure environment around the body so that it is not in plain view of the public until the arrival of Homicide or Crime Lab personnel. (12/14/07)
- Homicide investigators or Crime Lab personnel shall be responsible for placing a barrier around the body. The decision of whether or not to cover a body shall only be made by Crime Lab personnel, Homicide investigators or the Commander of the Homicide Unit. (12/01/03) (11/03/06) (12/14/07) (08/19/15)
- If covering the body is not possible, the Commander at the scene will use other methods that might be available, i.e., a vehicle, bus, etc. placed to obstruct viewing by the public. (12/01/03)
- If the decision to cover a body has been made, the deceased will be covered with a sterile sheet provided by the Medical Examiner's Office. Car 21 and all Homicide cars have a supply of pre-packaged sheets. The sheet will be property inventoried. (12/01/03) (08/19/15)
- If anything is touched or moved, inform investigators and document it in the CAPRS report. Do not remove anything from the scene unless instructed by investigators.
- Identify and isolate all witnesses as soon as possible. Identify witnesses by name, date of birth, home address, telephone number, business address, business telephone and business hours. All witnesses will be transported to the Homicide Unit at the direction of

the investigator(s) and/or Watch Commander. If a witness refuses to go to the Homicide Unit, inform the investigator(s) or Watch Commander.

- Eliminate sightseeing at the scene, including police. Do not discuss the incident; direct all requests for information to the on-duty Watch Commander.
- Upon arrival, investigators shall be in charge of the scene. The supervisor shall report to the investigator(s) in charge at the scene and shall provide assistance as needed. When released from the scene and based on staffing levels, the supervisor shall direct officers to complete all CAPRS reports. All police personnel present at the scene shall make a statement unless instructed otherwise by investigators.

The Arson Unit will respond to the scene of fire deaths in the City of Minneapolis and file reports related to the origin and cause of the fire. Follow-up investigations of the fire death shall be performed by the Homicide Unit. (06/10/13)

Photographs at homicide or suspicious death scenes shall only be taken by Crime Lab personnel or by persons authorized by the Homicide Unit investigators. (11/03/06) (12/14/07) (06/10/13) (08/19/15)

At non-suspicious death scenes officers may use department-issued digital cameras to take photographs when approved by a supervisor. Under normal circumstances Car 21 does not collect any type of evidence at a suicide scene; all evidence is collected by the Hennepin County Medical Examiner's Office. (06/10/13) (08/19/15)

All photographs taken at death scenes are the property of the Minneapolis Police Department and shall be inventoried in the Property and Evidence Unit or retained in the Crime Lab. (06/10/13)

A dead body shall only be moved after the Medical Examiner's Office directs the removal. Dead bodies under the jurisdiction of the Medical Examiner will be removed by Medical Examiner personnel.

10-113 Dead Bodies – Offense/Incident Reports

(A)

When officers are assigned a dead body call and there are no suspicious circumstances, the officers shall make an Offense/Incident Report titled "DOA" (Dead On Arrival). The report shall include all pertinent information regarding identification, probable cause of death, name of doctor and removal of the body.

If the identity of the body cannot be established after the medical examiner arrives, officers shall use "unknown" for the victim's name on the report. A complete description of the victim shall be included.

It is expected that officers will give reasonable aid and comfort to the family members present and ensure that they are able to make necessary arrangements. Services of an MPD Community Chaplain or other clergy may be offered. (07/21/16)

10-114 Notification to Relatives

(A)

It is the legal responsibility of the Medical Examiner's Office to make proper notification to relatives of the deceased. 10-116 Officer-Involved Shootings

(10/03/88)

(B)

The On-Duty Watch Commander and a member of the Police Administration shall be notified by the Emergency Communications Center of all officer involved shootings. The On-Duty Watch Commander shall proceed to the scene of the shooting. Attendance at the scene by a member of the Police Administration shall be at the discretion of the Chief or one of the Bureau Heads.

The ranking investigative officer present is in charge of the crime scene.

10-117 Evidence Processing

(04/18/08) (05/03/13)

All evidence that is collected by MPD personnel shall be property inventoried per MPD Policy and Procedure Manual, Section 10-400 Property and Evidence, prior to submitting any requests for forensic analysis.

All evidence shall be processed by the MPD Crime Lab if the requested service is a discipline that the MPD Crime Lab is equipped and trained to provide. No evidence shall be taken to any outside agency for analysis without the prior written approval of the MPD Crime Lab Commander or his/her designee.

Evidence to be processed by the MPD Crime Lab shall be submitted to the MPD Crime Lab using the Investigator's Request for Service Form (MP-9010). All work requests will be screened and logged by the Crime Lab Unit.

If investigators have evidence that the MPD Crime Lab does not have the capability to process (i.e. DNA, trace evidence, questioned documents), but can be processed by the Minnesota Bureau of Criminal Apprehension (BCA) Forensic Laboratory, the requesting investigator shall bring the evidence to the BCA to be analyzed. (05/03/13)

10-117.01 Surveillance Video Collection and Forensic Video Analysis

(03/10/09)

Officers and investigators shall make a reasonable effort to collect pertinent surveillance video recordings while on-scene at a crime scene, if the video can be retrieved and downloaded immediately. Video evidence shall be property inventoried in accordance with Section 10-400, Property and Evidence.

In the event of a homicide or Critical Incident, Car 21 will collect surveillance video recordings, complete necessary Crime Lab work orders, and notify Crime Lab Unit (CLU) Forensic Video Analysis personnel of immediate video analysis needs. If immediate retrieval is not possible, the CLU Forensic Case Coordinator shall be responsible for completing the documentation and work

orders necessary for later collection of video evidence from a specified location/scene by CLU personnel.

If an incident (other than a homicide or Critical Incident) just occurred and the immediate identification of additional evidence or leads is vital, video evidence can be brought directly to the Crime Lab Unit (CLU) and will be prioritized per CLU policy. If a Forensic Video Analyst is not available or if the equipment is in use and cannot be interrupted, the investigator will be advised so other options can be evaluated and pursued as necessary.

Note: A recent homicide, Critical Incident or request from Police Administration will be given immediate priority by CLU Video Analysts and take precedence over any other case awaiting analysis by an investigator or attorney.

To obtain Forensic Video Analysis services, case investigators shall complete an "Investigator's Request for Service" Form (MP-9010) and ensure the following information is provided:

1. Case Control Number;
2. Investigator contact information (name and phone numbers, including desk and cell);
3. Location of surveillance video evidence (if applicable);
4. Mark the "other" box and include comments describing what service is needed (i.e. copy of video, still photos printed, retrieval from specific address/location, immediacy, etc.) and
5. A description of specific evidentiary information to identify on video (i.e. suspect including clothing, specific actions, time frame of incident, etc).

If it is determined that the processing/analysis services required are not available in the MPD Crime Lab, prior written approval for the use of outside services must be obtained from the CLU Director or his/her designee.

Forensic Video Analysts will contact investigators for further information as needed.

10-117.02 Statements Regarding Surveillance Video Identifications and Comparisons

(03/10/09) (05/24/13)

Only a qualified Forensic Video Analyst can make, and testify to, comparisons done using video. Case reports and supplements must not state that persons or suspects have been positively identified or preliminarily identified from surveillance media by anyone other than trained forensic video analysts. (05/24/13)

This does not preclude employees from developing a description of an individual (e.g. clothing appeared similar, suspect appeared similar to, etc.) based on video evidence and using that

description as reasonable suspicion to stop and investigate an individual fitting that description.

Minneapolis Police Department Policy and Procedure Manual

Number:
10-200

Date:
23 November 2022

Volume Ten - Investigations

Investigative Procedures

10-201 Allocation of Resources

(A-C)

Priority of investigation and allocation of resources must be based upon the relative seriousness and solvability of each reported crime. Reported crimes will be investigated to the fullest extent possible without regard to the status of the victims or the areas of the City in which the crime occurs. (04/01/93)

10-202 Plainclothes Officers and Undercover Operations

(05/26/04) (08/16/04) (06/29/16) (11/23/22)

I. Purpose

The Department may use plainclothes officers in details or in undercover operations, to obtain information and evidence regarding criminal activities.

II. Definitions

“John”: An individual who engages in prostitution by hiring, offering to hire or agreeing to hire another individual to engage in sexual contact.

Plainclothes Detail: Plainclothes details use plainclothes officers to perform overt law enforcement activities, where the officers involved are wearing attire other than a sworn officer uniform. Plainclothes details may involve officers in “soft” uniforms (with “Police” markings), Class “D” uniforms (P&P 3-115), or officers in civilian attire.

Plainclothes Officer: A plainclothes officer performs law enforcement activities in attire other than a sworn officer uniform. When operating in an undercover operation, a plainclothes officer may wear attire to pose as a criminal or to conceal their identity as a police officer during in-person encounters.

Prostitute: An individual who engages in prostitution by being hired, offering to be hired, or agreeing to be hired by another individual to engage in sexual contact.

Prostitution: Hiring, offering to hire, or agreeing to hire another individual to engage in sexual contact, or being hired, offering to be hired, or agreeing to be hired by another individual to engage in sexual contact.

Sex Trafficking: Sex trafficking means:

1. Receiving, recruiting, enticing, harboring, providing or obtaining by any means an individual for prostitution; or
2. Receiving profit or anything of value, knowing or having reason to know it is derived from an act of prostitution.

Undercover Operation: Undercover operations use plainclothes officers to perform covert activities in criminal investigations, to gather evidence against individuals or groups engaged in criminal activity.

III. Policy

A. No Entrapment

Plainclothes officers shall not intentionally engage in entrapment.

Entrapment is when a person commits an act or engages in conduct otherwise criminal, if the criminal design does not originate with the person, but is conceived in the mind of a government agent, and the person is by coercion, persuasion, deceitful representation, or inducement lured into committing an act the person otherwise would not have committed and had no intention of committing.

B. Undercover Status for Data Protection Purposes

1. The Chief of Police or the Chief of Police's designee determines the undercover status of any officer.
 - a. Officers do not self-designate their undercover status.
 - b. The person approving the undercover status shall communicate this approval in writing to the Commander overseeing the Records Information section so the proper data practices protections can be put in place.
2. An officer with undercover status needs their identity as a police officer to remain covert on an ongoing basis, and the officer's ability to constantly conceal their identity as a police officer is fundamental to that officer's ability to fulfill their job assignment which includes being a third-party observer of illegal activity or posing as a criminal to catch others engaging in illegal activity. An officer with undercover status must maintain cover or an alias on a long-term or ongoing basis.
3. Officers with undercover status that willfully identify themselves publicly as police officers in situations including but not limited to: performing off-duty law-enforcement-related jobs in or out of uniform, appearing in media stories or publicly engaging in social media in a manner in which the officer is identifiable as a police officer, will no longer be considered to have undercover status.

IV. Procedures/Regulations

A. Supervisor Responsibility

1. Supervisor approval

A supervisor shall approve all planned plainclothes details or undercover operations.

2. Supervisor presence

Some plainclothes details and undercover operations also require that a supervisor be present for the detail or operation (in addition to supervisor approval). These include, but are not limited to, controlled buys of illegal contraband or firearms, prostitution stings, and search warrants of structures (in accordance with P&P 9-301).

B. Undercover Operations Involving Prostitution

This section is intended to provide guidance for officers conducting undercover operations involving prostitutions. Investigations of this nature can be extremely difficult to conduct and are often closely scrutinized by the media, the public and the courts. To protect the integrity of the officer and the agency and to ensure successful prosecution of these cases, it is essential that these guidelines are followed and that officers conduct themselves in a professional manner during such operations.

1. It is the policy of the Minneapolis Police Department that officers shall not engage in sexual contact, expose their genitals, or commit other criminal offenses, to convince others that they are not associated with law enforcement.
 - a. A plainclothes officer in a decoy role shall not expose their private body parts, including female breasts, to a john or a prostitute, and shall not touch the private body parts, including female breasts, of a john or a prostitute.
 - b. A plainclothes officer in a decoy role shall document in their report any unsolicited touching of the officer's private body parts by a john or a prostitute.
 - i. The officer shall immediately disengage from the unsolicited touching and document how that was accomplished in the report.
2. All complaints of prostitution or sex trafficking occurring in a "massage parlor" shall be referred to Regulatory Services for licensing investigation.

C. Response to Calls and Identification of Plainclothes Officers

The quick and effective recognition of plainclothes officers is important for the safety of plainclothes officers, uniform officers responding to a scene, and the public.

1. Response to calls for service

- a. Plainclothes officers should only respond to calls for service when the responding plainclothes officer can be clearly recognized as a police officer, unless a non-response by the plainclothes officer would likely result in injury to another.
- b. Plainclothes officers should always assume they are not identifiable or recognized by other responding officers. They should always announce their non-uniformed response to an incident by notifying MECC Dispatch, and give a general description of themselves and their squad or vehicle.

2. Display identification

When taking police action in plainclothes, officers shall display their badge or department-issued identification card. Whenever feasible, plainclothes officers should be wearing identifiable police jackets or vests when taking police action or at a crime or incident scene.

3. Obey orders by other officers

Due to the possibility that plainclothes officers are often not recognized by other officers, they shall obey all orders given to them by other officers, including orders to disarm themselves, place their hands in the air or assume other non-threatening positions.

4. Uniformed response

When circumstances permit, the use of uniformed officers is required to make arrests, traffic stops, or investigatory stops.

- a. In accordance with the policy on Search Warrants (P&P 9-301), a uniformed officer shall be present when executing a search warrant.
- b. All non-uniform officers participating in the execution of a search warrant shall wear an outermost garment with the word "POLICE" on it.

CIs shall be treated as assets of the MPD, not the individual Handler.

E. Preferential Treatment or Consideration

CIs will sometimes offer to exchange information for immunity, consideration in sentencing, or for their release from criminal charges.

1. No promises or guarantees of preferential treatment within the criminal justice system shall be made to any CI without prior approval from the prosecuting authority.
2. Any employee seeking to make an agreement to exchange information for release from arrest or for requesting special charging or sentencing consideration from the prosecuting authority or court, shall have the prior approval of the employee's Commander or Inspector.
3. Agreements shall be documented in accordance with the MPD Managing Confidential Funds & Informants Manual.

F. Purposes of Information

CIs shall not be used to gather information purely of a political nature or for other information-gathering efforts that are not connected with a criminal investigation.

G. No Entrapment

CIs are prohibited from engaging in actions or activities that could be deemed entrapment.

Entrapment is when a person commits an act or engages in conduct otherwise criminal, if the criminal design does not originate with the person, but is conceived in the mind of a government agent, and the person is by coercion, persuasion, deceitful representation, or inducement lured into committing an act the person otherwise would not have committed and had no intention of committing.

H. No Guarantee of Anonymity

While all reasonable efforts will be taken to protect a CI's or confidential citizen's identity, law enforcement cannot guarantee that the name will not be released.

1. In these circumstances, the initial suitability determination can be deferred and a person may be used as a CI for a period not to exceed 12 hours from the time of arrest if all of the following apply:
 - a. The person is **not** excluded from use as a CI under [IV-A-3] of this policy.
 - b. There is compelling public interest or exigent circumstances exist that demand immediate utilization of the person as a CI and any delay would significantly and negatively affect any investigation.

 - a. CIs may voluntarily initiate deactivation, whereupon a CI Deactivation form shall be completed (per section [IV-M]).

4. Risk or threat of harm

- a. Reasonable protective measures shall be provided for a CI when any MPD employee knows or should have known of a risk or threat of harm to a person serving as a CI and the risk or threat of harm is a result of the CI's service to the MPD.
- b. Handlers shall:
 - i. Evaluate and document the criminal history and propensity for violence of target offenders; and
 - ii. To the extent allowed, provide this information to the CI if there is a reasonable risk or threat of harm to the CI as a result of the CI's interaction with the target offender.

5. Omit CI name in warrant affidavit

The name of a CI shall not be included in an affidavit for a warrant unless judicial authority is obtained to seal the document from the public record or the CI is a subject of the investigation upon which the affidavit is based.

6. Screen CI for buys and sales

Preceding or following every buy or sale of controlled substances, Handlers shall screen the CI for any personal safety or mental health concerns, risk of substance abuse, or potential relapse in any substance abuse recovery.

- a. At the request of the CI, or if the Handler deems it necessary, reasonable efforts should be taken to provide the CI with referrals to substance abuse or mental health services.
- b. Handlers shall document the following on the CI Receipt for Services or Contraband form (MP-2801), per section [IV-N-3]:
 - i. The screening of the CI,

- 1. Handlers of CIs who will be engaging in operational activity in locations outside the jurisdictional boundaries of the MPD shall coordinate with counterparts in law enforcement agencies that have jurisdiction in that location where the CI will operate before any activity occurs, unless the Chief or the Chief's designee has approved otherwise.
- 2. If unanticipated activity occurs outside the jurisdictional boundaries of the MPD and is brought to the attention of the Handler, they shall coordinate in a timely manner after with counterparts in law enforcement agencies that have jurisdiction in that location.

3. The Chief or the Chief's designee may review and approve a decision to delay notification to or coordination with an outside agency having jurisdiction in the area where a CI has or may operate. The Handler shall document the decision and approval.

2. The requesting officer shall submit a written request explaining the need for review. A copy of this request, with the officer's name, shall be maintained in the person's CI file.
3. Officers shall not remove, copy, or disseminate information from the CI file.

4. CI files shall be reviewed only in designated areas of the law enforcement facility and returned as soon as possible to their secure file location.
5. All disclosures or access to CI files shall be recorded by the file supervisor, to include information such as the requesting officer or agency, the purpose of access or disclosure, the information conveyed, and the date and time of access or dissemination.
6. No portion of a person's CI file shall be entered into any other electronic or related database without controls sufficient to exclude access to all but authorized personnel with a need and a right to know.

M. Deactivation of CIs

When deactivating a CI, the Handler shall complete a CI Deactivation Form (MP-9105) that includes, at minimum, the following:

1. The name of the CI.
2. The control number of the CI, where applicable.

10-205 Interviewing Suspects in Hospital

(A)

When officers interview suspects who have been admitted to any hospital, prior permission must be obtained from the Administration Office of the hospital, the doctor in charge of the patient, or the head nurse. This does not pertain to suspects in emergency rooms being contacted by officers on immediate follow-up investigations.

Juveniles may be interviewed in hospitals with the hospital's permission, but only after an attempt has been made to also contact the parents for their permission. (04/01/93)

10-206 Electronic Recording of Custodial Interrogations/Interviews

(01/30/95) (09/13/04)

(A-C)

Officers shall electronically record all custodial interrogations/interviews of suspects when the questioning occurs at a place of detention, i.e., Hennepin County Adult Detention Center (HCADC), Juvenile Detention Center (JDC), or a MPD vehicle that is equipped with Mobile

Video Recording (MVR) equipment, etc. Interrogation includes any information about rights, any waiver of those rights, and all questioning.

Upon completing an electronic recording of a custodial interrogation/interview, the tape(s) shall be property inventoried according to department procedures.

For further information regarding audio recordings of suspect interrogations/interviews in MVR-equipped vehicles, see Section 4-218 - Mobile Video Recording Equipment.

10-207 Eyewitness Identification (02/01/21)

I. Purpose

The purpose of this policy is to establish guidelines for eyewitness identification procedures involving show-ups, photo arrays, and line-ups. Erroneous eyewitness identifications have been cited as a factor frequently associated with wrongful convictions. Therefore, in addition to eyewitness identification, all appropriate investigative steps and methods should be employed to uncover evidence that either supports or eliminates the suspect identification.

II. Definitions

Administrator: The officer conducting the identification procedure.

Independent Administrator: A person who does not know the identity of the suspect.

Functional Equivalent: When an independent administrator is unavailable, a functional equivalent method must be used. Functional equivalent means that the administrator cannot see and does not know the order of the photos and that the witness knows the administrator does not know the order.

Blind Presentation: During a blind presentation, no one who is aware of the suspect's identity should be present during the administration of the photo array.

Blinded Presentation: When the administrator may know the identity of the suspect but does not know which photo array member is being viewed by the eyewitness at any given time.

Confidence Statement: A statement in the witness's own words taken immediately after an identification is made stating their level of certainty in the identification.

Confirmatory Photograph: An identification procedure in which a single photograph of an individual is shown to a witness or victim to authenticate the identity of a person.

Eyewitness: A person who has observed an event and can provide a first-hand report of what was seen.

Filler: A live person, or a photograph of a person, included in an identification procedure who is not considered a suspect.

Line-up: The process of presenting live individuals to an eyewitness for the purpose of identifying or eliminating suspects.

Photo Array: A means of presenting photographs to an eyewitness for the purpose of identifying or eliminating suspects.

Sequential: Presentation of a series of photographs or individuals to a witness one at a time.

Show-up: The presentation of a suspect to an eyewitness within a short time frame following the commission of a crime to either confirm or eliminate the suspect as a possible perpetrator. Show-ups, sometimes referred to as field identifications, are conducted in a contemporaneous time frame and proximity to the crime.

Simultaneous: Presentation of a series of photographs or individuals to a witness all at once.

III. Policy

- A. Officers shall adhere to the procedures for conducting eyewitness identifications set forth in this policy, in order to maximize the reliability of identifications, minimize erroneous identifications, and gather evidence that conforms to contemporary eyewitness identification protocols.
 - Exceptions to this policy include instances in which a person, acting independent of law enforcement, spontaneously identifies a person as being the perpetrator of a crime or identifies a suspect via social media prior to meeting with an MPD employee.
- B. Photo arrays and line-ups shall be conducted by displaying the suspect and fillers sequentially using a blind or blinded administration.
- C. Employees shall complete a supplemental Police Report if they:
 - 1. Coordinated, assisted, or witnessed a show-up.
 - 2. Acted in the capacity of the line-up administrator.
 - 3. Were designated as the assigned investigator or otherwise considered to be assisting in the investigation.
- D. All eyewitness procedures shall be recorded by either BWC, MVR or audio recording devices. See P&P 4-223 for BWC P&P 4-218 for MVR.
- E. The use of a confirmatory photograph is limited in scope to those instances in which the person being identified is previously known by or an acquaintance of the person viewing the photograph.

- F. Any photo line-up that is viewed electronically shall be printed for documentation and inventoried or saved to an electronic file.
- G. Employees **shall not** request an eyewitness to represent their response in the form of a percentage. For example, if the witness positively identifies a suspect, employees should not then ask them to give a percentage of how certain they are that the person they identified is the suspect.

IV. Procedures

A. Show-ups

1. The use of show-ups should be avoided whenever possible in preference to the use of a lineup or photo array procedure.
2. If circumstances require the prompt presentation of a suspect to a witness, the following guidelines shall be followed to minimize potential suggestiveness and increase reliability:
 - a. Document the witness's description of the perpetrator prior to conducting the show up.
 - b. Conduct a show-up only when the suspect is detained within a reasonable time frame after the commission of the offense and within a close physical proximity to the location of the crime.
 - c. Do not use a show-up procedure if probable cause to arrest the suspect has already been established.
 - d. If possible, avoid conducting a show-up when the suspect is in a patrol car, handcuffed, or physically restrained by officers, unless safety concerns make this impractical.
 - e. Caution the witness that the person they are about to see may or may not be the perpetrator, and it is equally important to clear an innocent person. The witness should also be advised that the investigation will continue regardless of the outcome of the show-up.
 - f. Do not conduct the show-up with more than one witness present at a time.
 - g. Separate witnesses and do not allow communication between them before or after conducting a show-up.
 - h. If one witness identifies the suspect, use a line-up or photo array for remaining witnesses.
 - i. Do not present the same suspect to the same witness more than once.

- j. Do not require show-up suspects to put on clothing worn by, speak words uttered by, or perform other actions of the perpetrator.
- k. Officers should scrupulously avoid words or conduct of any type that may suggest to the witness that the individual is or may be the perpetrator.
- l. Ask the witness to provide a confidence statement.
- m. Remind the witness not to talk about the show-up to other witnesses until police or prosecutors deem it permissible.
- n. Document the following information:
 - i. The time and location of the show-up.
 - ii. The officers present.
 - iii. The full name and contact information of the eyewitnesses.
 - iv. The suspect's clothing appearance, from head to toe. Photographs should be taken to fully capture the details of the suspect's clothing and appearance.
 - v. Environmental and physical circumstances that could include but are limited to:
 - Lighting,
 - Weather,
 - Approximate distance between the eyewitness and suspect,
 - Whether the suspect was handcuffed, and
 - Time that transpired between the suspects detention and the eyewitness' identification.
 - vi. The result of the procedure.

B. Line-up and Photo Array Procedures

1. Line-ups should not typically be used for investigations, unless conducting a photo array is not possible.
2. Whenever possible, a blind presentation shall be used. In cases where a blind presentation is not feasible for a photo array, a blinded presentation should be used.
3. Live line-ups must be conducted using a blind presentation.
4. Basic Procedures for Conducting a Line-up or Photo Array:
 - a. The line-up or photo array should consist of a minimum of six individuals or photographs, with a minimum of five fillers and only one suspect.

- b. Fillers should be reasonably similar in age, height, weight, and general appearance and be of the same sex and race, in accordance with the witness's description of the offender.
- c. Create a consistent appearance between the suspect and the fillers with respect to any unique or unusual feature (e.g., scars, tattoos, facial hair) used to describe the perpetrator by artificially adding or concealing that feature on the fillers.
- d. If there is more than one suspect, include only one in each line-up or photo array.
- e. During a blind presentation, no one who is aware of the suspect's identity should be present during the administration of the photo array. However, during a line-up, the suspect's attorney should be present.
- f. Place suspects in different positions in each line-up or photo array, both across cases and with multiple witnesses in the same case.
- g. Witnesses should not be permitted to see or be shown any photos of the suspect prior to the line-up or photo array.
- h. The witness shall be given a copy of the following instructions prior to viewing the line-up or photo array and the administrator shall read the instructions aloud before the identification procedure.
 - i. You will be asked to look at a series of individuals.
 - ii. The perpetrator may or may not be present in the identification procedure.
 - iii. It is just as important to clear innocent persons from suspicion as it is to identify involved parties.
 - iv. Either:
 - aa. I don't know whether the person being investigated is included in this series (if administered by an independent administrator); or
 - ab. I do not know the order of the photos (if administered by a functional equivalent).
 - v. Sometimes a person may look different in a photograph than in real life because of different hair styles, facial hair, glasses, a hat or other changes in appearance. Keep in mind that how a photograph was taken or developed may make a person's complexion look lighter or darker than in real life.
 - vi. You should not feel that you have to make an identification. If you do identify someone, I will ask you to describe in your own words how certain you are.
 - vii. The individuals are not configured in any particular order.

- viii. If you make an identification, I will continue to show you the remaining individuals or photos in the series.
- ix. Regardless of whether you make an identification, we will continue to investigate the incident.
- x. Since this is an ongoing investigation, you should not discuss the identification procedures or results, particularly with any other potential witnesses.
- i. The line-up or photo array should be shown to only one witness at a time.
- j. Officers should separate witnesses prior to and during viewing so they will not be aware of the responses of other witnesses. Once the viewing is completed the eyewitness should be told not to discuss the procedure or their response with any other eyewitness.
- k. Multiple identification procedures should not be conducted in which the same witness views the same suspect more than once.
- l. Officers should scrupulously avoid the use of statements, cues, casual comments, or providing unnecessary or irrelevant information that in any manner may influence the witnesses' decision-making process or perception.
- m. Following an identification, the administrator shall ask the witness to provide a confidence statement and document the witness's response.
- n. The administrator shall ask the witness to complete and sign an Eyewitness Identification Procedure Form.

C. Photographic Arrays

- 1. Creating a Photo Array
 - a. Use contemporary photos.
 - b. When compiling photographs, employees shall only view databases or case files in which they have been granted access.
 - c. Do not mix color and black and white photos.
 - d. Use photos of the same size and basic composition.
 - e. Never mix mug shots with other photos.
 - f. Ensure the images are consistent in photo appearance and in appearance with the suspect, which includes but is not limited to the following;
 - Skin tone

- Complexion
- Hairstyle
- Facial hair
- Build
- Glasses
- Eye color
- Background
- Photo sizing

- g. Do not include more than one photo of the same suspect.
 - h. Cover any portions of mug shots or other photos that provide identifying information on the subject; and similarly cover other photos used in the array. This includes jail markings, booking information, or other personal identification markings that would specifically identify the suspect.
 - i. Where the suspect has a unique feature, such as a scar, tattoo, or mole or distinctive clothing that would make them stand out in the photo array, filler photographs should include that unique feature either by selecting fillers who have the same features themselves or by altering the photographs of fillers to the extent necessary to achieve a consistent appearance.
 - j. Fillers should not be reused in arrays for different suspects shown to the same witness.
2. Conducting the Photo Array
- a. The photo array should be preserved, together with full information about the identification process as part of the case file and documented in a report.
 - b. If a blind administrator is not available, the administrator shall ensure that a blinded presentation is conducted using the following procedures.
 - i. Place the suspect and at least five filler photos in separate folders for a total of six (or more depending on the number of fillers used).
 - ii. The administrator will take one folder containing a known filler and place it to the side. This will be the first photo in the series. The administrator should then shuffle the remaining folders (containing one suspect and the remainder of fillers) such that they cannot see how the line-up members are ordered. These shuffled folders will follow the first filler photo. The stack of photos is now ready to be shown to the witness.

10-212 Administrative Subpoenas

(01/26/90)

The county attorney has the authority to subpoena records relevant to law enforcement investigations. Records may be obtained from telephone companies, utilities, chemical suppliers, hotels and motels and businesses engaged in transportation, storage and delivery. (Minn. Stat. §388.23)

Guidelines to utilize this Administrative Subpoena power for cases under investigation have been provided to the department by the Hennepin County Attorney. See the section titled Requests for Normal and After-Hours Administrative Subpoenas.

For Qwest Communications subpoena processing information, see section titled Qwest Communications Subpoenas, Search Warrants and Court Orders. (11/06/07)

10-212.01 Request for Normal & After-Hours Administrative Subpoenas

(01/26/90)

Procedures for requesting an Administrative Subpoena are as follows:

1. Complete a Request for Administrative Subpoena form (MP-3605).
2. Complete the Administrative Subpoena form (MP-3404).

3. **Normal Subpoena:** Present the Request for Administrative Subpoena and the Administrative Subpoena forms to a senior attorney in the Hennepin County Attorney's Office. The attorney who signs the subpoena will retain the original request form and a copy of the issued subpoena.

After-Hours Subpoena: Call one of the senior attorneys authorized to approve an after-hours subpoena. (Investigative unit supervisors have a list of attorneys.) Advise the attorney of the situation and provide all necessary information. The attorney, upon satisfaction that the statutory requirements are met, will authorize the subpoena, over the telephone. **The Officer Must Note the Authorization** on the Administrative Subpoena by noting both the officer's and attorney's names, the date and time, and the fact that it was authorized by telephone on the subpoena. The next working day a completed copy of both the Request for Administrative Subpoena form and the Administrative Subpoena must be delivered to the senior attorney who authorized it.

Telephonic (after-hours) Administrative Subpoena authorization is limited to those situations that cannot wait until the next business day. Also keep in mind that most records available through an Administrative Subpoena will only be accessible during normal business hours.

4. Present a copy of the subpoena to the person or business that has custody of the records to be subpoenaed.
5. If necessary, at the time of service, the original signed subpoena may be used to display the signature, and then must be placed in the investigative file.
6. If the person or business subpoenaed refuses to provide the subpoenaed records, contact the Hennepin County attorney who signed the subpoena. That attorney will then prepare a court order to compel production of the records.

Request for Administrative Subpoenas (MP-3605) and Administrative Subpoena (MP- 3404) forms may be obtained from MPD Stores.

10-212.02 Qwest Communications - Subpoenas, Search Warrants, Court Orders (01/26/90)

Qwest Communications requires an Administrative Subpoena, Search Warrant or Court Order prior to the release of any non-published customer record information. (11/06/07)

To secure non-published customer record information in an emergency situation, a properly executed Administrative Subpoena, Search Warrant or Court Order may be presented or faxed to the Qwest Communications Security Office. (Investigative unit supervisors have a listing of normal and after hours contacts.) When an After-Hours Administrative Subpoena or other document is faxed, a copy of the document must be mailed to the Qwest Communications Security Office the next business day. (11/06/07)

Note: Qwest Communications will continue to provide information in connection with an emergency 911 trace. (11/06/07)

10-213 36-Hour Hold and 48 Hour Hold Rules
(04/01/93)

(A-B)

The 36-hour rule means that an arrested party must have been charged or released from custody no more than 36 hours from the time he was arrested. The 36 hours exclude the day of the arrest, Sundays and holidays. The clock for the 36-hour rule starts running at 0001 hours on the day following the arrest. The County Attorney, in extremely significant cases, may be able to petition to the court to extend the 36-hour rule. This extension can only be authorized through the County Attorney's Office.

The 48-hour rule means that all warrantless arrests on "Probable Cause" must have a judicial review within 48 hours of the arrest if we are going to continue to detain the arrestee. The 48-hour rule goes into effect at the instant the suspect is notified of being placed under arrest (not the time of the booking or time the reports are made). This rule does not replace the 36-hour rule; it is a separate rule and both rules must be followed. Investigators should note that in some cases, the 36-hour hold period is longer than the 48-hour period.

If, in the normal course of an investigation, an investigator presents the case to the County Attorney's Office, a complaint is drafted, sworn to and signed before the Court, within the 48 and 36-hour period, no separate judicial review is required.

If, however, a judicial review of "Probable Cause to Detain" becomes necessary as a result of the 48-hour rule, it is the investigator's responsibility to bring this to the attention of the County Attorney's Office and to supply them with the documentation needed to support the "Probable Cause" for the arrest and continued detention.

During business hours, as soon as an investigator realizes that the judicial review of the "Probable Cause" for arrest is necessary under the 48-hour rule, to continue detention through the duration of the 36-hour rule period, he/she shall deliver to the Hennepin County Attorney's Office supporting documentation. The Hennepin County Attorney's staff will obtain judicial review of these cases and fax copies back to the investigator of the Court's decision. If the Court makes a finding of "Probable Cause" and approves continued detention, it is the responsibility of the investigator to notify the Hennepin County Jail. If the court does not find "Probable Cause" and will not approve continued detention, the investigator shall release the arrestee as appropriate (no charge, pending complaint, tab charge, etc.).

On Saturdays, the Investigative unit representative and the duty officer will evaluate all "Probable Cause" holds. On Sundays and holidays, the Day Watch Watch Commander will conduct the review of "Probable Cause" holds. In juvenile cases, juvenile investigators have exclusive responsibility for handling the arrest and all "Probable Cause" determinations.

It is the responsibility of the Juvenile Division investigator to notify the Hennepin County Juvenile Detention Center of the continued detention or release of a suspect after the "Probable Cause" hearing.

10-214 Use of DNR / Trap and Trace Device

(03/21/95) (11/06/07)

All officers and investigators needing to have a Dialed Number Recorder/DNR (pen register) or Trap and Trace device utilized as a resource for an ongoing investigation shall notify the Organized Crime Unit Technical Support Section of their intent before a court order is signed. This will allow Technical Support Section personnel to obtain the proper equipment before the court order is activated, and will serve to keep a record of the unit to be billed.

Prior to a DNR (pen register) or Trap and Trace order, the officer/investigator shall subpoena the phone company of record to ensure the proper company is served with the Trap and Trace order.

The officer/investigator shall forward a copy of the signed court order to the Technical Support Section prior to the DNR (pen register) or Trap and Trace being installed.

After being contacted, the Technical Support Section will furnish the officer/investigator with the requested reports.
